MELLETT MURDERER ESCAPES

HOOVER BACK OF ADEQUATE U. S. TARIFF

Wali May Be Raised to Add Protection for Number of Industries
MEET MANY PROBLEMS
U. S. Producers Feel That Low Standards in Europe Force High Tariff

(In this, the first of a series of 12 dispatches, David Lawrence gives an outline of the tariff policy of the Hoover administration. In succeeding dispatches he will discuss other topics, sketching the basis of action in the new administration.)

BY DAVID LAWRENCE
(Copyright, 1929, by Post Pub. Co.)

Washington—Herbert Hoover is wedded absolutely to the protective tariff idea. This, however, nowadays, is not merely an acceptance of the abstract principle of protection. It means rather a desire to protect, almost at any cost, American industries, a protection which may mean raising the present tariff wall.

Mr. Hoover's conception of a tariff is not political. It is economic. He is as much against a dishonest tariff, or the setting up of duties far in excess of what is necessary actually to protect, as he is opposed to the theory that the American-made products should have a tariff wall to permit of free competition between foreign made goods and American manufactures.

It is Mr. Hoover's belief that the Paramount consideration is protection for the American producer and that the wall should be just high enough to keep out foreign goods that actually compete. There are always, of course, foreign articles, which will come into America in spite of the tariff because some Americans prefer a particular style of quality. But, broadly speaking, the basic American production depends upon a tariff wall that actually excludes outside competition.

DEPEND ON PROTECTION
The president-elect conceives the entire economic structure of today as dependent upon real protection. And, because he thinks the protective tariff principle is sound, he is willing to have it applied in an upward revision wherever what he calls "the shifting of economic tides in our various industries" make necessary such a revision.

For several weeks there have been hearings in the ways and means committee of the house inspired by Mr. Hoover. If there were industries in need of protection he saw no reason why the task should be postponed. Naturally, any change in the tariff causes uneasiness because any disturbance of the status quo, whether upward or downward, affects somebody adversely. The importers and traders in foreign goods are concerned lest a prohibitive

STOUGHTON MAYOR TO KEEP JOB, HE AVERS

Stoughton—(P)—Because of a state law which would forbid an increase in his salary, and because he "might be accused of being yellow," Mayor Sam A. Peterson withdrew his resignation before the city council here Monday night.

The mayor submitted his resignation to the council at its previous meeting but it was not acted on at that time.

In presenting the resignation, which was to have become effective April 2, Mayor Peterson told the councilmen that his city office forced him to neglect his own business and that he ought to have an increase in salary.

Principals In Tragedy

Murder and suicide wrote a tragic chapter in the story of the Dohenys, with the slaying in Los Angeles of Edward L. Doheny, Jr., only son of the oil king who figured in the Teapot Dome scandal, and the suicide of Hugh Plunkett, "under cover" man for the Dohenys. Young

Roheny was one of the principal witnesses in the oil quiz, as it was he who carried the little black bag containing \$100,000, to Albert B. Fall, former secretary of the interior.

Doheny is shown at the left and Plunkett, who is believed to have become suddenly deranged, at the right.

Fear Floods Will Claim Huge Toll In Lost Lives

London—(P)—Flood terrors replaced rigors of bitter cold over a large part of Europe Tuesday. It was feared that when the toll of the inundations, real and prospective, was complete, it would equal or surpass that of the cold.

The Danube and tributaries swelled over their banks and forced many from their homes. Melting snow and ice caused disastrous floods in Macedonia and Thrace. Bavarian rivers overflowed, while rising temperatures in northern Italy foreshadowed rapid swelling of rivers there.

Advices from the Danube district, where ice and snow have been piled six feet thick over the surface of the river, indicated a worse situation, possibly, there than elsewhere. The Danube and its tributaries had not only to carry off the huge load of melting ice and snow but faced the hazard of ice dams which spread its waters over wide areas before they could be broken.

Widespread havoc was reported from Thrace and Macedonia where the Struma and other rivers overflowed, sweeping away bridges and hundreds of cattle and flooding homes. A number of peasants were drowned. Part of the city of Cavalla, site of an American tobacco depot, was submerged, while Heraclea was transformed into a vast lake with inhabitants being fed by merchants who piled their trade in boats. Jugoslavian and Grecian soldiers cooperated to save lives and property. In Bavaria large areas were flooded by overflowing rivers.

A huge snowstorm stopped all train service in southern Sweden and in some sections of Scandinavia inhabitants had to dig their way out of houses through second story windows, so deeply they were buried. Continued intense cold was predicted.

FLOOD IN BRAZIL

Sao Paulo, Brazil—(P)—The Tiete river, in the heart of Brazil's coffee growing district, is experiencing the worst flood in 40 years. It has overflowed its banks for several miles, 5,000 houses are under water and 25,000 people are homeless. Heavy losses are expected.

HOOVER'S RETURN TO HOME IN WASHINGTON

Washington—(P)—Back from his month's vacation in Florida, President-Elect Hoover reached Washington at 1:30 Tuesday afternoon.

The president-elect, accompanied by Mrs. Hoover, was met at the Union station by Hubert Work, chairman of the Republican national committee and by George Akerson, his private secretary. Only very few persons were admitted to the station platform, but a crowd of about 200 had gathered in the station to welcome him. Mr. Hoover was applauded as he sped through the station.

Accompanied by the southern sun, Mr. and Mrs. Hoover posed for an instant for cameramen and movie operators before entering their automobile and proceeding to their home.

NO FRAUD IN EARLY SALT CREEK OIL CASE

Washington—(P)—The senate lands committee was advised Tuesday by its special investigator, Thomas Sterling, that he had found no evidence of illegal or fraudulent practices on the part of the original applicants for leases in the Salt Creek, Wyo., oil fields.

Tonight's Paper Filled With Dollar Day Bargains

Clothes, hardware, furniture, food, confections, shoes, hats, jewelry—and even bus fares are listed in the hundreds of bargains to be found advertised in tonight's edition of the Appleton Post-Crescent. The dollar day sales will start early tomorrow morning and the rush will be on from then until Thursday night. Yellow banners in the windows will indicate which stores are cooperating in this great sales event if you should forget which stores appear on the following list:

A. Galpin Sons, Pettibone Peabody Company, Glouchemans Gage Company, Teich Shoe Company, Leath and Company, Belzer Ready-to-wear, General Store, Bart's Candy Shop, George Walsh Company, Fleischmanns Shop, Fashion Shop, Cameron Schulz, Bohi & Maeser, Rehbein Millinery, Behnke's Store, Kamp's Jewelry

ADDED FUND IS ASKED BY CAL IN ESTIMATE

Additional \$2,427,514 for Enforcement Is Approved by President

Washington—(P)—Senator Blaine, Republican, Wisconsin, Tuesday told the senate that he opposes the Jones bill to increase prohibition violator penalties because it did not discriminate between gangster bootlegging activities and the simple violations by individuals.

Washington—(P)—President Coolidge has drawn up for submission to congress a supplemental budget estimate recommending that an additional \$2,427,514 be appropriated for prohibition enforcement in the fiscal year ending June 30, 1930.

The item of \$24,000,000 for dry law enforcement was placed in the deficiency appropriation bill at the instance of Senator Harris, Democrat, Georgia. The house declined to accept it and since then the bill has been tied up awaiting senate reconsideration.

Recently the treasury informed the house appropriations committee that it could use \$2,500,000 more immediately to strengthen enforcement by the prohibition and customs services.

DRYS SATISFIED

It was explained at the White House that assurance had been given that proponents of the \$24,000,000 amendment for prohibition enforcement which was attached to the first deficiency bill would be satisfied with the sum recommended by Mr. Coolidge.

Mr. Coolidge recommended the supplemental appropriation after conferring with members of the house and senate, the treasury department and the budget bureau. His call from congress thought it best to deal in this way with the situation brought on by the \$24,000,000 amendment.

Mr. Coolidge was of the opinion that he had recommended appropriations covering all amounts it would be advantageous to spend, but was willing to be guided by the judgment of those with whom he conferred.

HUNT FOR CLEW IN KENOSHA SHOOTING

Expert to Determine if Russo Was Killed by Lanzilotti's Pistol

Kenosha—(P)—A firearms expert Tuesday was expected to determine if Eugene Russo, 26, who was "taken for a ride" last September, was killed by bullets from the gun which was found in Anton Lanzilotti's hand as he lay dying in the street here Sunday.

Lanzilotti, termed by police as a liquor racketeer, used the gun in making a last stand against his slayers who shot a stream of lead into him from a speeding automobile. He was suspected of being one of the men who killed Russo, a rival racketeer and for that reason police are having the firearms expert compare the bullets found in Russo's body with those found in Lanzilotti's room.

Lanzilotti was killed after the Chicago gangsters fashion. The plausible reconstruction of the crime puts Lanzilotti about four blocks from the Holy Holy Rosary church early Sunday evening and his killers in an automobile. The slayers shot at their prey and then a running fight in which Lanzilotti plus a revolver with six shots against a machine gun. The end of the picture finds Lanzilotti shot down near the church and his assailants escaping in a speeding automobile.

The congregation of the church rushed into the street after the sharp staccato of the machine guns were heard, to find Lanzilotti dying, his empty-chambered pistol grasped tightly in his hand. He died without revealing the identity of his assailants.

Police see the slaying as a retaliatory measure for the death of Russo, or rivalry between liquor racketeers. Tuesday the papers were still at large while police were delving into the past activities of Lanzilotti to gain a clew on which to work.

GERMANS MAY GIVE SHELTER TO TROTZKY

Berlin—(P)—It is understood that the German government already has granted permission to Madame Trotsky and her children to enter Germany. There is also every reason to believe that it will decide to allow Leon Trotsky, former head of the Red army now in exile, to reside in Germany, provided he undertakes to abstain from all political activities and lead a quiet retired life.

CLAIRVOYANT GETS LONG PRISON TERM

Pocatello, Idaho—(P)—A. E. Meyer, 38, as A. J. Stevens, fortune teller, was sentenced to a term of from 5 to 10 years in the state penitentiary on a charge of obtaining money under false pretenses. He was accused of taking money from a woman to finance a treasure hunt for \$100,000 lot of an early day stage coach robbery. Meyer formerly operated in Chippewa Falls, Wis.

Sleuths Up In Hearing In Chicago

Every Detective Asked to Tell of Whereabouts at Time of Slayings

Chicago—(P)—Coroner Herman N. Bundesen revealed Tuesday that his life had been threatened twice in the past three days which he attributed to his activity in investigating the St. Valentine day massacre of seven members of the Moran gang.

Last Sunday Dr. Bundesen said, he received an anonymous telephone call in which he was told that "you will be the next to go if you don't watch out." Monday, he said, he received an anonymous letter asking him how he would "like to kick the bucket."

Chicago—(P)—Every detective squad member on the Chicago police force was called in for questioning in the gang massacre investigation Tuesday. Each was asked:

"Where were you last Thursday morning between 10 and 11 o'clock?" That was the hour in which seven of George (Bugs) Moran's men were lined up in a N. Clark-street garage and slain.

State's Attorney John A. Swanson issued the order for questioning of the policemen.

"It isn't because Swanson believes the gang killers were led by city detectives," one of his aides explained. "It is because he is not absolutely sure that they were not."

Most witnesses have mentioned that the slayers were using a detective bureau squad car. Several said that two of the five men in the automobile wore police uniforms.

DON'T THINK COPS GUILTY

Police Commissioner William Russell is convinced that no policeman were involved, but he is lending his assistance to the state's attorney's clean up the mystery. It is the commissioner's theory that if any of the slayers wore uniforms it was as a disguise.

Every squad car that has been sold in the last few years is being traced. In this manner, police believe, they may find that the machine used by the murders was, as witnesses said, a police car, but one that had been disposed of by the department.

There was a report, which the state's attorney would not discuss, that a special meeting of the grand jury had been called for Tuesday. This was taken as an indication that the investigators had sufficient evidence to warrant its immediate presentation.

DOCTOR SHOT DOWN BY UNKNOWN ENEMY

Two Bullets Crash Through Windows of Home—His Condition Not Serious

Milwaukee—(P)—Dr. A. W. Johnson, 39, Hales Corners physician, was recovering in a hospital here Tuesday from a bullet wound suffered in his home Monday evening. His condition is not serious.

The shot which was fired through the window of the sunroom of the Johnson home followed one that narrowly missed Mrs. Johnson. It struck the doctor in the chest.

He was playing on the floor of an adjoining room with his children, while his wife was reading in the sunroom, when the first bullet shattered the window. Rushing into the room, the doctor was felled by a second shot, coming about 20 seconds after the first.

Mrs. Johnson, who was a nurse before her marriage, immediately turned down the lights, called a doctor and applied first aid until he arrived.

Deputy sheriffs, who investigated the shooting, as well as the Johnsons, were unable to shed any light on it. There were no footprints in the snow immediately adjacent to the Johnson residence. However, it was pointed out that the slayer could have been fired from behind a shrubbery along the road, some 50 feet away. Both came from the same direction.

Mr. Johnson declared that neither he nor his husband had any enemies.

GIANTS CLASH IN SENATE ON DRY QUESTION

Many Frightened by Reed's "Joking" Threat to Divulge Wet Dry's Names

Washington—(P)—Those who hoped that the seventeenth congress would not end without a debate between two mighty orators, Reed of Missouri and Borah of Idaho, have had their wish. The two gave the controversial subject of prohibition an airing Monday before a gallery that took all the seats and standing room and an idea of the renown of the speakers could be gained from the fact that almost the full membership of the senate heard the clash.

The Anti-climax came after the speeches had ended. Senator Reed threatened Saturday to make public a list of senators and representatives who "vote dry and drink wet."

Monday he assured his hearers that he was joking. All the members of the house did not know of this assurance and someone Monday night spread the news at the capitol that the names of certain representatives were on the list that the Missouri senator intended to give out. Three were many telephone calls and a number of hurried visits to Reed's office before those concerned learned that no list was to be issued.

Reed retired to private life at the end of this session and during his 18 years in the senate the news that he was speaking has been sufficient

ONEIDA INDIAN'S BODY FOUND FROZEN IN BARN

Green Bay—(P)—The frozen body of Dennis Elm, an Oneida Indian about 35 years old, was found in a barn at Oneida Monday afternoon. The death is being investigated by Coroner Frank Hodek and officials of the Oneida Indian reservation. The body was brought to De Pere Monday afternoon by town officials.

Green Bay—(P)—The frozen body of Dennis Elm, an Oneida Indian about 35 years old, was found in a barn at Oneida Monday afternoon. The death is being investigated by Coroner Frank Hodek and officials of the Oneida Indian reservation. The body was brought to De Pere Monday afternoon by town officials.

HUGHES CONFERS ON LAKE DIVERSION CASE

Chicago—(P)—Charles Evans Hughes as special master in chancery for the supreme court of the United States, conferred Tuesday with counsel for the Chicago Sanitary district, the state of Illinois and the eight states who are opposing the city's diversion of Lake Michigan water for sanitary purposes. The purpose was to outline means whereby the supreme court's order to determine how the flow might be reduced could be carried out. A formal hearing will be held by Mr. Hughes at a later date.

Two Houses Forget About Speech--So Does Speaker

Madison—(P)—Both houses of the Wisconsin legislature met in joint session Tuesday to hear a speech by Mary O. Krusek, Milwaukee, championing the primary election laws for the benefit of minority parties. The bill eliminates the clause requiring each primary candidate to receive 5 per cent of the votes cast for the gubernatorial candidate of his party at the preceding general election in order to be placed on the November election ballot.

Charles in the real estate board are provided in a bill which has been introduced by Senator Irving M. Boardman, Milwaukee. It calls for a board of three men to be appointed by the governor and confirmed by the senate. The bill also provides that the board may conduct hearings by its own motion.

A bill by Senator Oscar Morris, Milwaukee, provides for an increase in salary for four constitutional state officers from \$5,000 to \$7,000 yearly. They are secretary of state, state treasurer, attorney general and superintendent of public instruction. The governor's salary since the recent increase is \$12,000.

INLAND PRESS GROUP OFFERS SOLUTIONS FOR CRIME PROBLEM

Chicago—(P)—Cures for Chicago's crime were suggested in abundance Tuesday by members of the Inland Press association.

Speed up the courts, swift and severe punishment for gangsters, cut off the flow of liquor honest, socially and educate the public to the dangers of patronizing bootleggers, were some of the prescriptions tendered.

A radical step was offered by Will V. Telford of Clinton, Iowa. "Vigilance committees will do the work where officials can't or won't," he declared.

"String them up," put in Walter S. Montgomery, publisher of the Daily Tribune at New Albany, Ind.

Many of the members agreed with Clough Gates, business manager of the Superior, Wis., Telegram, as to what he would if confronted in his town with a situation like that in Chicago. "I'd run," was his solution, briefest of all.

Replies To His Foes In Vote Probe

Special Attorney Says Progressives Trying to Bury Real Issue

Milwaukee—(P)—Declaring that "the outcry of the Progressives against alleged inaccuracies in the financial statements of his report on the John Doe investigation into campaign expenditures" is but a quibbling over detail, and "a strategy to bury the real issues," Arthur R. Barry, special prosecutor in a formal statement Tuesday reiterated four of the charges contained in the report and declared that no answer to them has been heard. The four charges are:

1. Numerous violations of the law by the "LaPollette progressives" in republican campaigns which was formulated by Progressive candidates themselves for the purpose of evading personal responsibility for violations of the law they intended and did commit.

2. "The harmful influence of the railroad organizations which by illegal methods, with the connivance and aid of the Progressive candidates, attempted to control the primary elections for these candidates."

3. "The criminal use of money by persons living outside this state in behalf of the Progressive candidates with their aid and connivance."

4. "Sworn financial statements by the Progressive candidates of receipts and expenditures, which statements were intentionally and knowingly false and therefore criminal."

"The inaccuracies alleged to exist," the statement continues, "are matters of controversy, due, in a great measure, to the peculiar Progressive methods of evading the law in reporting them."

Touching on the incident of the distribution of a special edition of "Labor" in the state, Mr. Barry vehemently denied that the editor of that organ had ever offered to testify in the John Doe proceedings, as he had declared he had in newspaper articles.

"Mathematical red herrings have been drawn across the paths of the mental processes" of men "and they have completely lost sight of the great issue on whether the law is to be flouted at the will of a political faction," Mr. Barry concluded.

After the five men left their cells, they slipped along the corridor of their tier, which is in the front of the penitentiary, then mounted to the roof through a ventilator. From there they crawled to the roof of the wardens' residence, suspended their improvised ladder made of mattress material, and bed clothing from the roof and slid to the ground, disappearing in the snow-filled darkness.

The crime for which McDermott was sentenced—the murder of Don R. Mellett, crusading Canton publisher—was one of the most sensational Ohio has known. The freckle-faced Pennsylvania boy who found Mellett and Canton was named as the "tricker man" in the Mellett slaying.

None of the guards, who were on duty in the cell house at the time of the escape, was aware of the act that the men had gone over "the wall."

McDermott "tricker man" in the Mellett murder, was sentenced to life on Christmas eve in 1926 after a trial which lasted several weeks.

SAWS THROUGH PRISON BARS WITH 4 PALS

Five Convicts Win Freedom—Tracks Lost During Storm in Early Morning

7 MEN REFUSE FREEDOM

Prisoners Quartered With Five Stay in Penitentiary Despite Opening

BULLETIN

Marietta, O.—(P)—Washington authorities and Marietta police were summoned to Lowell, 10 miles north of here Tuesday after Sheriff C. E. Henery of Morgan-co., reported that W. W. Young, one of the escaped prisoners, and another man, had been located there. Sheriff Henery said that one of two men had been positively identified as Young and that he and his officers were closing in on them. Sheriff Ferley J. Way, Washington-co., and Chief of Police Homer Wolf of Marietta, accompanied by seven officers, left for the scene.

Columbus, Ohio—(P)—Two life term murderers, including Pat Mellett, slayer of Don Mellett, Canton publisher, and three other prisoners saved their way to freedom from the state penitentiary here early Tuesday.

They dropped from the roof of the residence of Warden Preston E. Thomas and escaped under cover of a blinding snow storm that soon obliterated their tracks.

Besides McDermott, those who escaped are: William W. Young, 40, Washington-co., serving a life term for murder.

James A. Walton, 23, Cuyahoga-co., serving a term for robbery.

Mike Jacko, 21, Cuyahoga-co., serving a term of 12 to 25 years for robbery.

Joe Rosso, 26, Cuyahoga-co., serving a term of 10 to 25 years for robbery.

The blinding snow storm left officials with no clew as to the direction the men took in leaving the penitentiary.

OTHER REMAIN

Seven other prisoners, including another life term murderer, who were quartered with the five escaped men refused to make the dash for liberty.

One bar on each of three cells was sawed in two with a hack saw, an aperture wide enough for a man to crawl through being made. The escape is believed to have been made between 4 and 5 o'clock Tuesday morning.

After the five men left their cells, they slipped along the corridor of their tier, which is in the front of the penitentiary, then mounted to the roof through a ventilator. From there they crawled to the roof of the wardens' residence, suspended their improvised ladder made of mattress material, and bed clothing from the roof and slid to the ground, disappearing in the snow-filled darkness.

The crime for which McDermott was sentenced—the murder of Don R. Mellett, crusading Canton publisher—was one of the most sensational Ohio has known. The freckle-faced Pennsylvania boy who found Mellett and Canton was named as the "tricker man" in the Mellett slaying.

None of the guards, who were on duty in the cell house at the time of the escape, was aware of the act that the men had gone over "the wall."

McDermott "tricker man" in the Mellett murder, was sentenced to life on Christmas eve in 1926 after a trial which lasted several weeks.

Forty Five Birds With One "Stone"

The stone in this case happened to be a two line classified advertisement under No. 47, the Pet Stock classification. The advertiser was Mrs. Wm. Branchford, 1235 W. Sumner Street. The "Birds" in question were canaries and the use of this small advertisement was enabled to dispose of 45 canaries. This, we contend, is a cutting result with a vengeance and is typical of what "Post-Crescent" classified advertising is doing for people of Appleton and vicinity. If its buying, selling or renting problem—let the Classifieds solve it.

Highway Committee Must Take Bids On Grease And Oil

SHOULD BUY BY CARLOAD, BOARD SAYS

Supervisor Sievert Says \$19,570 Is Spent for Lubricants in Year

The Outagamie-co highway committee must advertise for bids on all grease and oil purchased in the future, according to a resolution presented by Supervisor William Sievert, Appleton, and adopted by the county board Tuesday morning.

Mr. Sievert, in placing his resolution before the board, presented figures to show that in the period from Jan. 1, 1928, to Oct. 31, 1928, \$19,570.25 worth of grease and oils had been purchased.

"I can't figure out where all this grease is being used and if it is needed it should be purchased in car load lots at a big saving," Mr. Sievert said. "I have talked with other dealers and they tell me that from 5 to 10 cents can be saved on every gallon of grease and oil the county purchases."

218 DRUMS OF OIL
Total cost of oil during the ten months referred to by Mr. Sievert was \$7,989.60 and the total cost of grease was \$11,580.63, he said. A total of 218 drums of oil was purchased of which 60 drums now are on hand at the garage. A total of 133 drums of grease was purchased, of which 60 are on hand now, he claims. He also pointed out that if this grease and oil was not stored in the county garage there would be room for at least three more trucks.

TOO MUCH STOCK
Mr. Sievert contended that it wasn't necessary to keep such large amounts of grease and oil on hand as it could be purchased and delivered on a week's notice.

Members of the highway committee explained, on request, that all grease and oil was now purchased by A. G. Brusewitz, highway commissioner. They said they had instructed him to make the purchases. Several attempts to have the resolution referred to the highway committee were blocked by a majority of the board and the resolution was adopted. Members of the highway committee said they would rather have the board act on the matter than to refer it to them.

APPROVE ADDITION
By a unanimous vote the board instructed the chairman and the county clerk to enter into contract with the lowest bidder for the construction of an addition to the county sanatorium. The work will be carried on under supervision of the building and grounds committee, the sanatorium committee and the sanatorium trustees. The approximate cost of the building will be \$125,000. Work will be started as soon as possible and the building is to be completed within a year.

On motion of Supervisor John Tracy, Appleton, the county board instructed the sanatorium committee to prepare a list of the names of all patients in the institution and to send copies of the list to the heads of the towns, cities and villages of the county.

Sheriff Fred W. Giese presented an invitation to the supervisors to visit the county jail during this session.

At 10:30 Tuesday morning, after but an hour's session, members of the board voted to adjourn without discussing either the snow removal problem or the matter of county road equipment buried beneath the snow at the grounds about the county garage and highway department barns. The board did not mention an afternoon session. At both Monday and Tuesday's session, when snow removal was not even mentioned, there were between 30 and 40 farmers sitting in the spectator's galleries.

FINANCE COMMITTEE TO OPEN BANK BIDS

The county board finance committee will meet Wednesday afternoon to open bids from county banks desiring to act as depositories for \$75,000 in county trust funds. The bids originally were to have been opened Monday, Feb. 11, but the opening was postponed to Monday, Feb. 18, and then again postponed until Wednesday afternoon.

ARREST MOTORIST FOR PARKING MINUS LIGHTS

Ralph McGowan, 908 E. Eldorado-st., was arrested early Monday morning for parking his automobile on N. Oneida-st. without lights. Fred Arndt, motorcycle officer, made the arrest. McGowan was to be arraigned in municipal court Tuesday afternoon before Judge Theodore Berg.

ONE SCHOOL PLAYS HOST TO OTHER AT VALENTINE PARTY

Pupils of Sunny Valley rural school, route 3, Cicero, were entertained at a valentine party Thursday afternoon by the teacher and pupils of Oak Leaf rural school, route 1, Seymour. Miss Ruby Feasel is the teacher of the latter school. The trip from Sunny Valley to Oak Leaf school was made in two bob-sleighs furnished with teams by L. Schmeichel and R. C. Schultz. Accommodations for the teams, while the children were at the party, were furnished by Walter Sherman. The afternoon was spent playing valentine games and distributing valentines. Pupils of Oak Leaf school presented a program and the Oak Leaf school also won a spelling match between the two schools.

COLD STILL RULES THROUGHOUT STATE

New Low Records for Winter Set in Several Instances in Wisconsin

(By the Associated Press)

After 24 hours of his icy embrace King Winter showed little inclination to relax his grip on Wisconsin and upper Michigan Tuesday. Sub-zero temperatures were the rule in all sections with mercury readings ranging from 48 to 6 degrees below zero.

Rice Lake, with an unofficial reading of 48 below, was probably the coldest spot in the state. Phillips had a temperature of 42 below zero. The official thermometer reading at Merrill at 7 o'clock was 34 degrees below zero.

Northern Wisconsin shivered in sub-zero temperatures that in many instances broke existing records for February and in a few cases set new low marks for the present winter.

Superior's official minimum early Tuesday morning was 23 degrees below zero. Barron reported 32; and Rhinelander, 22.

After breaking the low mark for the year at Barron, the mercury rose 20 degrees in three hours, but still was 20 below zero at 9 o'clock. Rhinelander's minimum was the lowest recorded in February for 18 years.

The weather forecast for Tuesday night predicted slowly rising temperatures throughout the lake district and northern Wisconsin, with a possible minimum of 20 below.

The lowest thermometer reading at Green Bay was 12 below zero Monday night. Thermometers registered 6 degrees below zero at Janesville Tuesday morning.

TO CHOOSE PIONEER LEADERS AT MEETING

Prospective Pioneer club leaders will meet at a dinner at the Y. M. C. A. at 6 o'clock Wednesday evening, according to C. C. Bailey, boy's work secretary. Club leaders are to be selected, and plans are to be discussed. Boy problems also are to be discussed. The Wednesday evening dinner meeting is open to any young man interested in leading an association club, according to Mr. Bailey.

PHONE MANAGERS AND EMPLOYEES AT MEETING

The semi-annual meeting of representatives of employees and of the management of the Wisconsin Telephone exchange was held at the local offices Tuesday afternoon. Personnel problems were discussed, and plans for the year were outlined. Those present at the meeting were Al Killam, Milwaukee; Joseph Wilson, Oshkosh; Frank La Rue, Fond du Lac; F. N. Belanger and Harold Miller, Appleton.

GREEN BAY MAN PAYS FINE FOR SPEEDING

William Wainwright, 610 S. Jackson-st. Green Bay, was fined \$10 and costs by Judge Theodore Berg in municipal court Tuesday morning when he pleaded guilty of speeding. He was arrested by Fred Arndt, motorcycle officer, Sunday evening for traveling 38 miles an hour on E. Cherry-st.

PISO'S COUGH
Quick Relief for Coughs, Croup, Whooping Cough, Sore Throat, and All Lung Affections. Sold Everywhere.

Actress Released From Prison

Here is Dorothy Mackaye and her six-year-old daughter, Valerie Raymond, photographed in Los Angeles after the former actress was released from San Quentin prison the other day. Miss Mackaye, who was sentenced on a conviction of concealing facts surrounding the death of her husband, Ray Raymond, in a fist fight with Paul Kelly, movie actor, will fight to regain her former standing. She served ten months.

ELKS WILL INITIATE CLASS TUESDAY NIGHT

Past exalted rulers' night will be observed by Appleton Elks when they meet Tuesday evening at the club rooms and initiate members of the Thomas E. Orblison class. Past exalted rulers will be in charge of the evening's work, the meeting being designated as past exalted rulers' meeting by the grand lodge. A dinner at 6:30 will precede the initiation, while a program has been prepared for entertainment following the initiation. Reports on the coming Elk stag party also will be made.

JUDGE ORDERS BRIEFS IN SUIT FOR DAMAGES

After completing testimony Monday afternoon in circuit court in the suit for \$2,099 damages brought by Julius Endlich, administrator of the estate of his father, Jacob Endlich, against the Bank of Black Creek, the First National bank of Appleton, H. A. Hoops and Julius Endlich, as an individual, Judge Edgar V. Werner ordered the attorneys to submit briefs. He will take the case under advisement before giving a decision.

The estate seeks to recover \$2,099 paid by Mr. Hoops to the Bank of Black Creek as a settlement of a mortgage against Hoops' property held by the estate.

C. E. Behnke, former Appleton attorney and referee in bankruptcy, acting as Endlich's attorney, received the certificate of deposit from the Black Creek bank and cashed it at the bank in Appleton appropriating the funds to his own use. The complaint alleges Behnke signed Endlich's name without authority and therefore the banks are responsible for the money.

Behnke, who is serving a sentence in state prison at Waupun for misusing funds in office, was brought to Appleton by a prison guard to testify at the trial.

AGAIN POSTPONE HEARING ON BUS TRANSPORTATION

Another postponement of the hearing on passenger bus service maintained by the Wisconsin Michigan Fower Co. scheduled for 9 o'clock Thursday morning at the Menasha city hall has been taken to the same hour on Thursday, Feb. 28, according to a notice received Tuesday by A. C. Bossor, city attorney, from the Wisconsin Railroad commission. The date next Thursday conflicted with another date already set by the commission.

The hearing was set by the commission on complaint of Menasha, which alleged that the power company is not providing adequate service.

COMMITTEE ACTS ON RETAIL BUDGET

Recommendation that a budget be adopted by the retail division of the chamber of commerce to finance its activities during the next year, and that the funds be prepared among the retail stores in the city will be made to the retail division by members of a special sub-committee which met Tuesday morning to discuss the problem at chamber of commerce offices. Details of the plan will be worked out at another committee meeting Thursday, March 21 and a report prepared for the retail division when the group meets March 4.

Members of the special committee are H. A. Gloudehans, chairman, Henry Marx, and Joseph Langenberg.

STOPS FALLING HAIR
Lucky Tiger brand hair cream and hair lotion for falling hair. The hair grows back again. Each bottle under Money-Back Guarantee. At Barber and Dressing Salons.

STUDENTS LEARN VALUE OF COURTESY

Junior Class at High School Sponsors Week to Promote Good Manners

The Junior Class of Appleton High School inaugurated "Courtesy Week" with a special program Monday afternoon during the regular assembly period. A humorous stunt depicting courteous and discourteous behavior in the classroom, in the corridors, on the streets, and in the home, was given. F. N. Bellanger of the Wisconsin Telephone Company gave a talk on Courtesy in Business, stressing the need of courtesy in every day life and the harm which discourteous acts may cause.

Students who took part in the stunt were Cecil Bick, Bernice Merkel, Phyllis Bartler, Aroniel Bielke, Demont Bradford, James Schroeder, Lydes Becker, Virginia Oaks, Helen Block, Mary Stip, Jack Kimberly, Jack Schroeder, Neil Langman, and Loyal Fraser. Miss Borglund Anderson was faculty chairman of the stunt.

The Juniors are sponsoring Courtesy Week from February 18 to 22 to arouse the students to the fact that they are not always as courteous as they might be, and to promote courteous behavior in the school and elsewhere. Posters are displayed in the high school to remind students of their conduct at home and on the street.

INCREASED DEMAND FOR CURRENT, GAS IS SEEN FOR YEAR

Light and Power Companies
Will Spend \$950,000,000
for Extra Power

BY J. C. ROYLE
Copyright 1929

New York—The electric light and power companies will spend at least \$950,000,000 in 1929 in providing for the increased demand for current.

Sale of power today is progressing at a rate higher than has ever been reached before in history. The output is fully 12 per cent higher than at this time last year and there is every indication it will go still higher.

The sums to be expected are in the ratio of about seven parts for transmission and distribution facilities and three parts for central station construction and equipment.

The gas industry is equally prosperous. The sale of gas to consumers in 1928 gained 4 per cent as compared with 1927 and the gain since January 1 as compared with a year ago is well above 5 per cent.

It must be remembered in the case of both electric light and gas industries that plant expansion in reality has not been so extensive as appears on the surface. Many plants which ten or even five years ago were producing actively, now are in the obsolete class.

NEW UNITS IMPROVED
New units have improved upon efficiency and profits have been aided by lower fuel costs and utilization of more energy from fuel.

It now looks as though total production of current for 1929 would approximate 9,700,000 kilowatt hours as compared with 8,700,000 kilowatt hours in 1928. It is also forecast that the public utility companies which now have over ten billions of dollars invested will offer approximately \$1,750,000,000 in securities.

The domestic users of electricity are estimated now to total 19,000,000 or more in number while 3,375,000 patrons use current for industrial purposes. The watt hour meters of the New Edison company alone total 2,119,636. Since these numbers are far under the saturation limit, further expansions can be expected constantly. The industrial users alone will cause an increase in production of 1,250,000 horsepower a year.

Part of this expansion will come, of course, from hydro-electric developments. These cost more to build than the steam generated plants, but cost less to run. However, the coal burning central stations still are the backbone of the industry since the hydro-electric sites are now always in localities where output can readily be transmitted, distributed and sold.

It is equally clear that for the time at least, or until more efficient transmission system can be constructed it is not commercially feasible to generate electric power at the coal mine month. The mines usually are some distance from population and industrial centers.

STEAM PLANTS DEVELOPING
The development of steam plants near cities is progressing rapidly. Interconnection of lines and formation of power chains have resulted in a decided gain in earning power and the policy of consolidations and mergers may be expected to continue.

Output of natural gas in the current year is expected to exceed 1,700,000,000 cubic feet, while manufactured gas is expected to total 500,000,000 cubic feet.

BUSINESS TOPICS
Detroit—Construction is progressing rapidly on the \$5,000,000 Detroit Produce Terminal. Equal ownership has been offered five railroads and three, the Pennsylvania, the Pere Marquette and the Wabash, have accepted. The terminal will be operated by the Detroit Union Produce Terminal company, controlled by carload receivers of fruit and vegetables.

San Francisco—Figures just made public here show that bank clearings in this city in 1928 broke all previous records and exceeded figures for 1927 by about 14 per cent. The total was \$11,491,219,374.

COMMODITY NOTES
Electrical Equipment
Detroit—Consolidation is in progress between the Square D company of Detroit and the Industrial Controller company of Milwaukee which are larger manufacturers of electric switch and control devices.

Sugar
San Francisco—Prices quoted by local sugar refiners are the lowest since April 14. Heavy stocks and expectations of large importations from Cuba are given as reasons.

FELT LIKE A WRECK

Mr. Peter Dais, New Franklin, Wis., declares: "I suffered so I couldn't raise my arms above my head. My stomach was always full of gas. I had stabbing pains around the heart. I was a wreck. Nothing gave me relief until I discovered Dreco. Now I feel like a young man."

Dreco, a combination of plant and herb juices combines very readily with the juices of the stomach and that is why its action is so prompt and so positive.

Dreco

Root and Herb Tonic
Sold by Schilz Bros. Drug Store and all druggists.

FARMERS UNABLE TO CUT WOOD ON ACCOUNT OF SNOW

Many farmers in the vicinity of Appleton are having trouble cutting their supply of wood for summer because of the deep snow. The snow prevents the farmers from chopping down trees and it also prevents the farmers from reaching the tree with sleds. When they are able to cut wood and load it on sleds they have trouble getting it home because the concrete pavements are bare and the horses are unable to pull the heavy loads.

WOULD GIVE BOARD POWER IN DISPUTES

Industrial Commission Could
Settle Labor Problems Under
Proposed Bill

Madison—(AP)—Extensive authority for the settlement of labor disputes would be conferred upon the industrial commission by a bill introduced by Sen. Howard Teasdale, Sparta.

The bill provides that every employer and every official of a labor union or employers' association shall be required to notify the industrial commission as soon as he learns of an impending strike of lockout. Persons failing to make such notification would be guilty of a misdemeanor and liable to a fine of from \$10 to \$500 or 90 days in jail.

This measure provides that the industrial commission shall send a representative to the scene of the labor dispute to attempt a settlement. The commission shall then appoint a paid arbitration board to consider the merits of each side. If arbitration fails, the commission shall investigate the dispute and determine which side is at fault, publishing its findings. In case the dispute involves a public service corporation, the industrial commission's findings shall be sent to the railroad commission. If that commission finds the returns of the corporation are sufficient to meet the recommendations of the industrial commission it shall order the corporation to make effective the recommended wages, hours and working conditions.

If its rates are not sufficient, the railroad commission shall order a revision of rates to enable the corporation to make such changes.

for the drop of \$4.90 a hundred for cane and \$4.80 for beet.

Hosiery
Reading, Pa.—Gustav Geiges, president executive council of the American Federation of Full Fashioned Hosiery Workers says that the report that communistic influences are at work among the hosiery workers is a pure myth.

MANY GET BACK YOUNG APPETITE

Quick lunches, usually cold, gulped down so the "dinner hour" will not be over before you can do a little playing, is the best way to ruin your stomach, and you suffer from indigestion, heartburn, bloating, nervousness, headaches; and, worst of all, you get thin, pale and weak. If you must eat that way, always keep a package of Pape's Diapepsin handy so you can chew one of the pleasant-tasting tablets after your meals. It keeps the food sweet so your stomach can digest it. Follow the experience of thousands who again have a young appetite. All druggists recommend and guarantee Pape's Diapepsin to relieve indigestion and sweeten the stomach in 5 minutes.

STOCK INVESTERS
HEAVY LOSERS IN
JANUARY VENTURES

Nearly All Groups but Public
Utilities and Copper Com-
panies, Decline

BY CHARLES F. SPEARE
Copyright 1929

Wall St., New York—Review and
outlook—The public that made its
initial ventures in the stock market
in January has lost money until it
confined its operations to the shares
of public utilities and those of the
copper companies.

Nearly every group shows declines
in spite of Monday's recoveries. The
losses are large enough to have wiped
out substantial margins.

In the decline last June the aver-
age of stocks went off 23 points. In
the December break the loss was 20
points. By the first of February the
market had recovered an average of
42 points from its low level in Decem-
ber, but at the closing last Sat-
urday, it was down 18 points from
the high of the year. So far, there-
fore, there has been a smaller aver-
age loss than in the other interrup-
tions to the bull campaign during
the preceding eight months.

Those who have been buying stocks
during the early stages of the rising
market still have substantial paper
profits and are able to withstand
losses of the size of those that have
occurred since Feb. 1. The distress
signs have all come from a public
that rushed into accumulative stocks
last month and followed them up to
the highest prices in their history.

The position of those who consti-
tute the last and thinnest stratum
in the speculative structure may be
illustrated by a comparison of a
number of the high prices of the
year and those that have seriously
affected margin accounts within the
last few days. For instance, among
the rails which ran up sharply two
weeks ago, with trading in them the
broadest in two years, there are de-
clines of 25 points in Canadian Pacif-
ic, 16 in Chesapeake and Ohio, 15 in
New York Central, 12 in New Hav-
en, 13 in Union Pacific, 12 in Read-
ing, 9 in Erie common and 11 in
Baltimore and Ohio.

DROPS ARE LARGE
In the automobile group Chrysler
has had a decline of 36 points, Pack-
ard 27, Hudson 10 and Hupp 13. In
the specialties John Manville had
a drop of 48 points, Montgomery
Ward 37, National Cash Register 25,
Westinghouse 22, Liquid Carbonic
33, Radio 75, Curtis Aeroplane 28 and
Gold Dust 16. All of these stocks
compelled margins ranging from 40
to 100 points and those who held
them were called upon to make good
the shrinkage that had occurred in
their accounts with the decline in
their holdings.

Not even the high grade invest-
ment industrials were spared for
General Electric lost 38 points, Steel
common 25 and General Motors 8
points.

The effect of this reaction has been
quite disturbing to the new invest-
ment trusts and trading corpora-
tions whose operations coincided
with the rally in the market in De-
cember and whose new capital was
first placed in stocks in January.
Some of these corporations are un-
derstood to show a considerable
shrinkage in the value of their cap-
ital assets. Others have realized
paper profits by taking advantage of
the recent break in stocks and with-
drawing funds from the call money
market to purchase highgrade issues
when the dropped down to the low
prices of the year.

As an indication of the force of the
selling movement nearly 285 differ-

Stop
Nasal
Catarrh!

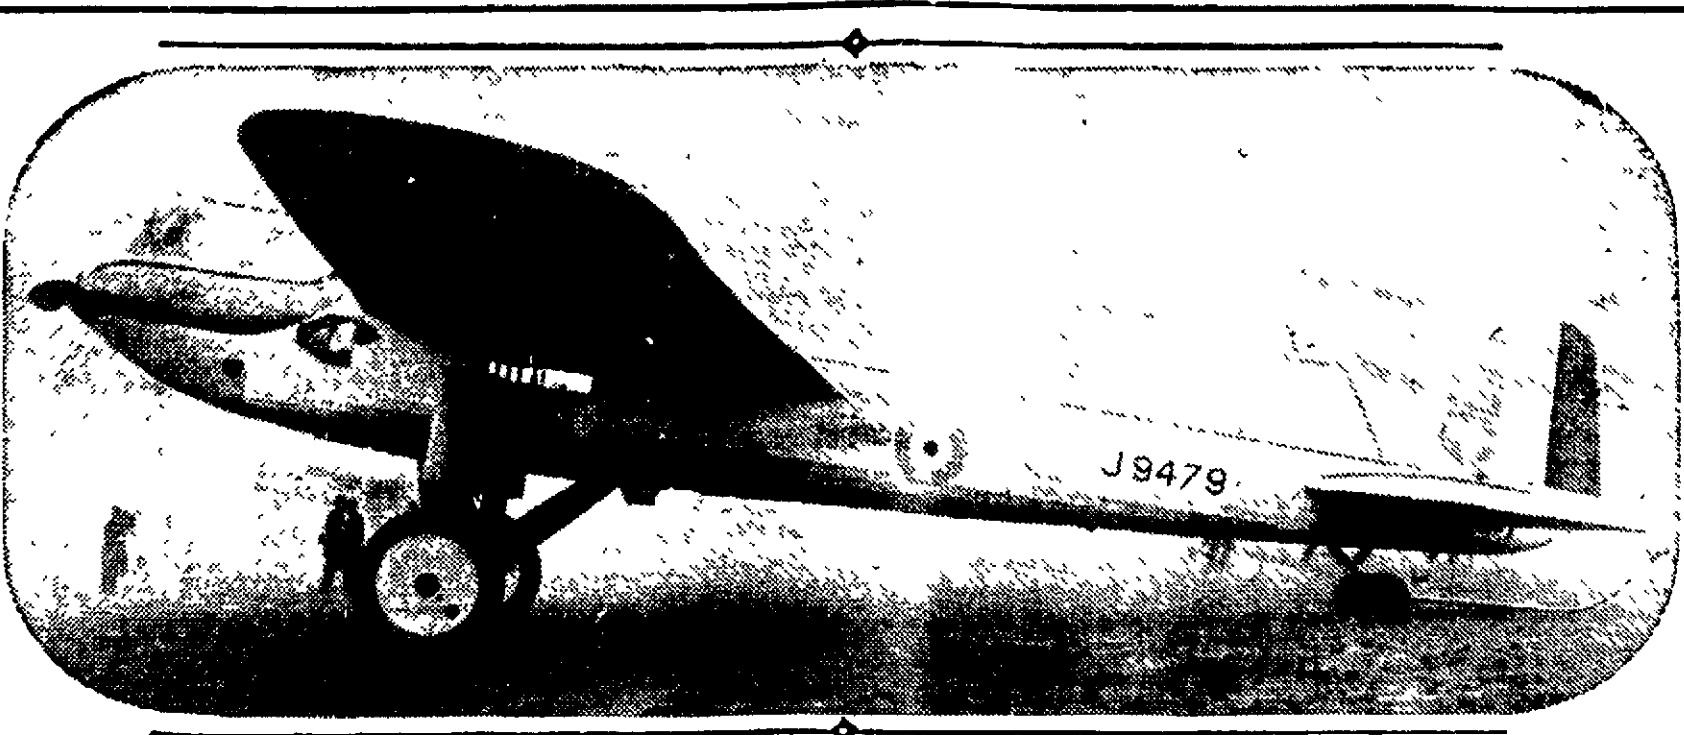

Count 50! Relief!
Count fifty! Your catarrh or cold
in head disappears. Your clogged
nostrils will open, the air passages
of your head will clear and you can
breathe freely. No more snuffing,
hawking, mucous discharge, dry-
ness or headache; no struggling for
breath at night.
Get a small bottle of Ely's Cream
Balm from your druggist and apply
a little of this well known antiseptic
cream in your nostrils. It penetrates
through every air passage of the
head, soothing and healing the swollen
or inflamed mucous membrane,
giving you instant relief. Head colds
and catarrh yield like magic. Don't
stay stuff-n-up and miserable. Relief
is sure.

Giant British Plane on Long Flight

One of the most remarkable machines of the Royal Air Forces is this huge Farrey-Napier monoplane, with which Britain hopes to win the endurance and long-distance records. The plane is to attempt a flight from Capetown to England a distance of between 6,000 and 7,000 miles. In the wings that span 82 feet there can be stored more than 1,000 gallons of gasoline. A feature of the craft is a 'hooter,' or horn, which is intended to awaken the pilot if the machine goes off its course. The radiator amidships can be lowered below the fuselage in the tropics and hauled up in colder climes.

ARRANGE SPECIAL TRAIN
TO INAUGURAL SERVICES

The Wisconsin special train which
will carry Badger residents to the
national capital at Washington, D.
C. to attend the inaugural cere-
monies on March 4, will leave Milwa-
ukee at 10 o'clock Sunday morning,
March 3 and will return to Milwa-
ukee on the next Wednesday. Ar-
rangements for the special train are
being made by a Wisconsin Hoover-
Curtis Inaugural committee of which
F. F. Wettengel and J. P. Frank,
Appleton, are members. Reserva-
tions for the trip close on Feb. 27.
People desiring to make the trip
may communicate with either Mr.

Wettengel or Mr. Frank. The price
for the trip includes round trip tic-
ket, two nights on the sleeper en-
route, one night's occupancy in
Washington and a grand stand seat
at the parade.

It is estimated that only 5 to 14 per-
cent of Florida's white population is
foreign born.

CHILDREN'S CODE
HEARING, FEB. 28

Meeting Will Be Held in
Assembly Parlors of State
Capitol

Madison —(P)—The first hearing
on the children's code bill, will be
held Thursday, Feb. 28 in the assem-
bly parlors according to an an-
nouncement by the judiciary com-
mittee of the assembly, of which
Alvin C. Reis is chairman.

The measure covers six phases of
the work designed to aid all chil-
dren in the state in need of special
care, including the care and treat-
ment of the delinquent child and
for the dependent child, protective
measures for the neglected child, a
greater measure of security and pro-
tection for the adoptable child, a
statement and strict licensing of in-
stitutions for the child, and the
locking and reorganization and modern-
ization of provisions covering the
practices in institutions for the child
care.

Several hundred people are to ap-
pear so the committee arranged for

hearing in the Assembly parlors in
stead of the Judiciary room.
Judge E. Hay Stevens, of the Wis-
consin Supreme court, Judge James
Hill county judge of Sauk coun-
ty, Baraboo, Mr. Edwin S. Mack, of
Milwaukee, Prof. John L. Gillin
Madison Mrs. J. William Gross, gen-
eral chairman of the children's code
committee, Milwaukee, and others
are expected to appear in favor of
the code.

ERECT STEEL WORK
FOR NEW ALUM BIN

Most of the structural steel work
for the new alum bin at the city
pumping station and filtration plant
has been erected, and it is expected
the bin will be completed in two
weeks, according to A. J. Hall, su-
perintendent. The bin has a capacity
of approximately five tons of alum,
and is to be 14 feet wide and 25
feet long.

CRIME COMMISSION ATTACKS PENOLOGY IN THIS COUNTRY

Conditions in Jails Are Appalling, Report of Organization States

BY LEMUEL F. PARTON
(Copyright, 1928, by Consolidated Press Association)

New York—The first official report of the National Crime commission containing findings and recommendations of national application is a devastating attack on penology in the United States.

Previous reports of the commission, formed three years ago with Frank O. Lowden as chairman, stressed the lack of crime statistics and laid the groundwork for more detailed study. This report, made public today, was prepared for the commission by the sub-committee on pardons, parole, probation, penal laws and institutional correction. After reciting shocking conditions of filth and degradation in jails and reformatories throughout the country the report says:

"These facts should be kept in mind when we point with pride to what the United States has done in the field of penology. Actually our typical institutions, the one on which we rely most heavily to protect society from crime, is not the reformatory or state prison, but the jail, an institution far inferior to any that can be found in Europe. Two hosts of our enlightenment and our freedom from old world conservatism, but actually we are maintaining a penal institution hoary with the age of centuries, an institution which England abandoned over fifty years ago."

CONDITIONS APPALLING

The report reviews jail conditions specifically in California, Alabama, Georgia, Indiana, Florida, Iowa, North Dakota, South Carolina, Wisconsin and North Carolina, prefacing this study as follows:

"In view of our strong attitude on this subject we think it is advisable to depend for the evidence mainly on official reports, which it will be agreed, are certainly more likely than not to err on the side of conservatism. The excerpts which follow are alone sufficient to condemn the whole system of local penal institutions."

The state reports record over crowding, filth, disease, lack of sanitary facilities, no segregation of sexes, no matrons for supervisions of women prisoners, negligent and incompetent jailers, inadequate feeding, flogging of prisoners, no isolation from communicable disease, cold, damp, sewer gas, bad ventilation, lack of bathing facilities, vermin, lack of hospital provisions and indiscriminate mixing of men and minors with hardened or congenital criminals. As set forth under the signature of Louis N. Robinson, secretary of the commission the report is an appalling recital of barbarity and stupidity.

The chief recommendation of the report is that states assume control over local jails.

One of the main themes of the report is the contention that young offenders, not necessarily of criminal types, are given a thorough education in crime doing 30 or 60 days in a typical American jail.

FOR RESENTENCING PLAN

Miss Jane Hoey, member of the New York Crime commission, and assistant director of the New York Welfare Council was asked today to comment on the commission's report. Miss Hoey, in her work, has made an extended study of penological problems, particularly with regard to young offenders. She said:

"There is no question as to the failure of persons in checking or curing crime. Our present methods are based on the apparent conception that criminals are of a single standard type and that one method is suitable for all. There must be a segregation of types and a study of individual variations if the slightest progress is to be made."

"For my own part I strongly endorse former Governor Smith's resentencing plan, which provided that the sentencing of criminals should be taken out of the hands of judges and turned over to a board of experts, not only equipped with a scientific knowledge of penology but provided by the psychiatrists as consultants. Such a board would bring increasing emphasis upon the necessity and possibility of moral and economic rehabilitation, rather than punishment."

"In our work in furtherance of Mr. Smith's plan, we have found that the main opposition has come from the judges—naturally as their powers would be lessened. Eminent psychiatrists, like Bernard Glueck, of Harvard, are agreed that background social factors are pre-eminent."

CAST IS CHOSEN FOR COSTUME PRODUCTION

The cast for "Richelieu," costume drama to be given at Lawrence college, has been chosen, and practices will begin immediately, according to Miss Lucille Welty, who will direct the production. Because the play demands such a large cast, tryouts were open to the whole school instead of just Sunset Players club, as has been the case in all other plays given this year.

George Beckley, Appleton will carry the part of Louis XIII; Jack Rudolph, Green Bay the part of Barades; and John Willem, Milwaukee will play the role of Richelieu. De Alauprat will be impersonated by William Meyer, Appleton Joseph by Robert Valentine Escanaba; Hugnet by Charles Peerenboom, Appleton and De Berughen by Donald Christensen, Oshkosh, Miss Eleanor Lee, of Elgin, Ill., will carry the part of Julie.

THREE LOCAL MEN AT NEW YORK CONVENTION

Three representatives of the Fox River Paper company and one from the Patten Paper company are attending the annual convention of the American Pulp and Paper association in New York city. The convention sessions opened Tuesday morning and will continue until Friday. Hundreds of pulp and paper men are gathering in New York to discuss problems of the industry and exchange ideas. Appleton and Neenah men in attendance are W. C. Wing, A. C. Remley, Smith McLandress and Joseph Pirle.

A government decree, establishing compulsory insurance for travelers and livestock carried on Spanish railways, became effective November 1, 1928.

ently important in the crime problem. No one can deny that the institutional problem, as outlined by the National Crime Commission is of the utmost importance but that is only part of it.

There is needed not only the right kind of institutions, but a great deal of profound and scientific study in the segregation of offenders and treatment adapted according to the different types.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally by Drinking Quarts of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and can be used in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

LAUNCH BOY SCOUT FINANCIAL DRIVE AT DINNER MEETING

Winning Campaign Patrol Will Receive "Mysterious" Loving Cup

The 1929 valley council boy scout financial campaign was launched at a dinner meeting of team captains and workers at Hotel Northern Monday evening. George Packard, general chairman, presented final instructions to workers. He urged that the men put forth their best efforts so that the council objective of \$6,500 would be realized by Thursday evening when final reports are to be made at a dinner at Conway hotel.

Teams have organized themselves into scout patrols and will strive to earn the "mysterious" loving cup which is to be awarded Thursday evening to the team procuring the largest number of subscriptions.

William Falatic, chairman of the committee in charge of solicitations in local industrial plants, outlined his plans and stated that the drive in the various shops would be entirely up to the individuals. Solicitations are to be wholly voluntary.

There will be another report dinner at Hotel Northern at 8:30 Tuesday evening, and workers will submit their first subscriptions. Dinner meetings on Wednesday and Thursday evenings are to be held at Conway hotel.

Teams are as follows: Carl Sherry, captain, M. Bacon, J. Wright, A. P. Jensen, Al Markham, Earl Boulton, G. Moore, George Werner, captain, F. J. McGowan, Walter Joyce, H. H. Heible, George Butth,

Chris Roemer, and the Rev. F. C. Reuter; William Buchanan, captain, Dr. G. W. Carlson, J. Norman Fisher, Herb Hellig, and Roger Tuttrup; J. Trautman, captain, Frank Sager, J. R. Walsh, Russel Spoor, G. Trentlage, and T. E. Orblison; G. Johnson, captain, Dr. J. L. Benton, Mark Catlin, O. R. Kloeck, A. Oostorhaus, and Walter Zwicker; H. L. Dowbly, captain, W. E. Smith, E. W. Shannon, Guy Marston, Walter Lehmann, and T. H. Beiling; Robert Connelly, captain, Elmer Root, A. G. Meating, Louis Bonini, John Engel, and Martin Van Roy.

Other team captains and members are as follows: F. N. Belanger, captain, George Wood, C. C. Nelson, Kenneth Corbett, William Lyons, and J. Hollenbeck; Chris Mullen, captain, E. A. Killore, James Balliet, Lester Balliet, John Roach, and John Haug, Jr.; E. E. Cahall, captain, Armin Scheurle, John Hertel, Fred Schlitz, J. Riese and B. Helm.

SPORTSMEN DON'T NEED BUTTONS TO FISH, HUNT

Madison—(AP)—The state conservation commission cannot require hunters and fishermen to wear a button as evidence that they have purchased a license, the attorney general has informed the commission.

Under the commission's rules, non-resident fishermen have been required to wear a button so wardens can easily determine whether they have purchased a license. There is no resident fishing license fee at present, but one is asked in bills now before the legislature. Other measures before the legislature would require the wearing of a license button by all trappers, hunters and fishers.

The attorney general's opinion holds that such authority does not, at present, rest with the commission. Even so distinguished a non-resident fisherman as President Coolidge wore the license button during his visit to the Brule last summer. It was a solid gold button prepared especially for his use by the game body. Less favored fishermen wore a plain celluloid button.

PLAY PRESENTED AT SUNSET PLAYERS MEET

"Fancy Free," a one act play by Stanley Houghton was presented at the last meeting of Sunset Players, Lawrence college dramatic club, under the direction of Donald Christensen of Oshkosh. William Meyer, Appleton, took the part of Alfred and Ross Cannon, Appleton, the role of Ethelbert. Miss Lucille Oganne, Neenah, impersonated Fancy, and Miss Gertrude Weber, Appleton, took the role of Della.

Play Read
At Meeting

THE drama, a book review and paper on adult education will be subjects of study at three local club meetings Wednesday afternoon. Mrs. F. W. Clippinger will give a paper on "The Civic Republic of New York" and will read the play, "The Cradle Song" by Siena, at the meeting of the Town and Gown club at 230 Wednesday afternoon at the Theta rooms at 814 E. Lawrence-st., with the Misses Edith Wiegand and Dorothy Bethurme as hostesses.

J. L. Wolfe will conclude a review of the book, "Paris on Parade" by Robert Forrest Wilson, begun at the last meeting of the Fortnightly club at the club meeting Wednesday afternoon at the home of Mrs. A. F. Kietzien, 305 W. Prospect-ave.

Adult Education will be the subject of a paper given by Mrs. R. B. Thiel at the meeting of the Tuesday Study club at 2:30 Wednesday afternoon at the home of Miss Ida B. Hopkins, 820 E. North-st.

The Clio club, the Tourists club and the Monday club met Monday. Nineteen members of the Clio club met for supper at the home of Mrs. Ed Ek, E. North-st. Mrs. Ek was assisted by Mrs. Frank Wright, Mr. J. R. Denyes and Mrs. Peter Tim. Mrs. C. O. Gochneuer reviewed the book "The Age of Reason" by Mrs. James Wood, E. Washington-st. will enter the club at 2:30 Monday night and Mrs. Otto Kuehnst will give the program, the subject of which will be Paper Making.

Husbands of members of the Tourist club were guests at a supper meeting Monday night at the home of Mrs. Judson Rosebush, Park-ave., with Mrs. S. C. Rosebush, Mrs. Frank Young and Mrs. Lucy Reeve as assistant hostesses. Moving pictures taken in Europe last summer by Dr. Roy Purdy were shown. The club will meet at 2:30 next Monday afternoon with Mrs. S. C. Rosebush and Mrs. Frank Shattuck will give a paper on Hills and Valleys of Palestine.

The Enemy Within our Gates was the subject of a talk by Mrs. W. Ray Challoner Monday afternoon at the meeting of the Monday club at the home of Mrs. Anna Fenton, E. College-ave. Seventeen members were present. Mrs. C. O. Davis will entertain the club on Monday, March 1, and Mrs. Fenton will give the program.

CLUB MEETINGS

The Duna club was entertained Sunday night at the home of Miss Hilda Rohloff, N. Superior-st. Two tables of bridge were in play and honors went to Miss Dorothy Bleier and Miss Katherine Keller. The club members will be guests of Miss Irma Sigliniski, E. Atlantic-st., next Monday night.

Miss Gertrude Gartz was the hostess at the meeting of the Eleven o'clock Bridge club Monday night at her home at 830 E. Commercial-st. Miss Gladys Barbeau and Miss Jane Jansen won prizes at bridge. The club will meet next Monday night at the home of Mrs. Earl Gartz, 543 N. Meade-st.

Guest day will be observed at the meeting of Lady Eagles Wednesday afternoon at Appleton Woman's club. Hodge and Schafkopf will be played. Members of the committee in charge will be Mrs. H. Rehlender, chairman, Mrs. Elwin Stecker, Mrs. W. Klarnst and Mrs. M. Bardehagen.

Mrs. Lester Vorstegen entertained eight members of the Phi Mu alumnae club at Hotel Northern Monday evening. Bridge was played, and the prize going to Mrs. E. H. Hagen.

Mrs. Elmer O'Keefe, S. Walnut-st., will entertain the General Review club Wednesday night at her home. Mrs. A. Pfankuch will give the program.

Quotations about or from George Washington will be given in answer to roll call at the meeting of the Sunshine club Friday afternoon at the home of Mrs. Mary Sheerin, 124 W. Water-st. Neenah. Mrs. Anna Fatts will be the assistant hostess.

Mrs. H. H. Helbie read a short story at the meeting of the Fiction club Monday afternoon at the home of Mrs. George Nixon, N. Superior-st. Mrs. Howard Nussbaker will entertain the club in two weeks at her home in Bellefont and Mrs. Lacey Horton will be the reader.

About 20 persons attended the meeting of the American Legion Monday night at the armory at which a short business session was followed by cards and refreshments. Mrs. Dan Doyle won the prize at bridge and Mrs. William Bogan the vice prize. Hostesses were Mrs. George Buth, Mrs. Fred Heinritz and Mrs. George Lippert. The next meeting will be the third Monday, 1 March with Mrs. H. L. Flayman and Mrs. Roy Hauert the hostesses.

Miss Eleanor Redlin, 555 N. Bates-st., entertained the T. O. P. club Sunday evening at bridge. Prizes were won by Miss Verna Schuman and Miss Vera Oelke. The next meeting of the club will be in two weeks at the home of Miss Gertrude Dittman, E. Pacific-st.

Mr. and Mrs. John Bergman, N. Richmond-st., entertained the Early Hour club Sunday night. Robert Egan won the prize at schafkopf and Mrs. Egan the prize at bridge. Mr. and Mrs. Frank Groh will entertain the club at the next meeting, at their home on W. Sixth-st.

Principals Meeting
The regular meeting of high school principals will be held in the office of B. J. Rohan, superintendent of schools Wednesday morning. Administration matters concerning the high schools will be discussed.

Speaks Here

Edgar W. Bigelow of Washington, will speak Wednesday night at Lawrence Memorial chapel at a public meeting sponsored by Fraternal Order of Eagles.

EAGLES GREET
NOTED SPEAKER
WITH PROGRAM

Appleton Fraternal Order of Eagles has completed arrangements for what is expected to be one of the largest meetings in the history of lodge on Wednesday night at Lawrence Memorial chapel when Edgar W. Bigelow, past state president of the Washington state order, and representative of the organization department of the granderie will speak at a public meeting.

Robert M. Connelly will be master of ceremonies and numbers of the program will be musical selections by Joseph and Frank Doerflinger, dancing solo, Miss Beatrice Bossert, Mrs. A. Ritger at the piano, whistling numbers, George W. Laumann, solo, Miss Marie Alfieri accompanied by Miss Myrtle Rogers, solo by J. Martin VanRooy accompanied by Miss Rogers; songs by Miss Donna Herrmann; concertina selections by Arnold Gast; dancing duet by Miss Bossert and Miss Dolores Tustison with Mrs. Ritger at the piano; comedian number by Howard Conn and vocal duets by Mr. VanRooy and Mr. Connelly.

Mr. Bigelow is well known as a speaker in Eagle circles and at the present time is touring Wisconsin speaking at aerie all over the state.

SELF DENIAL
DISCUSSED AT
PRAYER MEET

Self denial was the subject of the first of the series of prayer meetings held this week at Trinity English Lutheran church. The meeting has been designated as the Week of Prayer and Self Denial by the Women's Missionary society and the Young Women's Missionary society of the church and all members of the church have been invited to attend the prayer meeting from 7 to 7:30 each night of this week. Mrs. A. F. Wendt was in charge of the meeting Monday night and she was assisted in the presentation of the topic by Mrs. R. C. Breitung, Mrs. George Knoke and Mrs. William Helm. Mrs. Breitung will lead the discussion of the topic, Thankfulness, at the meeting Tuesday night.

CARD PARTIES

Six tables were in play at the monthly bridge party for members of the United Commercial Travelers Monday afternoon at the Appleton Woman's club. Mrs. A. Krafteder, Mrs. William Lohr and Mrs. L. E. Powers won the prizes, and the hostesses were Mrs. Lyndon Carey, Mrs. M. Carey, Mrs. W. R. Larson and Mrs. E. P. Grignon.

James Lautenschlager, Dr. W. H. Meeker and George Perrenboom won prizes at skat at the weekly tournament Monday night at Elks club. Six tables were in play.

TEACHERS HEAR TALK
ON TEACHING ART

Miss Carrie Morgan talked on the Methods of Teaching Art to Grade School Children at the meeting of the fifth and sixth grade teachers Monday afternoon. After her talk the reading and geography groups met to discuss their programs. The same program was carried out at the meeting of third and fourth grade teachers Tuesday afternoon, and on Wednesday afternoon the first and second grade teachers will meet.

Mrs. Louis Jerocowicz, Mrs. Reinhardt Hoffman and Mrs. Michael Hartshorn, Jr., of Kaukauna, spent Saturday at Milwaukee.

That Baby You've
Longed For

Mrs. Burton Advises Women on Motherhood and Companionship

"For several years I was denied the blessing of motherhood," writes Mrs. Margaret Burton of Kaukauna. "I was terribly nervous and subject to periods of terrible suffering melancholia. Now I am the proud mother of a beautiful little daughter and a true companion and inspiration to my husband. I believe that every woman who desires to have a child should read 'That Baby You've Longed For' by Mrs. Burton. It is a book that will change the life of every woman who reads it. It is a book that will change the life of every woman who reads it. It is a book that will change the life of every woman who reads it."

Sea Music
Subject Of
Music Club

SEA music will be studied at the meeting of the Wednesday Musicale Wednesday afternoon at the home of Mrs. J. P. Frank, N. Park-ave. Mrs. Lacey Horton is the chairman of the program and current events will be given by Mrs. R. W. Gelschow after which there will be community singing.

The program:
To the Sea..... MacDowell
From the Depths..... MacDowell

ALL WOMEN IN
CITY INVITED
TO HEAR TALK

Mrs. Katherine Garlan Vilas, director of the Woman's Bureau of the Wisconsin Manufacturers' association, Madison, will speak at the joint inner meeting of the Appleton Woman's club and the Appleton Business and Professional Woman's society at Hotel Northern Tuesday evening. Mrs. Vilas' talk will center around improved working conditions for women in factories and with legislation governing hours of labor and other matters pertaining to women in industry.

All women in the city interested in hearing her talk, The Modern Spirit in Industry as It Affects Employed Women, are invited to attend the dinner.

CHURCH
SOCIETIES

Members of the Zion Lutheran Mission society will meet at 2 o'clock Wednesday afternoon in the assembly room of the Zion school. This will be the monthly business meeting of the organization.

The Young Ladies sodality of St. Therese church will meet at 7:30 Thursday evening at the parish hall. The regular monthly business and social meeting will be held.

A musical program will be given at the meeting of the Brotherhood of First English Lutheran church at 7:45 Tuesday evening at the church. Meltz orchestra will play a group of numbers as a part of the program which has been arranged by Charles Huesemann, Sr. After the program and short business session, there will be a social hour.

The Rev. L. F. Gast of Green Bay will preach the sermon at the week-day lenten service at First English Lutheran church at 7:30 Wednesday evening. The Rev. F. C. Reuter, pastor of the church, has been called to his home at Sandusky, O., because of the death of his brother, Henry Reuter.

The Friendship class will meet at 7:30 Tuesday evening at the home of Mrs. Ernest Maynard, 115 E. Spring-st. Mrs. Irwin Kimball will be the assistant hostess.

APPLETON GIRLS
ENTERTAIN AT
SHRINER DINNER

Miss Vesper Chamberlin and Miss Virginia Hosegood of the Bannister Dancing studio entertained with tea and tap dances Monday night at a dinner dance given by the Shriners of Green Bay at the Hotel Northern in that city. The Misses Chamberlin and Hosegood responded to numerous encores from the 250 guests present. They were accompanied by Mrs. H. H. Hosegood and son James.

LODGE NEWS

Announcement of the open card party of Thursday afternoon at Castle hall was made at the regular meeting of Pythian Sisters Monday night at the hall. Progressive bridge will be played and Mrs. Oscar Kunitz will be in charge. The officers club will meet Wednesday night at the home of Mrs. Carl Elias, E. Washington-st., with Mrs. Elias and Mrs. R. J. Manser the hostesses.

A social meeting of the Ladies Auxiliary of Eagles will be held at 2:30 Wednesday afternoon at Eagle hall. Schafkopf and dice will be played.

There will be a meeting of Deborah Rebekah lodge at 8 o'clock Wednesday night at Odd Fellow hall. Regular business will be transacted.

SOPH TRIANGLE CLUB
GETS 1929 CHARTER

The new charter for the Sophomore Triangle club was presented at a meeting of the Appleton high school group at the Y. M. C. A. Monday evening. The charter was recently granted by the student council of the high school. The new constitution for the club also was adopted at the meeting, and plans for the year were outlined. Edward Goodrick was admitted to the club.

ARCHITECT RESPONSIBLE
FOR BUILDING COSTS

Janeville — (AP) — Resuming the inquiry into the cost of constructing the Rock-co tuberculosis sanatorium, a committee of the county board Monday afternoon was told the responsibility for checking construction and for contractor's bills and payments of those bills was taken by the architects.

L. P. Roe of the Chicago firm of Roe, Dillard and Roe, architects, said his firm made weekly inspections at an average expense to the company of \$75 to \$80 a week. Contractor's bills and payments of the bills were checked, also, he said. The responsibility extended to the heat tunnel and septic tank, which are subject of controversy, he said.

PREACH IN GERMAN
AT LENTEN SERVICE

German lenten services will be held at St. Matthew church at 7:45 Wednesday evening with the Rev. A. Froehke of Neenah preaching the sermon. The Rev. R. E. Zeisemer of Mt. Olive Lutheran church will preach the sermon at the English lenten service at 7:45 Thursday evening at St. Matthew church, while the Rev. Ph. A. C. Froehke, pastor of the church, will fill the pulpit at Trinity Lutheran church at Neenah, at an English service.

O. J. Ruhsam, who submitted to an operation last Friday at Tunda Clark hospital, is convalescing.

PROHIBITION LAW BLAMED FOR RISE OF CHICAGO GANGS

Official Toleration of Violations Allows Criminals to Make Big Money

EDITOR'S NOTE: A graphic picture of the rise and the reason for the gangster movement in Chicago, which has just been marked with the "bring squad" murder of seven men is presented in the following article by Arthur V. Lashly, Chicago, who directed the recent crime survey for the Illinois Association for Criminal Justice. Though he ascribes prohibition as the reason for the gangsters' rise to power, Mr. Lashly explains that he is not condemning the prohibition law itself, "but the official toleration of open and notorious violations thereof that furnish the principal basis for gang organizations and their support."

BY ARTHUR V. LASHLY
(Illinois Association for Criminal Justice)

For many years, Chicago, like every other great city, had its gangs and its underworld, but prior to 1920 the gangs were largely held together by neighborhood and racial affiliations and were dependent upon vice, gambling and petty thievery for their income.

The real troubles of Chicago were ushered in with national prohibition. Simultaneously with this event came the murder of "Big Jim" Colosimo, the king of the underworld, and the succession of John Torrio.

With prohibition came illicit brewing, distilling and bootlegging, and Torrio was quick to take advantage of the new source of riches and power. He organized a force of gunmen from the petty criminals of the underworld, took over several breweries and became a manufacturer and distributor of liquor on an extensive scale.

THE WAR BEGINS
Then came "hi-jacking" gangs who raided Torrio's breweries and held up and robbed his trucks, and the war was on. From that time until the present day, the traffic in illicit liquor, bringing millions into the coffers of organized crime, has been mainly responsible for the excesses of crimes of violence in Chicago.

Torrio carried on with unprecedented success until 1924, when he lost caste amongst his old followers because, after the election of Mayor Dyer in the preceding year, he was unable to secure protection for his enterprises which he had previously enjoyed. He was prosecuted and convicted for violating the liquor laws and was later shot and seriously wounded by rival gangsters. When he recovered and served his time in jail he was apparently happy to be able to get out of the city and has never returned.

CAPONE'S RISE TO POWER
Gang war has followed his retirement, due to efforts of various upstart leaders in the underworld to succeed him. By a process of direct action of elimination and with the aid of machine guns, pistols and sawed-off shotguns, former body-guard and aid of Torrio, one Alphonse Capone, alias Al Brown, was selected as the underworld leader, and he has succeeded in evading assassination and continues to rule until this day.

Between 1920 and 1927 over 400 gangsters had been killed by other gangsters and an additional 200 killed by police. A large number of policemen also had been killed in the state with these armed desperadoes. Such conflicts between rival gangs and gangs and policemen were carried on with machine guns firing from automobiles racing through the streets.

It was this state of affairs which confronted the members of the Illinois Bar Association when they resolved, at the annual meeting in July, 1926, that an effort should be made to enlist the interest of other civic organizations throughout the state to have a thorough investigation would form the basis for intelligent understanding of the problems of excessive crime and for constructive suggestions for their solution.

CRIME STRONGLY ENTRENCHED
It was obvious that organized crime and criminal political alliances were too strongly entrenched to be disclosed by crusades. On the contrary, these outbreaks were used to the advantage of organized crime. It was established beyond doubt

Lead in Gang Probe

Above is State's Attorney John A. Swanson of Chicago, chief prosecuting official, who is conducting an investigation of the latest gang war outbreak. At the right is Al Capone, accredited leader of Chicago gangdom, enjoying himself in Florida. Below is Dr. Herman N. Bundesen, Chicago coroner.

that the police, in some instances, ostensibly responding to the demand for suppression of the unlawful enterprises which were the principal sources of income of the underworld raided gambling and vice houses operated by competitors of the syndicate and failed members of the rival gangs operating them for the purpose of getting rid of competitors of the recognized syndicate. Thus, the indignant protests of citizens were used by the powerful leaders of organized crime to further strengthen their position. So the survey was begun on April 15, 1927.

OFFICIALS ARE BLAMED
Here is a summarization of some of the findings made by the crime survey:

1. Failures of justice are traceable more often to administrative defects than to weaknesses in the laws: "The situation in Chicago and Cook county has been largely the result of poor administration. There seems to be no doubt after making allowance for the maximum in experience and incompetence, which will always be more or less in evidence in public office, and allowing for every failure of justice due to weaknesses and loopholes in the antiquated laws of criminal procedure that no serious problem of crime exists in any community of this state, urban or rural, where the police and sheriffs, the prosecutors and the courts are all doing their duty honestly and to the best of the respective abilities. Problems of crime arise when one or more of these officials fails or refuses to do his or their duty."

2. The police do not catch more than 20 per cent of those who commit felony crimes.
3. Failure of prosecution means

the failure of the whole judicial process. Fifty-six per cent of all cases failed to survive the preliminary hearing.

STATE'S ATTORNEY POWERFUL
4. Acquittals by juries are relatively unimportant, so far as the number of cases disposed of without punishment is concerned. Of 13,000 felony charges filed in Cook county in 1926, only 500 were tried by juries and half of these resulted in acquittals. . . . Eighteen persons are released through the action or inaction of the state's attorney to one person released by the jury. . . . The jury is not nearly so important as popularly believed."

5. In Chicago, the worst problem is presented by organized criminals who are engaged mainly in the liquor

business, and they constitute the greatest menace.

Organized criminals are mercenaries. Our reports show that the gangs of gunmen in Chicago and vicinity are bound together and maintained largely by profits of bootlegging and gambling.

It is under the bootleggers' banner that thousands of criminals are constantly being recruited, attracted by the ease with which enormous profits can be made. . . . Being immune from prosecutions in their operations in the manufacture and distribution of beer and whisky, they have been able to obtain protection from the consequences of other crimes like murder, burglary and robbery because of their new political alliances and stronger position. It is the bootlegger and rum runner and "hijacker" who give Chicago its reputation as a crime center.

It is said in the "Organized Crime" report: "There is no blinking the fact that prohibition has introduced the most difficult problems of law enforcement in the field of organized crime. The enormous revenues derived from bootlegging have purchased protection for all forms of criminal activities and have demoralized the law enforcing agencies."

No better illustration of the interlocking connection between bootlegging and all other forms of commercialized crime can be cited than that presented in the person of Capone, the recognized leader of the bootlegging industry in this community. He is also the boss of the gambling syndicate and of commercialized vice. Lately, he has appeared as the dominant factor in the control of gangsters who are engaged in "racketeering."

CHRISTMAS SEAL SALE RECEIPTS ARE \$1,635

Final checkup of the funds derived from the annual Christmas Seal sale shows receipts of \$1,635.45, according to Mrs. Mabel Shannon, chairman of the drive in this vicinity. Appleton's goal was \$2,500, but the influenza epidemic and cold weather hindered the drive to a point where the proceeds did not reach last year's mark.

Expenses totalling \$141.44 to be subtracted from the receipts will put the net proceeds below the \$1,500 mark. Expenses included postage, stamped envelopes, multigraphing and addressing envelopes, advertising, letter heads, and follow-up postage.

HOOVER IS BEHIND ADEQUATE TARIFF FOR U.S. INDUSTRY

Next President Wants to Protect American Trade at Almost Any Cost

CONTINUED FROM PAGE 1

tariff be placed on some articles. They feel that the United States should look beyond its own borders, in order that other countries shall continue to have the purchasing power to buy American exports their reason being that an impoverished Europe, for example, will cease to absorb surpluses which are a fundamental part of American production.

Banking interests in the east which have been instrumental in the leading of large amounts of American capital to foreign countries would like to see the flow of exchange maintained and no serious interruption develop in the commerce of other nations with the United States.

DIFFERENT STANDARDS
But American producers who have felt keenly European competition, due to the low standards of living on the other side, are really the backbone of the Republican party which won the election. The Democratic party, to be sure, also expounded the protective tariff theory. But Mr. Hoover feels the obligation to stand for an upward revision, wherever such a change can be absolutely justified on economic grounds.

irrespective of all political considerations.

Yet Mr. Hoover is sufficiently familiar with the importance of a growing import and export trade to hold in leash any effort to disturb the present favorable situation in foreign commerce. During the campaign he endeavored to prove that there was no practical force in the contention that a protective tariff was inconsistent with a growing foreign trade. He argued that there were other ways by which the purchasing power of Europe could be maintained and that "invisible" exchange could be developed; but just the same, any serious dislocation in the status quo means reprisals abroad, and that is why a compromise is inevitable here. Certain schedules, particularly those affecting the farmer, will be amended upward as well as a few others where the tariff commission has recommended an increase but where the tariff commission's power has been limited and the protection suggested has been inadequate.

HOOVER STATEMENT
Mr. Hoover's most carefully drawn statement on the tariff is as follows: "A general reduction in the tariff would admit a flow of goods from abroad. It would injure every home-

It would fill our streets with idle workers. . . . No man will say that any tariff wall is perfect. . . . We have pledged ourselves to make such reductions in the tariff laws as may be necessary to provide real protection against the real shifts of economic tides in our various industries. . . . The tariff commission is the most valuable arm of the government. It can be strengthened and made more useful in several ways. But the American people will never consent to delegating authority over the tariff to any commission, whether non-partisan or bi-partisan."

The president-elect will be guided in his tariff policies by the leaders of the Senate and House and here for the first time will be confronted with the great conflict that has always existed between political and economic realities. Mr. Hoover has sources of information not available ordinarily to the politician and he will unquestionably make a much more searching inquiry into whether a tariff duty is honestly needed or simply sought as a method of increasing profits that are already substantial.

The problem of the tariff is a problem of facts and Mr. Hoover knows it full well. He is committed to protective tariff and will favor up-

INTER-FRATERNITY COUNCIL OPPOSES "HELL WEEKS" HERE
Discouragement of rough-house initiations, familiarly known as "hell weeks," has been decided by the Lawrence college interfraternity council.

Former practices of keeping fraternal neophytes awake at night, away from studies and including in general "horseplay" has been stricken from fraternity books by the council and in their place initiates will receive "instruction and guidance for their new college life."

Among the rules adopted by the Greek letter council, is one which requires that pledges be allowed to sleep at least seven hours each night undisturbed.

ward revision when in reality needed to protect the American producers. All efforts seeking tariff favors are likely to fail.

(Tomorrow's dispatch will deal with the agricultural problem.)

STAGE And SCREEN

"THE GREYHOUND LIMITED"
Monte Blue comes to the Appleton Theatre tomorrow in his second Vitaphone picture, Warner Bros. "The Greyhound Limited." In which he plays the part of a railroad engineer.

The engineer rooms and boards with the mother of his fireman. Both men are in a way intrigued with the port blonde hash-slinger at the quick lunch counter along the tracks. The fireman's mother begs Monte to alienate the girl from her son. He does so reluctantly and the enraged fireman takes to drink. Later being framed by a can of thugs, as the murderer of the saloonkeeper in whose place he hangs out.

The noose is about to claim the lad when through thrilling adventures with thieves, on runaway trains, in hills and thickets, Monte finally finds the real culprit and frees the youth. The girl goes her own way and the old friendship is restored between the two men who form the crew of "The Greyhound Limited."

Vitaphone is terrifically effective with voices of players, and with sounds that mark the progress of lightning-speed melodrama, as well as in symphonic accompaniment.

The cast includes Edna Murphy, Grant Withers, Lucy Beaumont, Ernie Shields and Lew Harvey. Albert Howson did the story. Anthony Coldway the scenario and Howard Bretherton directed.

Monte Blue, son of an engineer, and an ex-railroader—gives a magnificent portrayal of the unpretentious hero of "The Greyhound Limited."

Rummage Sale 516 W. College Ave. Thurs. Morning.

SUIT OVER SALE OF CAR IS POSTPONED
A damage suit for \$490 brought by William V. Amsbough, Appleton, against Fred Neuman, proprietor of the Neuman Sales and Service company and E. D. Scott, a salesman, was postponed for a week by Judge Theodore Berg in municipal court Monday after some testimony had been taken. Amsbough charges he purchased a Durant car from Neuman, through Scott, for \$1,175 and that he got a 1923 model which the company had discontinued making.

He claimed he thought he was purchasing a 1929 model and that the difference in price should be the amount he is asking in damages. Both the defendants answer that Amsbough knew what he was getting when he purchased the machine.

Oyster Supper and Card Party at So. Greenville Grange Hall Sat. Evening Feb. 23. Serving starts at 5 P. M. Will play Schafkopf and Bridge.

FOREST SERVICE SHOWS RESULTS OF REFORESTATION

BURNTOVER TRACT GETS NEW GROWTH IN SIXTEEN YEARS

Douglas Firs Now Grow on Area of Bare Mountain-side in Oregon

Portland, Ore.—Sixteen years ago an area of bare mountainside, cleared of its timber by a succession of forest fires. Today the same area is a thick forest of Douglas firs.

This is the example set by the U. S. Forest Service of what can be done toward reforestation of many similar areas throughout the country. This particular growth applies to a reclaimed tract of forest land on the lower slopes of Mt. Hebo, in the Siuslaw national forest, Tillamook county, Oregon.

About 75 years ago the natural timber of this tract was destroyed by fire and a series of fires kept it cleared of natural growth. Then the North Pacific District of the U. S. Forest Service took the tract over.

And the hand-planted, artificial forest that grows there now is the result. Many of the trees are eight to ten inches in diameter and rise to a height of 45 feet.

The process of this remarkable example of reforestation is explained by the district forester's office here. "In 1912 the Forest Service began planting up this area with 2-year-old nursery-grown trees. Altogether about 8000 acres have been reforested in this way. Now these plantations, as seen from a distance, present the appearance of any thrifty sapling stand, but close up the somewhat irregular geometric rows of artificial forest are evident.

"The struggle for light and life is now becoming acute and the best of the trees are shooting up at the rate of over a yard a year. Already the lower branches are killed by shade in the densest places, but still stand here, making a veritable thicket.

And the area is yearly becoming less of a fire hazard, for the shade of the trees is killing off the bracken fern and other herbage that supplied the tinder.

"The next decade or two will see wood cellulose manufactured here from sunshine, rain and soil very fast, if fire is kept out."

In one sample acre taken by the forest service for a survey, there are 555 living Douglas firs besides some alders, cascara and tree willows. These trees, after being measured with a slide rule and volume tables were found to contain 1350 cubic feet of wood, or close to 15 cords.

FARM FACTS

Janesville—(P)—As time for the closing of the charter of the Rock-Walworth counties Grange draws near officers of the new organization are expected that there will be 150 members.

The Pomona Grange was established at an organization meeting here last Monday and ten days were left for charter memberships. Herman Thde, Master of the Wisconsin State Grange aided in the organization.

These officers were elected: Master C. F. Tiffany, Clinton; Overseer Robert Greene, Milton; Lecturer Eli M. Chaffin, Troy; Steward Frank Kyle, Elkhorst; Assistant Steward Harold Ward, Avalon; Chaplain, D. D. Clark, Milton; Treasurer, Harley Earl, White; water; secretary Helen Marsten, Beloit; Gate Keeper, J. M. Halderon, Beloit; Minor officers: Mrs. Jennie Olson, Milton; Mrs. Mae Walte, Clinton; Mrs. Clara Brettkreit, Janesville and Mrs. Harold Ward, Avalon.

The first regular meeting will be held with Fairfield Grange, Walworth county, March 18.

Madison—(P)—On January 1, 1929, Wisconsin had \$2,599,000 pounds of leaf tobacco on hand, compared with \$9,924,000 at the same time a year before, a federal department census report received here indicated.

Madison—(P)—John E. Dudley, Jr., with the United States department of agriculture and stationed at Madison, has invented a machine to remove aphids, a plant louse, from canning pea vines. This machine may be used with good effect during the hot, dry summers when peas become toughened.

Madison—(P)—Many tobacco growers in Wisconsin are waiting for a season of rain "case weather," as there is much more tobacco still on the poles than supposed, according to the Tobacco Pool Bulletin.

Most of Wisconsin's 1928 tobacco crop is now stripped and banded according to information gathered, the Bulletin said. "There is a large portion of the crop still hanging, nevertheless, than was suspected several weeks ago."

The expected January thaw did not materialize. Case weather failed to arrive.

Owners of hanging crops are beginning to wonder and to talk about the matter," the bulletin said.

HOLD ANNUAL MEETING OF CICERO FACTORY

The annual meeting of the South Cicero Cheese factory, of which Jas. Leachy is the proprietor, was held recently. Emil Mueller acted as chairman of the meeting and Albert Lowenhagen was re-elected secretary and treasurer. Twenty-nine patrons are at present delivering milk to the factory.

Following the report for the past year: Total pounds of milk received, 2,122,773; total number of pounds of butterfat received, 75,714.60; average test, 3.55 per cent; total pounds of cheese manufactured, 292,292.5; average price of cheese, \$2.49 cents; total money received, \$16,548.24; paid for wages plus other expenses, \$3,048.42; amount paid to patrons, \$43,499.82; pounds of milk for pound of cheese, 10.44; average price of fat, \$7.71 cents; average price per 100 pounds of milk, \$34.

What Reforestation Did

These photos show the same tract of land on Mt. Hebo in Oregon one 16 years ago and the other today, after the U. S. Forest Service had grown a virgin forest on it.

Farmers Continue To Grow Alfalfa Stands

BY W. F. WINSEY

Despite the losses and the annoyance caused by the winterkilling of alfalfa, and the expense and labor of fitting the soil with lime and phosphates to produce stands vigorous enough to survive the winters, farmers in this section of the state will continue to grow alfalfa until they find how to make a crop failure and impossibility. A large number of farmers have already found out how to raise alfalfa each year, and never have a failure.

As hay for dairy cattle, soybeans are the equal of the better grades of alfalfa, farmers say who lost their alfalfa stands last winter, plowed the field in the spring sowed them to soybeans, harvested big yields of hay, and are feeding soybean hay to their cattle this winter. Learning how to raise and harvest a crop of soybean hay would go hand in hand with learning how to make alfalfa a positive crop. Soybeans are a spring crop but alfalfa is a winter crop. If the alfalfa winterkills, it is an easy matter to get as good a hay crop from soybeans as could be expected from the alfalfa. But soybeans are such a wonderful feed as hay, silage or meal, for dairy cattle that the beans should not only be raised on each farm as an emergency crop but also as a regular crop.

At least enough sweet clover pasture to feed cattle through the spring, summer and fall will be the objective of the great majority of dairymen in this section of the state as they have heard from for several years that sweet clover is the best pasture known for the dairy cow, and that it supplies feed for big milk production early in the spring and long after all other pasture have failed in the fall. Farmers who have tried out sweet clover in Door county say that it makes an excellent quality of hay, and others who have tried it out in Outagamie county are equally positive that it makes excellent silage. A crop of sweet clover turned under after pasturing is equal to 10 tons of stable manure to the acre in the production of a corn crop. The United States Department of Agriculture says that sweet clover is the best pasture for dairy known.

Raising enough barley for cattle feed and for fattening hogs will be another objective this spring of the dairymen in this section of the state.

Prof. Frank P. Hauson, formerly on the staff of Illinois farm mechanics department, worked out the adjustments of air blast, speed of tractor, concave teeth and various equipment. Despite a moisture content of 4 per cent when only 11 per cent is considered perfect the corn popped to complete satisfaction. Two weeks' rain before harvesting had added nearly 2 per cent to the moisture content.

Taylor "combined" all of his crops except field corn this year. He had soy beans, wheat, clover seed, feldspar, navy beans and popcorn. As a result of this year's experience he expects to increase his popcorn acreage considerably next year. Farmers of the Iowa popcorn belt, where the crop has been grown commercially for a number of years, are investigating the "combine" with a view to using it in their harvesting system.

Not only was the corn husked cleanly, but it was shelled and cleaned perfectly in the one machine operation and immediately dropped in to the popper for perfect popping.

EXPERTS SUGGEST FARM ACCOUNTING TO RAISE PROFITS

Systematic Method Is Urged by Agricultural Expert at State College

Raleigh, N. C.—A systematic, modern method of running a farm, which would entail primarily the keeping of farm accounts, is a remedy for the low rate of profits realized by farmers from their farm products.

A. T. Holman, agricultural engineer at North Carolina State college, says that "the annual inventory is a necessary institution in all modern commercial enterprises and businesses. Farmers may also receive many real benefits by making such annual inventories and using the results. The annual inventory is the balance wheel of farm business and management."

G. W. Forster, agricultural economist at the college, cites four things that prevent higher farm profits and which exist only because "farmers do not have adequate information upon which to base the choice of enterprise."

A maladjustment in production is the first detriment to agriculture set forth by Forster. A cumbersome and inflexible market is second. The third is that the credit system is not in the hands of a capable outfit and fourth, railway rates and taxes are not adjusted to correspond with the price movement of farm products.

An idea of how valuable farm accounts are comes from the University of Illinois. The school reports that the value of farm accounts to many Illinois farmers has ranged from \$500 to \$2,000 a year.

"During times when margins of profit are as small as they are on farms today," says R. R. Hudeston, extension specialist of the Illinois College of Agriculture, "no business, whether it is in town or in the country, can afford to be without suitable accounts. For farmers to get the value from accounts, however, they must be complete and carefully analyzed."

MEDINA CHEESE MEN ATTEND CONVENTION

Medina—Leo J. Sweet, representing the Medina Cheese factory as a delegate, and Conrad Riechert, cheesemaker, have returned from the annual meeting of National Cheese Producers' Federation, Plymouth, and report an attendance of 400 delegates at the various sessions. They were very much pleased with the reports of the federation officers on the growth and work of the federation and the possibilities of the future. The speeches and in fact the entire program was unusually instructive and entertaining. The Land O'Lakes Creameries was represented on the program by two speakers.

SEYMOUR MAY BUY SNOWPLOW, TRACTOR

Seymour—As a result of the last impression of having her leading inlets of trade barricaded for miles with continuous snowdrifts for several weeks this winter and her own streets submerged under several feet of snow, this city is now considering the purchase of modern tractor and snowplow. If the equipment is purchased it may be operated with the help of a volunteer crew in an emergency similar to the last, and may be available in special cases beyond the limits of the city.

TOWER RISES ABOVE FIRST "AG" SCHOOL IN THIS COUNTRY

East Lansing, Mich.—(P)—Memory of the first college building ever taught in agriculture ever taught as a separate science will be perpetuated at Michigan State College in a 100-foot tower, the gift of John W. Beaumont, Detroit attorney and graduate of the school.

The \$75,000 structure of Bedford limestone, soon to be dedicated, rises above the site of old College Hall, which housed early-day students of American agriculture. The hall, erected in 1877, collapsed in 1918.

A set of chimneys imported from England will be installed in the tower.

STALK TO POPPER IN FIVE MINUTES

Demonstration of 'Combine' Harvester Is Made on Illinois Farm

Farmington, Ill.—(P)—Popcorn, harvested with a "combine" for the first time in history, made the trip from stalk to popper in five minutes' time in a demonstration conducted on John L. Taylor's farm near Farmington.

Not only was the corn husked cleanly, but it was shelled and cleaned perfectly in the one machine operation and immediately dropped in to the popper for perfect popping.

Prof. Frank P. Hauson, formerly on the staff of Illinois farm mechanics department, worked out the adjustments of air blast, speed of tractor, concave teeth and various equipment. Despite a moisture content of 4 per cent when only 11 per cent is considered perfect the corn popped to complete satisfaction. Two weeks' rain before harvesting had added nearly 2 per cent to the moisture content.

Taylor "combined" all of his crops except field corn this year. He had soy beans, wheat, clover seed, feldspar, navy beans and popcorn. As a result of this year's experience he expects to increase his popcorn acreage considerably next year. Farmers of the Iowa popcorn belt, where the crop has been grown commercially for a number of years, are investigating the "combine" with a view to using it in their harvesting system.

PRIZE CALF GUEST AT ROTARY DINNER AT CHESTER, S. C.

Chester, S. C.—(P)—It wasn't so much for Mary's little lamb to go to school.

Florentine Eastern Lydia, the champion 2-year-old Guernsey calf club heifer of the national dairy show at Memphis has the distinction of being the only dairy animal ever to have been the special guest of the Chester Rotary club, or perhaps any other club in the United States.

Right inside the dining room, where the club meets, a fancy stall was constructed and in it the famous heifer, owned by J. G. Grant, Jr., of Chester county, quietly enjoyed her feed while the Rotarians feasted and talked about fine cattle and modern dairying methods.

During the present snow blockade, farmers who are suspected by their city cousins of having a vacation with servants to attend them, have from necessarily abandoned field work and a number of the other daily activities of farming, but that does not mean that they are idle nor on a vacation. In part, they have simply shifted from one kind of work to another. The kind selected tries a man's good nature and his brawn at the same time.

The care and feeding of livestock, keeping stables clean and pens and coops in ship shape, milking, cooling milk, hauling milk to the factory and other such duties and hauling manure to the fields, hit all farmers and use up varying hours of the day and night. At spare times between these activities, farmers find long roads to shovel about their farms to haystacks, wood piles, or to wood lots where they expect to cut wood or saw logs.

A big job that a number of farmers are engaged in at the present time during apart of the day is cutting a year's supply of firewood and hauling it from the woodlot to the farm yard. In the vicinity of feed and saw mills, however, one gets the impression that all farmers are doing is riding on loads of cattle feed or saw logs. But none of these rides are vacation nor pleasure rides and are really the flourish before, in the midst of, or after hard work is done.

In cedar and tamarack swamps covered with three or four feet of snow, many farmers may be found after the chores are done in the morning, cutting cedar posts for fences or tamarack trees for buildings of firewood or possibly working up ash and elm trees into logs for the saw mill.

On the majority of the farms, the winter vacation period is one of a rigid daily program, at least as far as it applies to livestock, which includes snow shoveling and getting out timber.

Winter Isn't Rest Period For Farmers

BY W. F. WINSEY

During the present snow blockade, farmers who are suspected by their city cousins of having a vacation with servants to attend them, have from necessarily abandoned field work and a number of the other daily activities of farming, but that does not mean that they are idle nor on a vacation. In part, they have simply shifted from one kind of work to another. The kind selected tries a man's good nature and his brawn at the same time.

BUILD KITCHENS PROPERLY, SAVE HOUSEWIFE STEPS

Proper Planning Is Big-Help to Women, Economic Expert Points Out

BY BASCOM N. TIMMONS

Washington, D. C.—Properly built kitchens would eliminate the millions of unnecessary steps taken daily by the twenty-six million American housewives, according to Miss Hildegarde Kneeland, of the Bureau of Home Economics, Department of Agriculture.

"If the workshop is too large, if the equipment is inadequate, if the arrangement of equipment requires constant retracing of steps," Miss Kneeland says, "no amount of process charting and organizing of work can offset the waste of time and energy involved. That most of the kitchens now in use reveal all these deficiencies needs no argument."

"The great majority of housewives must take their kitchens as they find them. For the fifty-four per cent who rent, remodeling is usually out of the question. And even for those who own their homes remodeling is costly and unsatisfactory. If we are to have scientific kitchens we must build them so in the first place."

"The job of educating the architects and builders is a much easier one than that of educating the housewives. Compared with twenty-six million housewives there are only ninety thousand architects and building contractors listed by the 1920 census. And of architects, a mere eighteen thousand."

Miss Kneeland outlined the features of the efficient and convenient kitchen that have been repeatedly brought out by the Bureau of Home Economics and discussed in bulletins on the subject.

"It is desirable," she said, "that requirements for the scientific kitchen be met by the builder—that he equip the kitchen completely with refrigerator, cabinet, serving and stacking surfaces, and all facilities for storage. For it is only through building in the equipment that it can be made fully efficient, as well as harmonious and attractive and easy to keep clean. And it is also only by building it in that its provision is assured. If the family must provide the missing units they will too frequently be lacking, or when procured fit badly into the space allowed. And we now come to accept the full equipping of the kitchen as part of the costs of housing, just as we now accept the built-in closets in place of the portable wardrobes and chests which used to disfigure our bedrooms. Let us urge the builder at least to plan for all the needed equipment and to place his windows and doors, and stove and sink which he does provide, in such a way that the housewife bent on efficiency in her kitchen does not meet insuperable obstacles."

SUB-STATIONS GUARD FRUIT AND VEGETABLES

Tampa, Fla.—(P)—To aid in combating the winter's thrust at the tender truck and fruit crops of Florida, the government weather bureau has authorized the establishment of several additional sub-stations at strategic centers which will warn grovers of impending dangerous temperatures.

Under the direction of A. J. Mitchell, in charge of the weather bureau at Jacksonville, Walter J. Bennett, local meteorologist, will inaugurate such stations at Sarasota, Elfers, and Winter Haven. Others are planned for sections in northwest and southeast Florida.

Sub-stations already have been established at Plant City and Arcadia.

Swiss railroads have been following an intensive electrification plan, in order to be independent of foreign coal.

Flu-Grip Checked at the start

Check your chest with Vicks before your little cold gets BIG.

Vicks acts two ways at once to check the cold and prevent complications:

(1) It is vaporized by the heat of the body and inhaled for hours direct to the inflamed air-passages;

(2) It acts through the skin like an old-fashioned poultice, "drawing out" the tightness and pain.

POSTPONE ACTION AGAIN TO SEPARATE BROADCAST CHAINS

Commission Wishes to Determine Extent of Chain Program Duplications

BY ROBERT MACK
Copyright 1929 by the Consolidated Press Association
Washington—Having learned from experience that the public is fastidious about its chain programs, the federal radio commission for the fourth time has deferred action on its original plan to separate chain stations on cleared channels by 300 miles. It has decided to postpone the effective date of this general order, drafted in September of last year, until June 1 and in the meantime will endeavor to ascertain where there is excessive duplication of chain programs or whether the existing set-up is satisfactory.

The order was to become effective with the reallocation of Nov. 11. Before that date arrived, however, a vigorous campaign against it began as it resulted in a postponement until Feb. 1. Then about the middle of January the commission again found itself unprepared to cope with the problem and postponed action until the first of March, and now it has decided that a thorough investigation of the whole matter of duplication of chain broadcasting may be undertaken before it can justifiably take a definite step.

The charge against the chains has been that listeners are not afforded a variety of programs because most of the larger stations now subscribe to the chain services, with the result that they pick up identical programs in many places on their dials. Since the reallocation, however, there has been an appreciable falling off of complaints although the commission can assign no reason for this.

If anything, duplication of chain programs on cleared channels was expected to a larger degree, because of the greater number of such channels under the allocation. The generally improved reception conditions, resulted from the reallocation, apparently have enabled listeners to pick up, a greater number of non chain stations so that the duplication has not been so noticeable or aggravating. The complaint against the original order was that it would separate by 300 miles, all cleared channel chain stations, broadcasting the same chain programs regardless of what reception conditions may be in the various sections of the country.

Engineering research has shown that field strength signals vary in different parts of the country and that while duplication might exist in one section where stations are located within 300 miles, this would not be the case in other sections. Thus it was felt that by the arbitrary mileage separation, listeners in certain sections might be deprived of the chain programs, admittedly the best on the air.

South was the Declarer, playing a No Trump contract. West led the Six of Diamonds, Dummy played the Nine, East the Queen and South won with the singleton Ace. The Declarer then led four rounds of Clubs, the discards on the fourth round (the thirteenth led from Dummy) being small Hearts from West and South and a small Spade from East. Dummy next led a small Spade, South finessing the Queen, and West won with the King. West then led three Diamonds; but East, not having any Diamond higher than West's lowest, was unable to overtake and get the lead, and after West had finished the Diamonds Declarer had no difficulty in making the remaining tricks and winning the game.

East complained bitterly of his hard luck in not being able to over-

IMMEDIATE PROBE OF BARRY CHARGES SOUGHT BY HUBER

Lieutenant-governor Wants to Be Arrested if He Violated Laws

Madison—(AP)—Lieut. Gov. Henry A. Huber in a letter Tuesday urged Federal E. Rissler, district attorney of Chicago, to investigate speedily the charges made against him in August Barry's report, and to "apply for a warrant for my arrest."

Mr. Rissler's investigation just filed.

I shall welcome an opportunity to defend myself before an impartial court of justice, and to demonstrate before the public eye the foul conspiracy to besmirch myself and the records of men who have spent a lifetime of service in the Progressive movement of Wisconsin," his letter said.

The Barry report was characterized by Lieut. Gov. Huber as instigated by "my bitter and wealthy political enemies."

"The public and those interested are entitled to know whether these charges are true or false. If they are true, they require prompt and vigorous prosecution. If they are false, then they present a case of flagrant, wilful, and malicious use of the machinery of justice for selfish political ends."

"While I know of no act of mine or my associates in the recent campaign which could be classed by the wildest stretch of the imagination as a violation of the Corrupt Practices act, and while I believe Mr. Barry's charges to be wickedly false, I urgently request you to speedily, thoroughly and impartially investigate them. If you conclude there is the slightest evidence to sustain Mr. Barry's charges, I urge you to apply for a warrant for my arrest."

"What I ask for is speedy justice," Lieut. Gov. Huber said, "and if you feel the need of assistance may I respectfully suggest that you apply to the court or to the Governor for the appointment of such aid as may be necessary."

SCOUTS HAVE BIG TIME AT MILWAUKEE CIRCUS

Twenty-four valley scouts and seven leaders were among the thousands of people who attended the Boy Scout Exposition of scout troops of Milwaukee in the Milwaukee auditorium at 8 o'clock Saturday evening. Valley council leaders at the exposition are H. H. Brown, M. G. Clark, H. L. Gear, Cloyd Schroeder, H. C. Ramsley, Dr. E. J. Ladner, and Richard Dix.

A four ring circus was the feature of the event, and 2,000 Milwaukee Scouts took part. Scout demonstrations of every description were put on, and special music was furnished by several Milwaukee organizations. The program included the building of towers, bridges, drills, larot spinning, bicycle camp drills, wall scaling, pillow fights, barrel tilting, tumbling and other events.

SANATORIUM ABLE TO TREAT 54 AFTER \$125,000 ADDITION

County Board Hears Description of New Building at Hospital

The proposed addition to River-view sanatorium at Combined Locks will cost in the neighborhood of \$125,000, complete, and will enable the institution to care for 54 patients, according to figures submitted to the county board Monday afternoon by members of building and grounds committee and Edward Wetengel, consulting architect.

The board opened its annual February session Monday afternoon and will remain in session until Thursday. This session will end the terms of all supervisors as they must seek reelection at the April election. The new board will convene in April.

FIRST BIDS TOO HIGH
Bids submitted to the board last November provided for an addition that would have cost about \$140,000. The supervisors thought the figure too high and bids were rejected and the building and grounds committee was instructed to engage an architect to revise the plans and cut down the cost.

New bids taken last week show that the general construction will cost somewhere between \$91,000 and \$92,000. Eight bids were received on the general construction work and each bid carried a large number of alternate suggestions. Mr. Wetengel still is tabulating the bids but he was able to estimate the approximate cost Monday.

TOTAL COST \$125,000
Wiring, heating and plumbing of the building will bring the final cost to about \$125,000 according to Supervisor John Tracy, chairman of the buildings and grounds committee. Mr. Tracy pointed out that nothing more could be done to reduce the cost of the building as the committee had spent considerable time going over the plans and making every possible cut. He urged immediate action. Supervisors John Niesen, Kaukauna, and Supervisor F. O. Zocholl are the other members of the building committee.

The proposed addition will be 237 feet long and 20 feet wide. It will be constructed at the east end of the present structure and all patients' rooms will face the south.

There are now 16 patient rooms at the sanatorium but 32 patients are being cared for. When the old building is remodeled there will be six more rooms and the new structure will add 22 more rooms. Thus there will be 54 rooms for patients.

The administration quarters will house offices for physicians, nurses and building officials, elevator, hospital room and rooms for medicinal and treatment purposes. In the basement will be nurses' quarters, dining room, recreation hall, auditorium, storage rooms and boiler rooms.

On the roof there will be a promenade 20 feet wide and 120 feet long, so that patients may be out in the sun.

NOT LARGE ENOUGH
Supervisor Frank Appleton expressed the opinion that if the institution, with the new addition, will be able to house but 54 patients that it would still be too small. He said the sanatorium ought to be able to care for at least 100 patients because there were at least that many in the county.

"We have just enough money on hand to build the proposed addition and we should start with that and when it is completed then we should go ahead and build another addition," Supervisor T. H. Ryan said.

Some misunderstanding arose, when the buildings and grounds committee submitted its report, as to who would have charge of the construction of the addition. It was ironed out, however, when Supervisor Tracy recalled his report so he

Monte Blue in New Role

MONTE BLUE IN A SCENE FROM "THE GREYHOUND LIMITED," A WARNER BROTHERS PRODUCTION, NOW PLAYING AT BRIN'S APPLETON THEATRE.

might change it to provide that the sanatorium committee trustees and buildings and grounds committee would cooperate in overseeing the construction.

The supervisors unanimously accepted an invitation from the Appleton Kiwanis club to dinner at the Courtyard hotel Wednesday noon.

HEAR DAMAGE CLAIM
The board voted to seat Michael H. Kettenhofen of Kimberly in place of the supervisor, Joseph H. Doerfler, who was called away on business. Mr. Kettenhofen was named by the village board to take Mr. Doerfler's place.

A damage claim of \$800 by Clement Fox of the town of Holland, Brown-co, for damages to his car and himself in an accident on County Trunk Z near Kaukauna, on Dec. 22, 1928, was referred to the highway committee and the district attorney.

Six additions to the county trunk road system were approved by the state highway committee according to a letter read to the board by John E. Hantschel, county clerk. They are as follows: a road in the towns of Dale and Horton; another in the towns of Greenville and Grand Chute; another in the towns of Grand Chute, Vandenberg, and Kaukauna; another in the town of Freedom; another in the towns of Black Creek, Oneida, Freedom, Center, another in the town of Cicero.

PROPOSE TOWNS SHOULD FEED "POOR" ANIMALS

Madison—(AP)—A bill whereby counties or towns providing for the poor will also be responsible for feeding any animals that such persons may have, has been presented before the legislature and endorsed by O. A. Stolen, state humane officer.

The county or town would automatically have a lien on any cattle, horses or domestic animals so fed, under the bill.

"The bill is very necessary," Mr. Stolen said. "Each year and especially each spring, there are many farmers who have run out of feed and have no money or credit where to buy more. As a result a large number of farm animals die of starvation and others become so emaciated as to become profitless for several months thereafter. The purpose of the bill is to fold, to prevent suffering in animals and prevent loss of property."

You Can't Dye a Dress with Promises!

You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain from three to five times more aniline than other dyes on the market.

Next time you want to dye, try Diamond Dyes. See how easy it is to use them. Then compare results. Note the absence of that re-dyed look; of streaking or spotting. See how soft, bright, new looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool.

Your dealer has both packages.

FLOWER, GARDEN SOCIETY OPENS MEMBERSHIP ROLE

Directors and Officers Prepare for First Meeting and Show

The Flower and Garden society, sponsored by the Oney Johnston post of the American legion, organized a week ago, was put in motion at a meeting of officers and directors in the conference rooms of The Post-Crescent Monday evening when plans were made for admitting members, arranging for the first general meeting and for the three flower shows during the year.

Interest aroused in the week since the society was formed indicates a huge membership of men and women enthusiastic over flower raising.

Membership blanks will be available Thursday, it was said, and can be signed at the Schlitz brothers west side store, the P. M. Conkey book store and at the office of the Post-Crescent. Membership certificates will be given later to all members.

FIRST MEETING

The first general meeting of members will be held between March 1 and 15, the date to be set when it is determined a speaker can be obtained from the state university at Madison. The committee in charge of meetings consists of L. Hugo Keller, George T. Richard, Mark Catlin and John R. Riedl.

Membership activities will be taken care of by a committee headed by

Miss Cora Gunther, secretary of the society. Other members are Miss Anna McKenney, Philip Vogt, L. Hugo Keller and Herman Holts. No membership fee is to be charged and every person interested in raising flowers is eligible.

Plans for the first flower show, probably early in June when peonies and other spring flowers are in bloom, were discussed and two committees were appointed to make arrangements.

One committee will take care of the hall, arrangement of display places and programs for the show. This committee consists of H. A. Schlitz, chairman, Mrs. R. W. Getschow, Mrs. Mark Catlin, L. Hugo Keller and Miss Cora Gunther. The second committee will be in charge of exhibits, determining the types and kinds of flowers to be exhibited and the prizes to be awarded and will have general charge of the exhibits. Mark Catlin was named chairman of this committee and the other members are H. W. Johnson, Miss Anna McKenney, George T. Richard, Philip Vogt, Herman Holts and John R. Riedl.

A committee to arrange the society's program for the year still is to be named by President H. A. Schlitz.

The directors discussed ways and means of utilizing the experience of successful Appleton flower growers so that other persons interested in floriculture will profit from them. In all probability persons who have made a success of flower raising will be asked to describe their methods for the benefit of other members of the society.

ISSUE WARNING ON SPREAD OF RABIES THROUGHOUT STATE

**Tie Up Your Own Dogs and
Kill Stray Animals, Health
Board Urges**

Madison—(P)—The state board of health Monday sounded a note of alarm and warning concerning rapid and rather wide spread of rabies in Wisconsin.

The disease is prevalent in many corners of the state, the announcement said. Two recent deaths have been reported, one in Racine and one in Kenosha.

"Rules for control of this disease need to be more rigidly applied."

"When rabies appears," said the statement, "the first thing to remember is that a dog is usually the determining factor in spreading the disease. It is no time to let sentiment prevail in favor of the dog when human safety against death in a terrible form is involved. It is time to place all dogs under strict control."

These recommendations were given for affected communities.

1. All dogs owned by families should be tied up or muzzled effectively with wire muzzles for at least 90 days.

2. All stray and ownerless dogs should be killed by authorities.

3. Suspicion should be directed to all dogs showing change in behavior, restlessness or ill-temper, loss of appetite, or desire for unusual food, difficulty in swallowing, tendency to run long distances, attacking all objects in their way and biting other animals or persons.

It is the saliva on a scratch or in a wound that transmits rabies, and it is often infective prior to the development of the symptoms in the animal.

"After being bitten by a rabid dog, a health department bulletin says, 'a person develops the disease in 20 to 60 days, the average being 40. In all animal bites the bleeding of the wound should be encouraged. The wound should then be cauterized with fuming nitric acid by a physician, and all parts should be thoroughly reached. This should be done within 24 hours after the bite, and the sooner the better. The same treatment should be applied to scratches or broken skin wounds that have become infected from rabid animal."

The following conditions were cited to indicate the need for Pasteur treatment:

When the animal is made give the Pasteur treatment immediately to the person bitten.

When the animal is only suspected of having rabies, it should be confined until it dies or is killed. The laboratory examination of the animal's head should determine whether or not the Pasteur treatment is necessary. The animals should be killed without damaging the head, which is the part that must be examined.

ALMA RUBENS WINNING IN NARCOTICS BATTLE

Los Angeles—(P)—Apparently victorious in the first stages of her fight to rid herself of the narcotic habit, Alma Rubens, screen actress, was back home yesterday recovering from the effects of an operation.

Miss Rubens who underwent the operation in a Hollywood hospital a few days ago as the result of illness occasioned by a nervous breakdown and the use of narcotics, had recovered sufficiently Sunday night to be removed to her Beverly Hills home.

Meanwhile Dr. L. Jesse Citron, Beverly Hills physician, was under citation to appear before the state board of medical examiners to explain why he had prescribed medicines containing narcotics for the actress. Miss Rubens was said by her mother to have paid Dr. Citron more than \$1,200 in five weeks.

The physician declared that many of the 31 prescriptions for Miss Rubens to which his name had been signed were forgeries. He admitted having prescribed a narcotic for Miss Rubens but declared he had refused to issue others when he learned that she had become addicted to its use.

SIGMAN RETURNS FROM CAPITOL AT MADISON

Samuel Sigman, counsel and general director of Wisconsin Federation of Commercial Fishermen, returned Sunday night from Madison where he spent several days on business for the association. The fishermen are sponsoring a bill, introduced in the state senate by Senator Edward S. Hall, which will regulate commercial fishing activities in the state.

How Weak Nervous Women Grow Stronger Feel Better, Look Younger and Have Steadier Nerves

If you only knew—you run down, anemic women—who are dragging yourself around on your "nerves"—what a wonderful increase in strength and health Tanlac will give you, you wouldn't hesitate a moment about going to your druggist and getting a big bottle of this splendid medicine.

Mrs. C. A. Warner, of 502 First St. South, Aberdeen, S. D., says: "I suffered so from indigestion, kidney trouble and complete breakdown that I was in misery. Tanlac brought wonderful relief and soon had me eating everything. That tired, run-down feeling was over."

Tanlac is as free from harmful drugs as the water you drink—only Nature's own medicinal tonic herbs. Druggists know this and for the past 10 years have recommended it to men and women who need a quick "pick up" that will put them on their feet and give them a new interest in life.

So confident are the makers of Tanlac that if you are not helped by it, you get your money back on request.

COMMISSION AWARDS CONTRACT FOR PIPING

The bid of the American Brass Co. of 26 1/2 cents a pound for copper service piping was accepted Saturday by the water commission, which met at the city hall. The bid was the lowest submitted. Work of service fittings was awarded the Mueller

Co., which submitted the low bid for this activity. It also was decided to buy 1/2 inch extra heavy lead service pipes. The payroll totaling \$1,191.23 and general vouchers amounting to \$3,479.51 were allowed.

Miss Laura Reier spent the weekend with friends and relatives at New London.

LENROOT APPOINTMENT UP TO SENATE GROUP

Washington—(P)—While reaching agreement to favorably report the nomination of Representative Finis J. Garrett of Tennessee, to be a member of the court of customs ap-

peals, the senate judiciary committee Monday referred the nomination of former Senator Irvine L. Lenroot of Wisconsin, as a member of the same court, to a sub-committee. It was explained that this was the regular procedure.

The sub-committee will consider the nomination by President Coolidge of Senator Lenroot and Henry H. Glassie, former Democratic mem-

ber of the tariff commission to be a judge of the Supreme Court of the District of Columbia.

The sub-committee is composed of Senators Borah and Stewer, Republican, and Neely, Democrat.

WOMAN IS BURNED TO DEATH STARTING FIRE

Watertown—(P)—Kerosene poured on a kitchen fire set the clothes of Mrs. Fred Wagner, 29, Lebanon, Dodge-co., ablaze and caused her death Sunday.

There will be a meeting of the Pretzellers club of the First National bank at the home of Everett Stecker, E. Winnebago-st. at 7:30 Tuesday evening. Social activities and regular business matters are to be discussed.

ANY OLD ROOM
ISN'T GOOD
ENOUGH FOR BOY

BY OLIVE ROBERTS BARTON
I have two hobbies. One is that any room is not good enough for the children, the other is that just any old room is not good enough for the boy.

This little space is going to hold no brief today for the bright, sunlit, pleasant room, that I have urged over and over again for the children, but it is going to hold a most violent protest against the combination of sewing, storage, look-over-the-alley room that too often falls to the lot of Thomas or Richard or Henry—just because he is a boy!

It isn't right, it isn't fair, it isn't policy. If you want your boy to grow up with the feeling, "I'm just a boy and anything's good enough for me"—that's exactly the standard he is going to grow up to. He won't rise much higher than the standard you set for him when he is little.

Why shouldn't a boy experience a feeling of unfairness and resentment if his living quarters suffers by comparison with those of his sisters or parents?

Aside from this, however, there is the peculiar psychology of the male that clings to those things he can call his very own. He finds expression in a thousand ways—his own dog, his own tent, his dug-out. You never hear of boys borrowing each other's caps and shoes or coats, as girls do. Pride of possession is not a prerogative of girls.

I never knew a boy who didn't swell up with the most touching pride at having his own room (a regular fellow's room) all fixed up with things a boy would like—a bookshelf, a place for baseball bat and gloves and mask, the old football, and all the other paraphernalia of his growing-up process that a boy loves—almost beautiful to him. But he likes the nice covers, too, and a nice carpet, and pretty curtains. He doesn't care if they cost ten cents a yard or ten dollars—but he will like the attention and gauge his estimate by that.

The big thing is not to make him feel an extra, an embarrassment to be stored like the old left-over furniture just "any old place."

ARTIST LIKES
DOGS FOR HIS
ART MODELS

San Francisco—(P)—Miss Joan A. Burke, young Australian artist, who abandoned a successful career as society artist to paint dogs, has come to America to reside in furtherance of her determination to devote her talents to the portraiture of "main's best friend."

With the exception of the male-mute, says Miss Burke, high-bred dogs pose with the greatest ability, but the male-mute, being a one-man dog, is inclined to ignore the rest of the world. He will break his pose, turn his back and look stubborn and often require the changing of an easel a half dozen times at a sitting.

The Scotch terrier, Miss Burke finds, is the most adaptable of dog sitters, and he will assume any pose desired.

HIGH NECKS
New imported blouses, sweaters, jumpers and some frocks show quite a leaning towards high necks. A vivid red and white hand-woven sweater blouse has a regulation Russian blouse neck, deep front decoration and tight belt with peplum.

Yellow, Smartest Color Now, Worn By
Blondes, Brunets And In-Betweens

MRS. BRUCE POWELL

MISS PEGGY PHIPPS

MRS. HAROLD E. TALBOT

BY BETSY SCHUYLER

NEA Service Writer

PALM BEACH, Fla.—The yellow peril that is inescapable here, cannot fail to have after-effects in all parts of the country, so you might as well be prepared. Yellow is just the smartest color there is and is worn by blondes, brunets and intermediates.

It has always been my contention that the blonde who wanted to be the most devastating, had only to appear in an evening gown of yellow satin, and she would spoil the evening for any other woman.

YELLOW SCOPE IS WIDENED
And I have likewise noticed that yellow sport attire on a brunet was wonderfully effective. I have seen titian-haired beauties ravishing in yellow chiffon. But I have always felt that yellow was dynamite for the woman who was not a pronounced type.

This year, however, everyone wears yellow, and there are as many shades of it as there are of beige. Some grade naturally into orange, and others, if intensified become almost green. That yellowish green which is sometimes known as chartreuse, is a marvelous accent for the white gown. I think it is more effective as trimming than as a whole costume, for it is almost too much of a good thing if you get it close to tanned flesh.

IT'LL BE A YELLOW SPRING TIME
There is now a yellow for every

complexion, and if you want to keep up with the procession, you'll be ready to burst into it in the springtime—tra la.

I saw Jean Moore, the other day, in a frock of white silk, printed with a small design in blue, and with it she was wearing a yellow sport coat and hat. And she looked charming.

The same day I saw Mrs. R. Amcotts Wilson, strolling about in a lovely white sports frock, with a box pleated skirt and a long sleeved blouse, and she was wearing a white sport hat banded in yellow and carried a handbag of yellow printed material with a yellow tortoise shell top.

Frances Gillmore looked very smart in a blue sports dress, sleeveless jumper and pleated skirt, with a belt of deeper blue leather and large wooden buttons.

A LITTLE TOUCH OF THE ORIENT

Marjorie Oelrichs is one of the few Palm Beachers who prefers the turban to the cloche hat. She has them in all colors to match all her frocks, and it must be admitted that they are very appropriate to her particular style of beauty. She has achieved such an oriental hue, that she is quite the envy of many dancers who can't get that marvelous deep-seated tan that seems ready to stay for a life-time.

She looked very smart as she returned from a shopping jaunt the other day—carrying a large paste board box that looked as if it might be a complete new ensemble—wear-

ing a white sport dress and white turban, and blazer jacket of enormous wide blue stripes.

A most striking figure was Mrs. Persifor Frazer III in a sweater out fit in two tones of blue, the light shade being introduced in wide diamond shapes that gave the effect of a very wide streak of lightning. It was one of those lovely hand-knit affairs, and the effect was much less bizarre than it sounds.

STYLE PURSUES MILADY INTO THE SURF

Women here do look marvelous in their bathing togs—none more so than Mrs. Bruce Powell, in her navy blue jersey with the white yoke and the tiny blue monogram.

Peggy Phipps is often seen doing her shopping in a bathing suit with a silk coat thrown over the ensemble, and a big wide floppy hat. Naturally, at such a time, she adopts the popular stockinged fad.

Red is very much in evidence here now—used for accent rather than complete costumes. Mrs. Harold E. Talbot has an attractive hat of red woven straw, which looks very smart with her white sport dress and the wide white ribbon belt, outlined with crimson.

SISTER MARY'S
KITCHEN

BY SISTER MARY

BREAKFAST—Grapes, cereal cooked with chopped figs, cream, scrambled eggs with dried beef, crisp toast, milk, coffee.

LUNCHEON—Cream of tomato soup, croquettes, jelly shrimp salad, whole wheat bread and butter sandwiches, jelly roll, milk, tea.

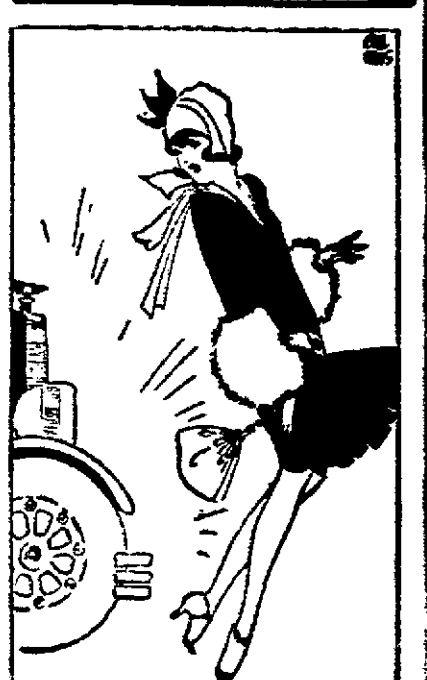

DINNER—Cold sliced roast beef, scalloped potatoes, corn fritters, curly endive salad, prune whip, milk, coffee.

JELLIED SHRIMP SALAD
Two tablespoons granulated gelatin, 4 tablespoons cold water, 2 cups clarified veal stock, 1 cup chopped canned or boiled fresh shrimp.

Soften gelatin in cold water for ten minutes. Stir into boiling stock and stir until dissolved. Let stand until cool and beginning to thicken. Stir in prepared shrimps and turn into a mold dipped in cold water. Let stand until chilled and firm and cut in squares to serve.

If a party salad is wanted, garnish each mold with a whole shrimp set in a little clear jelly. Add chopped shrimps to remaining jelly and fill molds. If wanted for six and eight persons the rule should be doubled. If stock is not at hand, bouillon cubes can be used. This saves time and work.

FLAPPER FANNY
SAYS—

Autos that stop in time to avoid a collision are just lucky enough to get the brakes.

BEACH GIRLS
CAN'T GO NEAR
WATER AT ALL

BY DIANA MERWIN

(Associated Press Fashion Editor)

Paris—(AP)—This year's beach girl will have to stay even further away from the water than her predecessors, because her new bathing suit of printed wool jersey will have yellow, reds and greens stamped on it in the general effect of an exploding paint factory.

Salt water might mar the riotous stamped patterns of spring's preferred bathing suit patterns. If the modern art ran, the 1929 bathing beauty would look like something left over from the impressionist period of expression.

Among the quieter combinations in the vividly colored jersey prints destined for beach coats, sleeveless pullovers and one-piece swimming suits are riots of crimson, orange and black on white ground, and there are three cornered jersey scarves, also gayly printed, in the new season's sport offerings. These are meant to be worn instead of caps, belts or beach coats.

Another thought for the bathing beauty is the straw covered sunshade with handle and ferrule of colored glass. Beach pillows and bags are also made of straw or imitation straw.

There is plenty of wooden jewelry for the young ladies who can't leave off barbaric ornaments even on the beach. The beach costume jewelry includes large round beads and rondelles in bright colors, bracelets and anklets of carved wood and bone. One specialist shows beach earrings including a single pendant meant to bring good fortune, after the former Cossack style of wearing one earring for luck.

DOG'S DRINK

If you keep a nickel's worth of brimstone in the dog's drinking water and leave it there, it helps keep the dog healthy and is especially good for a dog subject to worms.

SALTY STARCH

If you add salt to your starch, your iron will not stick.

ENLARGING ROOMS

When decorating rooms remember that finely lined papers and light-colored tints give a sense of space. Also arranging big pieces of furniture parallel with the rugs and walls.

Dignified

Crystal Hathaway, after reading the psychiatrist's merciless expose of the mental workings of victims of the inferiority complex, would have given anything in the world to be able to snatch back and burn that mad "ransom letter" she had concocted and sent to her cousin, Bob Hathaway.

She had hardly given thought to the possibility—no, certainly—that some poor, innocent devil would be arrested and charged with the kidnapping!

What could she do? Oh, God, who loved even base creatures like herself, what could she do?

Regardless of the cold winds which poured through the cracks, Crystal flung herself down upon the floor, sobbing wildly, beating upon the splintered boards with her clenched fists until her knuckles bled. There was no way out—but death. And twice on Monday she had tried to commit suicide and had found that she lacked the courage.

When the first fury of her self-hatred had spent itself, Crystal tried to think clearly. What would happen if she simply unlocked the door, walked out with her suitcase, and returned to Stanton? She tried to follow herself on every step of that hypothetical journey and its ending. If Bob had not yet given the ransom letter to the police, but was going to wait until night and place the \$5,000 in the garbage pail in front of his house, as her incredible letter had demanded, no one outside the Tarver and Hathaway families would know what she had done. No! She was forgetting! Cherry! Cherry who disliked and despised her, saw through all her silly little tricks and artifices, just as her cousin Bob did.

THE PATTERN OF STYLE NO. 3461 is tempting with its picture lessons, explaining everything one would wish to know regarding making. It's a splendid opportunity for the young miss just starting to make her clothes. Cuts in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32 and 34 inches bust. The pattern is offered at cost price 15 cents (stamp or coin) as a service to readers who sew.

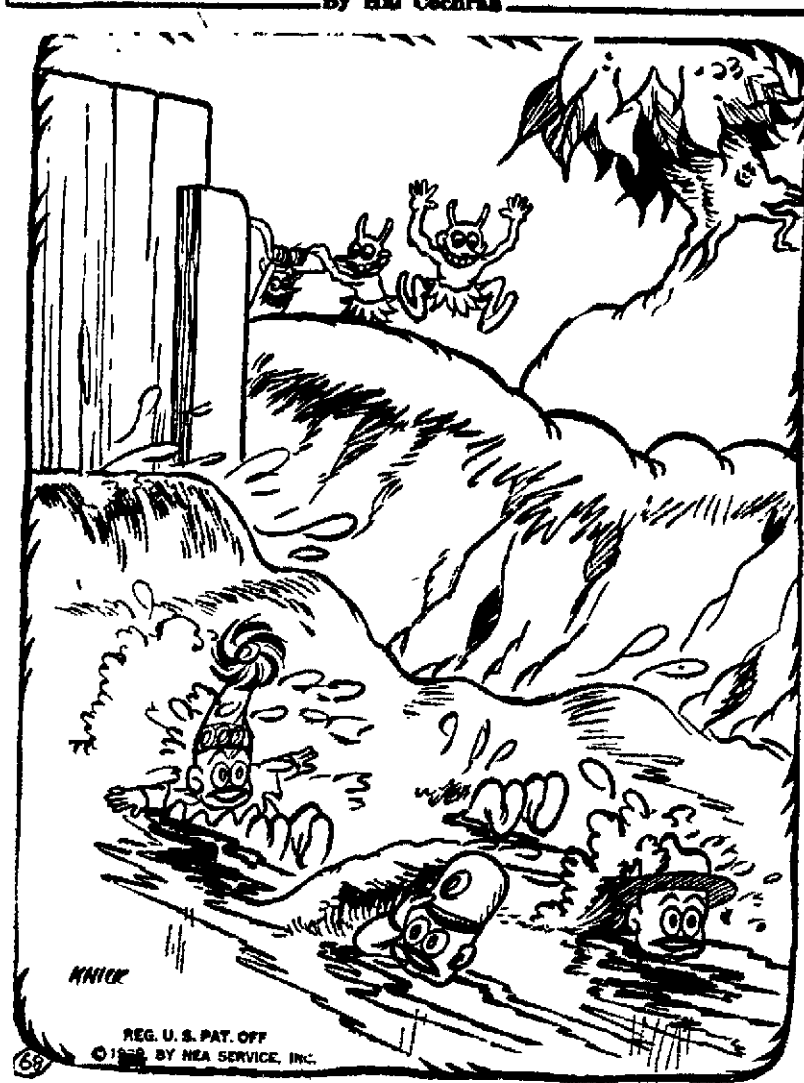

NEW FASHION BOOK containing all the spring styles is 15 cents, but may be obtained for 10 cents if ordered with a pattern.

THE TINYMITES

By Hal Cochran

READ THE STORY. THEN COLOR THE PICTURE

WHEE! Clowny stood upon some rocks, and eyed the monstrous water locks. "I've heard of these before," said he. "They're all around the land. One great big place they're always seen! The Panama Canal I mean. Of course I've never looked on those, but folks say they are grand."

"You bet they are," the Sea Man said. "They tower away up overhead. To see them work would really be a thrilling sight for you. I would suggest that some bright day, when all of you are down that way, you just stop over for a while and watch the boats go through."

Then Scouty shouted, "Now let's go and see how they work down below. We've wandered all around the top and seen enough of this. I'll bet the locks, when open wide, make anybody want to hide. Gee, just imagine how the water rushes with a hiss."

So, down below they promptly

went and 'bout a half an hour was spent in tramping over the lower bed. Then Copy cried aloud, "Where are the Trouble Tots? I'll bet they'll get us into trouble yet. I wonder what it was that made them leave our happy crowd."

The Sea Man winked his eye and smiled. Said he, "Now listen here, my child. Those pesky little Trouble Tots are up to no real good I sadly fear that you will find they have mischief now in mind. Whatever they may do, you Tinkies might have known they would."

Just then the big locks opened wide. "Look out," the Sea Man loudly cried. And then the jumped to safety, while the bunch began to scream. The Trouble Tots had played their trick, and it had worked out very slick. The water from the locks took all the Tinkies down a stream. (The Tinkies are rescued in the next story.)

Fashion Plaques

BANDS OF RED and red and white checks in varying widths are appliqued on a long yellow crepe scarf for spring.

terically, glad of the pain she had inflicted upon herself. "Trying to justify yourself—you fool! I'm not fit to live! And I haven't the courage to die! Oh, God, have mercy on me! Show me what to do!"

But not even that passionate prayer or wholly sincere, Crystal knew that she ought to do. But it was as impossible for her to go and confess her sins to Bob, Faith, Tony, Cherry, as it was to kill herself.

She was still lying on the floor, exhausted with weeping, when she became conscious that the room was filled with smoke and the odor of burning beams.

Although she really wanted to die, or thought she did, the instinct of self-preservation made Crystal leap to her feet and drag the pot from the fireplace. With a fork she dug at the mass frantically, but there was less than a cupful that could be eaten—unless she was starving of course.

NEXT: A new punishment.

Splendid Recipe
To Stop A Cough
That "Hangs On"

The best cough remedy that money could buy, can easily be made at home. It saves money and gives you the most reliable, quick-acting medicine you ever used. The way it takes hold of stubborn coughs and cures them, giving immediate relief, is astonishing.

Any drugstore can supply you with 2½ ounces of Pinex. Pour this into a pint bottle, and fill up with plain granulated sugar syrup or strained honey. It's no trouble at all to mix, and when you once use it you will never be without it. Keeps perfectly and tastes good—children really like it.

It is surprising how quickly this home-made remedy loosens the germ-laden phlegm, and soothes and heals the inflamed membranes. At the same time, it is absorbed into the blood, where it acts directly on the bronchia tubes, and helps the system throw off the whole trouble. Even those severe coughs which usually follow the "flu", are promptly ended.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

Realistic Wave
A Truly Realistic Wave—Loose or medium as you desire—no more dry, split or damaged ends—leaves the hair soft, glossy and easy to manage.

They'll taste better if you
bake them this way—

The next time you bake use Pillsbury's Best Flour, and notice how much better everything tastes.

The flour you use has a lot to do with the flavor of the foods you bake. The food editors of leading magazines—women who have spent their lives studying baking—say that this is true. There's a good scientific reason for it. Certain kinds of wheat are richer in flavor than others, and Pillsbury's Best is made only from these carefully selected types of wheat. Try it yourself—you'll find a delicate, unmistakably better flavor in everything you bake!

**Pillsbury's
Best Flour**

KNIGHTS OF COLUMBUS
BOWL TUESDAY NIGHT

Kaukauna — The weekly match series of the Knights of Columbus Bowling league will take place at 7 o'clock Tuesday on Hilgenberg alleys. Creighton versus Georgetown and St. Mary's versus St. Francis are on the first shift the 9 o'clock shift Marquette's roll Notre Dame and St. Norbert's meet Holy Cross.

KAUKAUNA FIVE MEETS
REFORMATORY CAGERS

Kaukauna — Mulford's Twenty-five basketball team will play the state reformatory basketball team at Green Bay Tuesday evening. The local line up will include W. Miller, G. Miller, Baesman, Dix, Esler, Kilgas and Ferguson. W. Miller and Esler are new players on the Mulford five. The team is coached and managed by Stanley Beguhn.

KAUKAUNA PERSONALS

Kaukauna — Miss Beryl Hilborne of Green Bay spent the weekend with local friends.

Omara Reef is in Milwaukee on business this week.

Ralph Burns of Green Bay spent the weekend with his parents, Mr. and Mrs. P. Burns.

Mrs. William Seibers was a visitor in Racine Sunday.

Merritte Kavanaugh returned to Madison to resume his studies at the University of Wisconsin after spending a few days with local relatives.

Miss Eva Starr and Mrs. Nathan Greenberg returned to Chicago Sunday after visiting Mr. and Mrs. A. Golding for several days.

James Thermos is in Milwaukee on business for a few days.

Anthony Borland left Sunday for Detroit, Mich., where he will reside for some time.

Harvey Dix returned Sunday from Milwaukee where he visited for several days.

Miss Adelle Greenberg of Chicago is the guest of Mr. and Mrs. A. Goldin.

Mr. and Mrs. Marshal Bayorgen visited in Green Bay Sunday.

SEYMOUR FIVE WINS
FROM HORTONVILLE

Special to Post-Crescent

Seymour — The local basketball team defeated the Hortonville team at Hortonville Friday evening by a score of 16 to 23.

Mrs. H. P. Muehl entertained 20 young people at the Muehl home on Friday evening in honor of the birthday anniversary of her daughter, Millicent.

The Rev. F. Ohlrogge was at Athens the past week attending the funeral of a friend.

Miss Joyce Wensel spent the week end at Brillion.

Alex Gehling is very ill at his home.

Mrs. Kolbeck, Mrs. Brey and Miss Genevieve Goetz of Sturgeon Bay and Andrew Dilger of Milwaukee were here to attend the funeral of Conrad Dilger on Saturday.

Miss Martha Gehling of Chicago is here on account of the serious illness of her uncle.

LONDONERS FORSAKE BRIDGE FOR POKER

London — (AP) — Poker playing is becoming more popular among English society women.

Many clubs where poker is played for high stakes have sprung up during the past few months, and the majority of the members are women.

Play is continuous from early afternoon until the small hours, and a large number of women, after finishing at daybreak, return to resume the game in the afternoon. At some of the clubs players may have light meals served to them at the tables so that their game may be uninterrupted.

Subscriptions to these clubs are comparatively low. Membership fees range from about \$5 to \$50 a year, but refreshments and "extras" are costly. At night the gambling runs high, often as much as \$1250 being lost and won on a single poker hand.

So rapidly is the gambling fever spreading among women in the fashionable West End that some of the night clubs have installed "fruit" and "nickel in the slot" machines for them to try their luck between dances.

Certain of the long-established social clubs do not allow poker to be played. These are fast becoming the last resort of yesterday's bridge players. Their members who are poker players must either move on to a friend's house or to one of the new clubs when bridge becomes too slow for further endurance.

The Post-Crescent's representative at Kaukauna is Lloyd Denu. His telephone number is 194-W. Business with The Post-Crescent may be transacted through Mr. Denu.

Social Items

Kaukauna — A regular meeting of the Intermediate Christian Endeavor of the Immanuel Reformed church was held at 7 o'clock Monday evening in the church assembly. Business transacted was routine.

There will be a meeting of the south side Women's Catholic Order of Foresters at 8 o'clock Wednesday evening in the south side Forester hall. Regular business will take place.

Catholic Knights of Wisconsin will meet at 8 o'clock Tuesday evening in the south side Forester hall. Members are urged to attend.

The Mooseheart Legion held a meeting Monday evening in Moose hall. The names of members nominated for officers which will be elected in the near future were announced.

RAILROAD URGED
TO MODERNIZE ITS
KAUKAUNA SHOPSJeopardize Business in Valley
by Closing Shops, Alderman Says

Kaukauna — Urging the railroad not only to give up its plan of closing the railroad repair shops at Kaukauna but to enlarge and modernize them, Alderman George L. Smith, has addressed a letter to Chicago and Northwestern railroad officials protesting against shutting up the shops on March 1.

Mr. Smith's letter follows: "The recent announcement that the railroad shops of our city are to be discontinued on March 1 came from a clear sky and has left the city stunned. That it will be a calamity cannot be questioned.

"With the recent announcement of the railroad company to discontinue the shops comes a feeling of uneasiness and disappointment on the part of residents of this city. It is hard for the citizens to understand where there is any justification in such action.

"In substantiation of this statement a review of the situation may not be amiss. It is a well-known fact that the Fox river valley, for a distance of approximately thirteen miles, from Kaukauna to Neenah, is a place in which is located many large manufacturing plants. All depend almost entirely upon the railroad company to supply their mills with raw material and to ship their manufactured products out.

"To accomplish this for the period of one year only, requires unloading of some twenty-five thousand or more freight cars, all of which have to be kept in repair and in close proximity to the mills. The revenue to the railroad company, for the service rendered the mills in transporting their materials, is approximately thirteen to fifteen million dollars per year, or one million or more dollars per year per mile, for the territory served.

"With the railroad shops located at Kaukauna, the railroad company is in position to keep their 'rolling stock' in good operating and mechanical condition, and to give to the mills service which they desire, and to which they are entitled. To discontinue the shops would certainly cripple the service to the mills.

"It has been stated that the reason for discontinuing the shops is because the kind of power they are able to handle and repair there is obsolete and discarded, but this statement cannot be verified by the shop records. On the other hand, those in position to know state emphatically that much of the heavier and better power owned by this company has been repaired at the local shops. Again, the C. & N. W. railroad company does not maintain and operate shops of such magnitude and equipment anywhere else in the state of Wisconsin, and, therefore, the work done at the Kaukauna shops cannot at present be done anywhere in our state.

"Again, the discontinuance of these shops would be, in a manner, a discrimination against the state of Wisconsin, especially as we are led to believe that the company maintains three shops in the state of Iowa. We appreciate that it is the company's privilege to maintain shops in Iowa or any other state as they see fit, yet it may be a grave question if there is any other thirteen miles of road on the whole Northwestern system that produces the same revenue as that part of the road from Kaukauna to Neenah, and, therefore, we do not believe there is any justification in the action of the company officials, and such action on their part cannot be considered anything but a direct blow to the best interests of the manufacturers and shippers of this locality.

"Closing the shops does not contemplate the import of the millions invested in manufacturing plants in this small area and has no conception of the result and obligation on their part to operate and maintain, in close proximity to the plants, their own plant, properly prepared and equipped to make needed or hasty repairs to the thousands of freight cars and motive power which annually traverse this section, the business of which must be handled without delay and which delay would surely occur, were the shops discontinued.

"It is reported on good authority that the quality of the work turned out at the Kaukauna shops is second to none on the system and in efficiency of the workmen and the low cost of operating expenses, the Kaukauna shops rank well at the top of the list.

"Briefly, we vigorously protest the action of the C. & N. W. officials and we say emphatically to them that to discontinue the shops will be a move on their part which cannot help but reflect against them and their management and one which will greatly hamper the paper and paper industry of our own state.

"To State Officials, while we appreciate the fact that you may have jurisdiction in this matter, yet we do not ask you to exercise your powers right except as it may seem best to you, but we do urge you to enter your protest with our against such action on the part of the Railroad Company, for it means a financial loss, in taxation to our commonwealth and it is to the best interests of our citizens to keep this industry within our borders.

"To Officials of the C. & N. W. R. Co., we say 'Arouse yourselves' to a keen sense of appreciation of the vast revenue you are receiving from this section of the Fox River Valley and in return, place yourselves in even better position, if possible, to render more efficient service to the vast shipping and manufacturing interests of this locality.

In place of discontinuing the shops at Kaukauna, enlarge and modernize them, equip them with

NAME COMMITTEES OF
HILBERT RELIEF CORPS

Special to Post-Crescent
Hilbert — At the next meeting of the Women's Relief corp. which will be held at their rooms Feb. 28 the Hilbert committee will be: Jone Zimmerman, chairman, Elizabeth Pieper Della Large, Lucy Dehne, Mary Schumaker Margaret Madler, President Anna Glat appointed the different committees for the year as follows: aid committee, Margaret Madler; relief committee, Ann Mc Graw, Mary Vollmer, Ida Baeslager; executive committee, Gertrude Weber, Elizabeth Pieper, Verna Schmidt, Tena Olander, Lucy Dehne; child welfare, Viola Weber, Iola Jaacksels, Helen Schmidt.

The daughter of Mr. and Mrs. Van Roy Madler was christened Sunday afternoon.

Mr. and Mrs. Joseph Bernklan of Milwaukee, on their way to visit their daughter, Mrs. Sylvester Vollmer here Sunday were compelled to return to their home after coming as far as Sherwood where the roads were blocked by snow.

Nick Schreiner spend the weekend at New Franken.

Jake Brackman attended the funeral of Pat Mr Cornick Sunday at Chilton.

such machinery and facilities as will enable you to properly economize in expenditure for repair and rebuilding work done at this point consider the great outlay and expense involved to duplicate the shops at some other location; consider the fact that ninety percent of your employees at this point own their own homes and appreciate what the abandoning of those homes would mean to the owners of them, were they obliged to seek other locations, consider the fact that in the state interests herein set forth that your own interests are advanced, as well as the interests of the mills and our own citizens, for it is absolutely imperative that the mills remain in our midst; consider also that to enlarge and properly equip and maintain the shops here would be proof positive, not only to the manufacturing interests of this locality but to the citizens of our state, that your management is in sympathy and keeping with our best business and manufacturing interests, and that you desire to serve them in a manner fit and becoming a Railroad Company of your type and magnitude; and if you feel that you have not sufficient room to expand, to properly meet the situation or if you have any grievances of any kind, we respectfully ask you to present the matter to the Mayor and Common Council of our city, and you have every reasonable assurance to believe that you will be given every consideration it is possible to give you."

SCHLAFER HDWE. CO.DRAMATIC CLUB HAS
ANNUAL ELECTIONHarry DuPont Is President
—Junior Group Preparing
to Stage Play

Kimberly — The first meeting of the Kimberly Dramatic club this season was held Monday evening in the Kimberly clubhouse. Officers were elected. Those now in office are: Harry DuPont, president; Bernad Spay, vice-president; Mrs. Rose Walsh, secretary; Gertrude Laut, treasurer; Harry DuPont, stage manager; Martha Verhagen, property custodian, and Agnes Lumers, musical director. The next meeting will be held on March 3, when plans for the next play to be presented will be discussed. The club, though organized, has not presented a play for some time.

The members of the Kimberly Junior Dramatic club are practicing steadily on the "play that reaches the heart" in three acts, "Mother Mine." The play is being directed by the Rev. F. Skell. Those taking part in it are: Florence Laiberg, Miranda Peasley, Mother Mine; Ruth Schwabke, Lettie Holcomb, a person with a nose for news; Ethel Verhagen, Martha Tisdale, a neighbor; Helen Marneau, Cynthia Whitcomb, the mayor's wife; Marie Allie, Lillian Whitecomb, the mayor's daughter; Idella Courchane, Mary Tisdale, Martha's daughter; Sylvester De Wildt, John Whitecomb, the mayor; Victor Courchane, Jack Payson, a merchant's son; Harold Williams, Joseph Payson, a merchant; Robert "Buck" Le May, Jerry MacConnell, a newcomer in the town; Matt DuPont, an officer from Boston; Jake VanLeur, Sam Blunt, the constable. The plot of the play centers around Miranda Peasley, a sweet, lovable woman about fifty years of age. The setting of the play is a small country town in Maine. The date when the play will be given has not yet been determined.

On Monday the pupils of the seventh, eighth, second and third grades of the parochial school moved into the new school building. The school is being built on a unit plan, four rooms to a unit. The first part of the school is now completed.

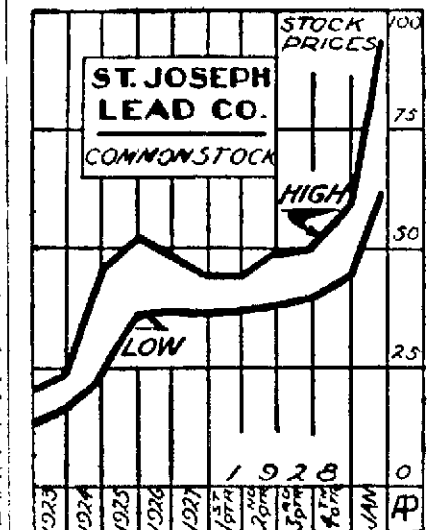

A firemen's meeting was held Monday evening in the village hall. Routine business was transacted.

American Legion post No. 60 will meet Wednesday evening in the clubhouse.

The members of the Women's Catholic Order of Foresters will meet Thursday evening in the clubhouse.

On Thursday afternoon the Ladies' Aid society of the Presbyterian church will be entertained at the clubhouse by Mrs. E. Breier.

Mr. and Mrs. M. H. Verbeten left Sunday for Milwaukee where they will attend a meeting of the Inde-

ST. JOSEPH LEAD
COMPANY TO BUY
NEW ORE BODIES

New York — (AP) — St. Joseph Lead Co., one of the larger American lead producers, is planning to sell its railway and other properties and to use the proceeds to acquire new ore bodies. The company has been prospecting extensively in recent years.

Properties to be sold include the Mississippi River and Bonne Terre railway, an interest in the Missouri Illinois Railway Co., and a power plant in southeastern Missouri. The company has a smelter near St. Louis and owns mining properties in Missouri, Montana, Oklahoma and New York state.

Earnings in 1927 fell off to \$2.06 a share, compared with \$4.21 a share in 1926, ascribed largely to lower lead prices. Operations in 1928 were said to have been more satisfactory with the general upturn in the non-ferrous metal markets. Four regular quarterly dividends of 50 cents and four annual extras of 25 cents have been declared for 1928.

ELECTRIC FISHERMAN

Berlin — Electricity is the newest aid to fishermen. In certain parts of this country, big catches are reported from the use of an electric fishing device. It consists of two copper cables, one of which is placed below the water, and the other near the surface. Current passing between the two kills all fish in the vicinity.

NEW MOTHER HUBBARD

London — A room at Drayton park, 12 feet wide by 18 feet long, housed a husband, his wife, and eight children. The landlord recently asked a magistrate to evict the family.

pendent Grocers' association. They are expected back Tuesday.

Mr. and Mrs. Oliver Mathy of Brussels returned to their home Monday after spending the weekend visiting at the home of Mrs. Mathy's parents, Mr. and Mrs. Norman Le May.

ATTENDS FUNERAL OF
RELATIVE AT HARTFORD

Special to Post-Crescent
Chilton — Mrs. Gerhard Jensen went to Hartford Monday to attend the funeral of her sister-in-law, Mrs. Oliver McCarthy, who died at the home of her parents on Friday, after an illness of eight months. The funeral was conducted from St. Kilian church by the Rev. Joseph Hartmann at 9:30 Monday morning, burial being in St. Kilian cemetery.

On Sunday Mr. and Mrs. Edmund Arps, Mr. and Mrs. Gerhard Jensen, Mr. and Mrs. G. L. Weber, the Misses Irene Flitlow and Mary Fuehrer, and Raymond Holdridge motored to Hartford to call at the Walsh home.

The Woman's club meeting, which was to have been held on Monday afternoon, was postponed for two weeks on account of the cold.

Mrs. Rose Finger and daughter Marcelle have moved into the Kersten apartment on Lincoln street recently vacated by the G. L. Weber family.

Roland Tesch was an Appleton visitor on Sunday. He was accompanied by Mrs. Frank Tesch and Mrs. Roland Tesch, who had been visiting relatives in Appleton since last Thursday.

The Schaurette Electrical Co., which has been occupying the Niswold building on W. Main street, is moving into

the Hoffmann building on E. Main street, and will open there March 1.

Eldred Hedrich, assisted by Herman Pingel, road commissioner, started last week to open the Rantoul roads. He has been engaged by the town of Rantoul to run his truck in conjunction with the town's snowplow.

County Judge and Mrs. H. F. Arpe were New Holstein visitors on Sunday. They were called there by the death of the former's grandmother, Mrs. J. Hansen.

Otto Bechlem left on Monday morning for Kaukauna to attend the Grand chapter of Royal Arch Masons of Wisconsin. Mr. Bechlem went as the delegate from the local chapter.

DAUGHTER BORN TO
COUPLE AT DARBOY

Darboy — Mr. and Mrs. Matt Hopfensperger are parents of a daughter born on Saturday. The baby was baptized Sunday with Mr. and Mrs. Hubert Hopfensperger as sponsor.

Louis Probst, son of Mike Probst, is at St. Elizabeth's hospital at Appleton where he submitted to an operation.

Leo Gregorius is filling the ice house of Mrs. Schwartzbauer.

THE BLACK PIGEON

© 1929 By NEA Service, Inc. BY ANNE AUSTIN

THIS HAS HAPPENED
RUTH LESTER, beautiful secretary to "HANDSOME HARRY BORDEN," suspects her employer of shady stock dealings and would resign but for a romance that springs up between her and JACK HAYWARD, whose office is just across the narrow aisle from Borden's. On a Saturday morning in January she informs BENNY SMITH, office boy, of her engagement to Jack.

When Borden comes in, Ruth hands him an orchid-tinted envelope which he impatiently thrusts into his pocket and greets with a snarl the woman with the beautiful contralto voice called him. Ruth gets \$500 from the bank and two tickets with drawing-room for Winter Haven for Borden.

RITA DUBOIS, night club dancer, who is to accompany Borden to the resort, calls during the morning. Another caller is MRS. BORDEN, the promoter's wife and mother of his two children. Borden forces her to ask him for her money and all money on a certain date. Learning Borden is busy, the wife agrees to return about 1:30, but before she leaves she glances a pistol in Ruth's desk.

When Rita leaves Borden waves goodbye with the torn half of a bank note, reminding her of a certain bargain. While Ruth is taking Borden's dictation he makes a playful pass at her and she screams. Jack in the opposite office hears her and becomes violently angry at Borden. She meets Jack for lunch, but forgets her bank book and rushes back to the office where she bruises her lip. She has a difficult time convincing Jack that Borden did not hurt her. While they are lunching, Jack discovers he has left the theater tickets on his desk and he returns to get them.

NOW GO ON WITH THE STORY

CHAPTER
Jack made an impatient gesture toward the waiter who had hurried to the table, order pad in hand. "No dessert. But you can bring the check.... What do you mean—Borden?" he demanded of Ruth, in an odd, constrained voice, as the waiter was removing Ruth's dish of melted ice cream.

"You—look so queer that I thought you might have had a quarrel with Borden," Ruth quivered, oblivious of the waiter's presence. "Oh, Jack, what is the matter? Did you see him?"

Jack frowned then poured himself a cup of coffee with a hand that trembled slightly. "Why should I see him? Watching Borden isn't my favorite indoor sport."

He must have realized then how violent his voice was, for he softened it suddenly. "There's nothing the matter, honey. I—just thought I'd gather up some work to do over the week-end," and he pointed to the well-filled brief case he had propped against the wall.

"You're going to work tomorrow?" Ruth asked slowly.

Jack smiled at her, with oddly pale, taut lips. "Just during the day. We'll have our evening together. Sorry to have kept you waiting, sweetheart."

She tried gallantly to play up, though her heart felt like a stone in her breast. "Poor Letty! She's like a ghost, isn't she, dear? A drab, old, old ghost, haunting a scrub pail and a mop all day. But I'll never forget Letty. You know, darling, it was your sweetness to old Letty that made me first realize that I loved you."

His smile became more natural, eager. "Yes? I thought you said last night you'd loved me since the first time you saw me, when you were feeding the pigeons."

"O course!" she nodded, almost happy again. "But I didn't realize until the other day Tuesday, wasn't it? How long ago it seems now! when you were showing me your office so proudly. Remember? You'd sent Miss Hester out for a quart of hot chocolate and you made poor old Letty have some, too."

"Oh, Letty and I are pals," Jack laughed. "Ever since her first day in the building, when I noticed that she was new and told her I was glad to meet her, she's thought your precious Jack a 'really remarkable fellow.'"

"And he is!" Ruth cried, completely happy again. "Oh, Jack!" She caught her breath sharply on that beloved name. Then she laughed softly, her blue eyes limpid with love. "Darling, I'll never forget how comical you looked last night when I came back into the room without my spectacles, with my curls turned loose and that awfully yellowish powder scrubbed off my face."

"That was a mean trick to play on a man!" Jack himself engaged to one girl and then find himself saddled with an entirely different one!"

"Are you sorry, darling?" she teased, the dimple tugging at the corner of her beautiful little mouth. "I suppose I'll have to make the

Grandmother Knew
there was nothing so good for congestion and colds as mustard. But the old-fashioned mustard plaster burned and blistered.

Musterole gives the relief and help that mustard plasters gave, without the plaster and without the blister. Gently rub it in. See how quickly the pain disappears.

Try Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it may prevent pneumonia).

Jars & Tubes
MUSTEROLE
Not a Mustard Plaster

best of you," Jack retorted. Then to the waiter. "The check? Oh, yes."

Ruth watching his face because she loved it so, saw a frown pass quickly over it as his eyes scanned the check. And again joy fled from her heart.... She tried to grasp its flying wings: "Oh, no! Jack isn't stinging! Why, he's the soul of generosity. I've seen him tip Letty and the elevator boys—"

She turned away her eyes, lest she see that the tip was small.... She could not have born that—not today!

"Your brief case, sir," the waiter called to Jack as he and Ruth were leaving.

Jack accepted the heavy bag with muttered thanks and Ruth thought he looked at it with distaste—disgust even. "The poor dear doesn't want to work, but feels that he has to, now that he's an engaged man, planning to get married!" she deduced, trying to recapture joy. "Of course! That's why the bill did, mayed him. He wants to save for our home—now."

At the theater Jack refused the singsong offer, "Check your hat and coat and bag, sir. Check your hat and coat with a cur 'Nig' And he nursed the heavy bag on his knees during the entire performance of the play.

The show they had chosen so happily the night before, when making their plans, proved a disappointment. It was a murder mystery, with the action taking place in a courtroom. Ruth had wanted to see it because of her familiarity with the law and with trial procedure, but unfortunately the district attorney looked something like her father, who had lost his life in a courtroom, and during the second act she burst into tears and cried so hard that people around them looked at her with impatient disapproval.

"I think we'd better duck the rest of this," Jack urged, his mouth tight and grim. "I never realized—I'm not enjoying it any better than you are, darling. I've already guessed who the murderer is anyway—pretty obvious, and it's rather a sordid way to spend our big afternoon."

"No, let's stay," Ruth choked. "I—I want you to get your money's worth."

When she had said it she could have bitten out her tongue. Excuse was that by this time she was so nervous and ill—she must be taking a dreadful cold—that she hardly knew what she was saying.

They sat through the third act, their hands touching only once. And she had dreamed all morning of that glorious opportunity for holding hands!

"Let's go to the savings bank first, then on to my apartment for dinner," Ruth suggested, almost timidly, when they left the theatre. "I want to cook for you—to get into practice."

"That's the spirit!" Jack applauded, but the smile on his lips scarcely touched his eyes. What—oh, what had happened? Ruth wondered desperately.

But in the bank, open Saturday afternoons for savings bank depositors, he seemed more himself again, teasing her about her thriftiness, and gallantly relieving her of her handbag while she made out her deposit slip and endorsed her salary check.

"Peeking to see what kind of lipstick I use?" she laughed at him, when she left the teller's window. Jack closed her little brown leather

handbag and flushed as if he had been caught in the act of stealing. "Just curious to see what a girl stuffs into a handbag," he grinned at her. "I never saw one that didn't look ready to burst. I noticed that the little inside mirror broke when you dropped your bag in the hotel dining room. Are you superstitious?"

Ruth shivered. "Seven years bad luck, you mean? Pooh! You can't scare me! I've just entered on seven years divine luck—and seven more and seven more—and seven more—"

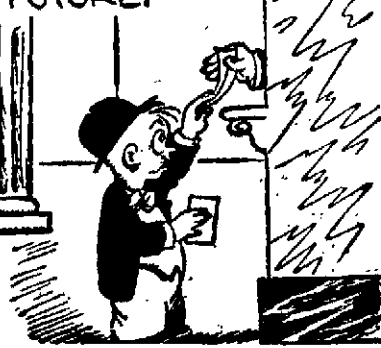

Jack's mobile, sensitive face went gray, again, almost shadowed. "Please God you're right, dear."

And do what she would that evening and the next, Ruth Lester could not long keep the shadow of trouble, even fear, out of her lover's eyes. True, he ate the dinner that she cooked for him, and praised her culinary art extravagantly. But after the dishes were washed and he restored to the tiny cupboard in the miniature kitchen, he slumped into a gloom again, forgetting to kiss her for as long as half an hour at a time. She spent most of Sunday in bed, but contrary to her fears, an actual cold did not develop. There was just that odd shiver that ran along her nerves at the most unexpected moment.

Sunday evening they ate dinner in the little restaurant to which Ruth had taken Jack the first time they had ever eaten together. In obedience to his whimsical request that she show him where she got such potent crumbs that the black pigeon would eat out of her hand.

"Oh, Jack, the poor pigeons!" Ruth remembered the birds contritely. "I was so happy yesterday that I forgot to buy peanuts to feed them before I left for the weekend. I meant to do it when I was out getting Mr.

LITTLE JOE
THE PRESENT IS TAKEN CARE OF IN THE PAST IF YOU PROVIDE FOR THE FUTURE.

Borden's money and tickets. Poor Satan! Do you think he'll starve to death before Monday? I'll take a lot of crumbs with me in the morning—"

"I don't like that black pigeon!" Jack surprised Ruth by saying the absurd words grimly. "He looks too much like his namesake, 'Handsome Harry.'"

"Darling!" Ruth laughed. "I do believe you're jealous of the black pigeon! He's a greedy scamp. But have you noticed how the little white pigeon adores him? She's never far from his side, although she's too timid to eat out of my hand yet. I wonder if most of the pigeons aren't ladies who are in love with Black Satan. He struts about as if he were the lord of creation.... I wonder, too," she mused, "how Rita Dubois is enjoying the weekend. I know she doesn't really care for Harry Borden—"

"Let's not talk about that man

again!" Jack interrupted vehemently. Then, as Ruth's delicate little face flushed and quivered: "Sorry, darling! I'm all on edge.... Keyed up, I suppose, to my new responsibilities. Shall we go out to Grand-bury with Cowan next Monday and look at the lots? Oh, Ruth! I do love you so! Forgive me for being so difficult last night and tonight. I—lots on my mind. Got to plan a future for Mr. and Mrs. John Carrington Hayward. Love me? Say it, Ruth!"

It was not until she was dressing to go to the office Monday morning that Ruth realized Jack had not reminded her of her promise to resign her position as Harry Borden's secretary. "But—why should he mind me?" she reasoned. "He knows I'll keep my promise, and I can understand his not wanting to talk about it."

She arrived at the office at 9:15, though Borden never required her presence until half past. And his train was not due from Winter Haven until 12:10. There was a great pile of letters on the floor, beneath the plot in the door, but there was something Ruth had to do before she opened, read and sorted the mail. She had not forgotten the pigeons this time. Benny Smith had not arrived, although he was supposed to

open the offices at nine o'clock sharp. Of course he was taking advantage of Borden's absence.

Ruth took the dried sponge out of the little glass dish on her desk, then emptied into it an envelope of crumbs. Satan and his harem should have a feast and not have to wait until noon for it, either!

Smiling, she opened the door between her office and the Borden's private office and, with the glass dish in her hand, stepped across the threshold.

The ghastly spectacle that met her eyes robbed her of all power of motion for the moment, and the pigeons of their meal. The glass dish fell to the floor, the peanuts and crumbs scattering upon the thick velvet rug.... But Ruth did not see them, for her eyes were fixed in a trance of horror upon the thing that lay near the window on the floor.

(To Be Continued)

A murder in Harry Borden's office. And the victim—but read the next chapter.

Miss Irene Amend has returned to Milwaukee after spending the weekend with her parents, Mr. and Mrs. J. E. Amend.

Mrs. Minnie Van Alstyne, 609 N. Center-st., was taken to St. Elizabeth hospital Monday afternoon.

Mrs. Stanley Ryan and daughter, Ellen of Janesville visited friends and relatives in this city.

"A Size for Every Woman"

You'll really be surprised at the superior quality of these bloomers. It's impossible to expect mere words to do these bloomers full justice. To determine their superiority, first, see them; second, tub them; and third, wear them over an entire season. These pre-shrunk bloomers retain their full beauty and wearing qualities in spite of repeated tubbings and continuous wear. Unusually strong, fine gauge rayon. The back rises up to avoid that downward pull that's so annoying.

GEENEN'S—Main Floor

\$1.95 Crepe de Chine Step-ins—\$1

Good quality. Some are tailored; others, fancy Georgette and lace trimmed. In pink and peach.

Northern Counties Are
Due Saturday

Madison — (P)—The woodman's axe will ring for the first time in 15 or 20 years on 1,030 acres of Wisconsin school lands if contracts, due last Saturday meet the price fixed on the timber by the state land commission.

The land commission, to date, has been selling only "junk" on timber or lands that have been burned over, or timber that has otherwise been damaged. Convinced by A. D. Campbell, chief clerk, that it was now the economic thing to do to sell the timber on isolated 40 acre tracts while there are still logging railroad branches on which it may be taken out, the land commission, Solomon Levitan, state treasurer, Theodore Dammann, secretary of state and John W. Reynolds, attorney general, decided to lease the plots, for timber cutting.

Mr. Campbell made it plain that all of the state school lands are not to be leased out, but that the forested lands on roads that are about to be removed are to be cut.

The first leases are on the 19 "forties" or forty-acre plots in Price county and on eight "forties" in Forest county. The larger sections of land are expected to bring the state no less than \$15,300 and the Forest county will sell for no less than \$6,651.

These prices were set by the timber cruiser, Campbell said, at the discretion of the commission, because bidders probably would not offer the true value of the timber if the state did not establish a price. This, he said, is because few more than one company are expected to bid on each plot, because but one company has the logging railroad near the tract and this company could remove the timber most economically.

When the protective timber around the state school lands is cut away and the slashings are left as a fire hazard, the element of chance in trespass and damage is so great that it is best to sell the lands, in the opinion of the commission.

The commission has more than 75,000 acres of mature timber on school lands, but all of this will not be sold, because some of it is on lakes and public roads, where the element of beauty of state lands is to be preserved and the transportation element is not involved. Much of the school lands is also swamp, so that all of the acreage over the state in such lands is not covered with timber.

MINNESOTA IS WINNER IN \$500,000 TAX SUIT

Washington—(AP)—Minnesota Monday won a \$500,000 tax case in a controversy with the Great Northern railway.

The controversy, pending since 1913 and decided Monday by the supreme court, involved the demand of the state that the earnings of a dock company at Allouez, Wis., should be included as a part of the earnings of the railroad which brings ore to it from the Mesabi range in Minnesota. About 81 per cent of the railway truckage is in Minnesota, and the state insisted it was entitled to tax that percentage of the total receipts of the railway and dock company. The revenue of the dock company, which is owned by stockholders of the railroad, is large.

Famous Cough Prescription

Contains No Chloroform Or
Other Harmful Drugs

The use of medicines containing chloroform or dope to relieve coughing is dangerous and unnecessary. Now anyone can get quick sure relief with a famous prescription called Thoxine, which contains no chloroform or other harmful drugs and is safe and pleasant to take. Thoxine is thoroughly efficient because it has a double action — soothes the irritation — goes direct to the internal cause, and stops the cough almost instantly. Far superior to cough syrups and patent medicines. Also excellent for sore throat. Quick relief guaranteed or your money back. 35c, 60c, and \$1.00. All druggists. Adv.

The Future Mrs. Lindbergh

Here is the best picture ever made of Miss Anna Spencer Morrow, fiancée of Colonel Charles A. Lindbergh, a recent etching that was made for members of her family. This copy was obtained by the Post-Crescent and NEA Service from Mrs. Charles Cutter of Cleveland, Ohio, who is Miss Morrow's maternal grandmother. Very few photographs of Miss Morrow have ever been taken and this crayon portrait for which she posed only recently, is said to be the best likeness in existence.

CLERK SEEKS BIDS ON COURT TERM CALENDARS

Sealed bids are to be received by John E. Hantschel, county clerk, up to Thursday on 75 circuit court calendars and 200 jury lists for the March term of circuit court. The work will be available for the printer on Feb. 23 and must be delivered on Feb. 25.

REALTY TRANSFERS

BURKE IS WINNER OF MATHEMATICS CONTEST

Joseph Burke was awarded first prize in the mathematics contest recently conducted by Miss Alma Bohman in the seventh, eighth and ninth grades at Wilson junior high school. Both posters and booklets were entered in the contest, the Burke boy winning with a poster called "The Uses of Mathematics." Miss Clara Hertzfeld with a booklet called "What is Mathematics" won second place. Honorable mention was given to the poster by Miss Gertrude Feldt, a booklet by Miss Bernice Meyer, and a poster by Miss Vera Jentz.

RETAILERS WILL STUDY FINANCING

Appoint Committee to Decide on Method for Appleton Division

A special committee composed of H. A. Gloudeeman, chairman, Joseph Langenberg and Henry Marx was appointed at a meeting of members of the retail division of the chamber of commerce Monday morning to study plans for financing the retail division in its activities during the next year. The action was taken following a report from Kenneth Corbet, secretary of the chamber of commerce, in which he stated that practically every chamber of commerce had a different method of financing its retail division. The special committee will meet at 9:30 Tuesday morning. Members of the committee also

PARTITION IS PLACED ABOUT CLERK'S OFFICE

Partitions were being installed about the private office of John E. Hantschel, county clerk, at the courthouse Monday morning. The lower part of the office already is partitioned from the rest of his office and the upper section now is being closed. The work is being done by the Standard Manufacturing company.

discussed temporary sale signs hung over sidewalks and went on record as favoring stricter regulation on the part of the city building inspector. The retailers also heard a report from the ornamental light committee to the effect that the matter now was in the hands of the city council. They also decided no stores will be open the evening previous to the spring style opening. The first day of the spring sale will be March 14.

GOVERN ALIENS WHO FLY AT CANAL ZONE

Coolidge Issues Order Outlining Principles to Rule Foreigners

Washington—(P)—President Coolidge issued an executive order Monday setting forth the principles to govern flight of foreign aircraft over the Panama Canal zone. Regulations conforming with the principles noted by the president are to be drawn up by the governor of the Canal zone.

Under the rules promulgated by Mr. Coolidge foreign aircraft must enter the Canal zone by specified routes and must land at a designated airport before leaving the zone. At these places clearance papers must be obtained and a customs inspection will be made. The necessity of forced landings at other points must be provided.

The carrying of arms, ammunition or other implements of war is prohibited. Foreign aviators are forbidden also to take photographs.

The prescribed routes and landing places will be designated by the governor of the Canal zone.

Mr. Coolidge's principles were drawn upon recommendation by the state, war, navy, treasury, postoffice and commerce departments.

WILL NOT RECONSIDER ELK HILLS DECISION

Washington—(P)—The supreme court Monday refused to reconsider its recent decision that the secretary of the interior had the right to scrutinize the title of the Standard Oil company of California to valuable oil lands in Elk Hills, Kern-co., California.

The action makes final the court's decision on Jan. 2, that former Secretary Fall, in considering the matter failed to decide whether the land was of known mineral character in 1905 when it was surveyed, and that Fall's finding that the company's title had become unassailable was not binding.

Counsel for the company in petitioning the rehearing said that the court's opinion, rendered by Justice Brandeis, was based upon a misapprehension as to the facts and a mistake as to the law as established by its prior decision.

THREE Y DORM MEN LEAD IN HANDBALL

Joseph Shields, George Tomlinson and A. P. Jensen are now leading in the Y. M. C. A. Dormitory Men's handball tournament. Jensen defeated Joseph Tomlinson in the Saturday matches and Tomlinson defeated R. W. Norris. The three men will play in the semi-finals this week.

SCHEDULE TWO GAMES IN Y CAGING TOURNEY

Two games are scheduled for 7:30 and 9 o'clock Tuesday evening in the Industrial-Y. M. C. A. basketball league. The Citizen's National bankers will clash with the Y. M. C. A. and the Kimberly club five will play the Appleton Coated Paper team.

LIFE'S ODDITIES

By George Clark

"So you are Dr. De Forrest, the great philosopher! Now, I want you to tell me all about it."

The Inaugural Pageant FROM WASHINGTON TO HOOVER

ANDREW JOHNSON, 1865-'69 BY ALEXANDER R. GEORGE

Washington—(P)—Three hours after the death of Lincoln, Andrew Johnson, erstwhile tailor, who had been taught by his wife to write and figure, began his turbulent administration as the seventeenth President of the United States.

Johnson, who was democratic war-time governor of Tennessee and a bitter opponent of secession, took the oath of office in his rooms at the Kirkwood hotel, now the site of the Raleigh hotel, in Washington. The oath was administered by Chief Justice Salmon P. Chase, in the presence of members of the cabinet and a small group of senators and representatives.

"A grief-stricken city and union paid scant attention to the induction of the new President and there were no inaugural ceremonies. For weeks after Lincoln's death the newspaper had black-bordered columns devoted to the 'national calamity,' the hunt for the assassins

and demands for punishment of the 'conspirators.'

The military power of the Confederacy was crushed, the war was coming to a close and Jefferson Davis was a fugitive in women's clothes with an offer of \$100,000 reward by President Johnson for his capture. The Washington Evening Star displayed in bold letters a headline which read: 'Jeff Davis is Sheddading for Texas with 2,000 Rebel Cavalry. A Gloomy Cavalcade.'

During the Johnson occupancy of the White House there was a continual procession of job hunters and pardon seekers. A newspaper of the day said:

"Hundreds of pardon seekers daily besiege the White House. They crowd into the ante-room and are ushered into the President's presence; if found all right on the record, they are pardoned, otherwise not. President Johnson is still busy pardoning southerners who are worth more than \$20,000, about

3,000 having taken out their papers, while about 50,000 applications have been made."

The press of the period laments the entrance of women into politics in the role of lobbyists:

"It is a noticeable fact, and by no means a credit to the age, that there is a growing inclination to use the gentle sex in manipulating the political wires. In the lobbies of congress during the last week, about the departments at all times and at the White House, this element largely prevails."

"And it is observable that they are not the wives, sisters or daughters of those whose interests they represent. In most cases they are purely professional wire-pullers, who for a consideration undertake the prosecution of any claim, secure the appointment of their principals to office, or labor for the passage of bills."

"Relying on the defence usually paid to the sex, they thrust themselves in where the most venturesome man would be repulsed; and once obtaining the official ear they plead their cause with a pertinacity that will not be denied."

Senator J. R. Doollittle of Wisconsin, a contemporary, describes President Johnson as of "full medium stature, compact and strongly built, of dark complexion and deep-set black eyes. He is of strong intellect, indomitable energy and iron will."

The gloom which the war and the death of Lincoln placed on the White House was dispelled in time, and social events regained some of their old brilliancy. Mrs. Johnson was an invalid, her two daughters acting as hostesses at the executive mansion. A contemporary writes of the change:

"The most gorgeous display of rich toilets has now taken the place of the blue overcoats of the private soldiers from the camp and the display of fancy colors by the negroes."

"Ladies arrayed in their rich silks, satins, tulle and velvets, with their diamonds and jewels, now grace the gatherings. Gentlemen now consider it necessary to appear in their party attire. The general appearance of the rooms when the guests have gathered is that of a fancy dress ball. It is doubtful if any of those grand balls in New York can excel the brilliancy of the dress at these receptions."

Miss Elsie Nissen spent the weekend with friends at New London.

Daily Lenten Thought

BY WILLIAM E. GILROY, D. D.

The "forty days" of Lent commemorate the forty days of Jesus in the wilderness (Matthew 4: 1, 2), with their emphasis upon prayer and fasting in preparation for his ministry. But with their culmination in Good Friday and Easter the Lenten days have come to have a deeper significance in relation to the whole life of Jesus and his mission as the world's Redeemer.

The wilderness experiences would

have meant nothing but gloom and loss had they not led to Christ's conquest over temptation and to his acceptance of that sacrificial way that ended in Calvary and the Resurrection. But, through Christ's submission to the Father's will, what began in the wilderness ended in glory.

The prophet predicted a day when the wilderness "would rejoice and blossom as the rose." It was this prediction that Jesus made literally true in human life. But it is those who share Christ's wilderness experiences of sacrifice and self-surrender who find the fruitfulness and flowering of life in peace, in beauty, and in power.

Jesus never leaves us in the wilderness. He leads us out when we

are prepared for it into the active world of work and service. But he leads us into life with a new sense of its value, even in its sorrows and trials, as well as in its joys and triumphs.

Century Club Hike

Twenty members of the Century club of the boys' department of the Y. M. C. A. hiked to Lake Winnepigou on an educational tour. Nature lore and campcraft were studied on the trip. Carleton Roth, assistant boy's work secretary conducted the hike.

Miss Irene Koepeke of the Citizens National bank is seriously ill at her home.

POSTPONE Y. M. C. A. DIRECTORS MEETING

A meeting of the Y. M. C. A. board of directors scheduled for 1:30 Thursday afternoon has been postponed until 1:30 Friday afternoon, according to G. F. Werner, general secretary. Reports of members of the employed staff will be read and plans are to be discussed.

C. J. Garvey has returned from a several day business trip in Milwaukee where he attended a meeting of the Association of Wisconsin Contractors.

"Voila! reach for a Lucky instead of a sweet

the trim figure is always fashionable

Paul Poiret, Famous Parisian Creator of Fashions

"If you want to keep slender (and who doesn't in these days) avoid sweets and smoke Lucky Strikes. There seems to be something about them; possibly the flavor, that satisfies the craving for the rich things that add weight."

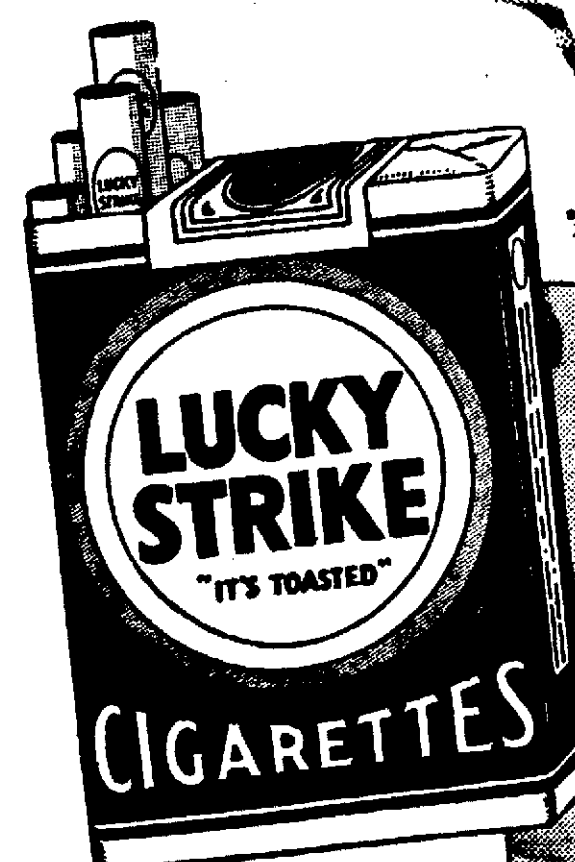

"'Voila', reach for a Lucky instead of a sweet—the trim figure is always fashionable. Advertisements that I saw when I recently arrived in America, said: 'The best way for sugar to be eaten is as a flavorer of foods'. They are quite correct in cautioning a modified use of sugar. Sweets to excess are bad. I advocate a few puffs of the Lucky Strike toasted flavor when sweets tempt."

"I may add that I smoke Lucky Strikes myself, and I think they have contributed much to the state of mind which has helped me to create my greatest successes."

"Lucky Strikes are certainly an inspiration!"

PAUL POIRET

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.

Reach for a Lucky instead of a sweet.

"It's toasted"

No Throat Irritation—No Cough,

Jean Ackerman

Gladys Glad

Badger Quintet Wallops Northwestern, 37 And 23

BADGERS COMMAND EARLY LEAD AND ROMP TO VICTORY

Two Teams Will Meet Again Saturday at Evanston Gym

BY STANLEY E. KALISH Associated Press Sports Writer

MADISON — (AP) — Wisconsin's Badgers are on top of the Western conference basketball heap today by virtue of a victory over Northwestern here Monday night as Michigan lost to Illinois. Wisconsin easily triumphed, 37-23.

Northwestern, highly touted as the Big Ten's giant killer after successive victories over Michigan and Purdue, could not slay Wisconsin's Goliath and the Badgers scored almost at will. Not until the last nine minutes of the game, when Dr. W. E. Meanwell filed a rank of substitutes did the Wildcats snarl ferociously. The score at the half was 19-8, with the Badgers on the long end.

Starting with a switched lineup, Coach Meanwell abandoned the criss-cross attack that worked in the Indiana game last Saturday, for a long passing, pivot style of play. Little Carl Matthussen, who at forward in place of the elongated Henry Kowalewski, paired with "Bud" Foster to lead the Wisconsin attack. The diminutive forward counted 10 points and his running mate bagged 11.

Of Coach Lomborg's warriors, only Mundy could make a dent in the Wisconsin wall. He counted two field goals early in the game, while the high-scoring Gleichmann netted off one basket, that in the first five minutes of play, Marshall, guard, received many "boos" from a partisan Badger crowd. He played the best floor game for the Wildcats.

Chmielewski put Wisconsin in the lead when he made a free throw after Berghern fouled him. Gleichmann gave Northwestern the lead by caging a difficult basket. Then, the Badger steam roller got under way and baskets by Chmielewski, Ellerman, Foster and three by Matthussen gave Wisconsin a 13 to 4 lead in 16 minutes of play. Schultz and Reil counted for the Wildcats, while Foster and Matthussen made a field goal and a free throw each to give the Badgers a 19 to 8 half-time advantage.

Wisconsin started fast in the second period and ran its lead to 23 to 8 in a basket and free throw by "Bud" Foster. Schultz then counted four points for the Wildcats when Chmielewski fouled him as he dribbled in to score.

In 13 minutes, a Wisconsin fusillade brought the score to 36 to 18 and Coach Meanwell substituted freely. In the quick attack, Chmielewski, Miller, Matthussen, Foster, Ellerman and Tenhopen counted, while Rundy and Reil were scoring for Northwestern.

While Doyle was making the only Badger score in the last four minutes, Haas, Reil and Mundy netted points for Northwestern.

The teams met again at Evanston Saturday night.

"Y" NET BALLERS AT KAUKAUNA TUESDAY

Appleton Team Tied at Top With Green Bay, Oshkosh

STANDINGS OF TEAMS

Green Bay "Y" 13 2 .867
Appleton "Y" 13 2 .867
Oshkosh (Oshkosh) 13 2 .867
Kaukauna 1 1 .500
Fond du Lac "Y" 1 1 .500
Paine Lbr. Co. 2 13 .133
Neenah 2 13 .133
Kimberly Club 0 5 .000

Appleton "Y" M. C. A. roller ball team will invade Kaukauna Tuesday evening to meet a net ball aggregation from that city in an effort to keep at the top of the valley league with Green Bay "Y" and Oshkosh Elks. Each team has won 13 games and lost 2 in the second half of the season. The Kaukauna team is in second place with a 500 percentage despite the fact it has played only ten games. Last week it won 4 out of five games from Neenah.

Other games on this week's card find the Paine Lumber company team at Neenah Wednesday evening, Oshkosh Elks at Kimberly Thursday night and Green Bay at Fond du Lac Friday night.

The Appleton "Y" team crashed through with five straight games last week against Kimberly, taking the first 15-12, the second 15-0, the third 15-12, the fourth 15-5 and the last 15-3.

WEISER IS WITH LOUISVILLE Tony Weiser, pitcher with the Boston Red Sox in 1928 and 1927, will be with Louisville in the American Association this summer.

DID YOU KNOW THAT—JOE MCCARTHY says the Giants and the Pirates are going to give his Cubs the toughest fight. And that he wasn't after Lester Bell of the Braves. . . . Jack Hendricks says that Kelly and Pipp are one too many first basemen for the Reds. . . . And that he would like to get someone for Pipp. . . . Mickey Cochrane, the A's catcher, has been knocking the market dead. . . . And wouldn't mind quitting baseball. . . . He wants plenty more dough from Connie Mack. . . . Earl Sande can ride his own horses in Maryland. . . . And that's more than the Prince of Wales can do at Mowbray.

WOLVES FALL BEFORE ILLINOIS' ATTACK

Slow Moving Offense Nets Suckers Win in Overtime Period

Champaign —(AP)—Michigan's Big Ten titular basketball hopes were dimmed Monday night when Illinois sent the Wolverines tumbling into a tie for second place, 27 to 24 in an overtime game. It was Michigan's second defeat in less than a week and left Wisconsin in undisputed possession of first place.

Against the Illini's slow breaking offense and compact defense Michigan's scoring duo of Orwig and Truskowski were unable to get started. Orwig scored six points while his tammate counted only two free throws.

Illinois got the jump at the start of the game, running up the count to 6 to 0 before McCoy, Michigan guard, dropped in the first of his four field goals. With Illinois handling the ball with deliberate slowness the Wolverines resorted to the same style of attack but the Illini held a 9 to 7 lead at the half.

The box score:

RIPON WINS FROM CARROLL, 21 TO 16

Pioneers Take Lead but Lose When Cohen, Halverson Get Going

Ripon —(AP)—Staging a brilliant rally in the last period, Coach Ruden took a 16-10 lead from Coach Armstrong's Carroll College Pioneers to count in the Little Four conference standings here Monday night, 21 to 16.

After getting away to a slight lead in the early minutes, Carroll left the Riponites trailing for most of the first period until Cohen, Ripon guard, and Halverson found the loop to tie the lead established by Captain Kempthorne, center and Eizer, Carroll guard. Close in shots by Martin and Breitrick helped Ripon.

Summary:

MICHIGAN BEATEN BY ILLINI, 27-24

Wisconsin Now Holds Top Rung of Big Ten Basketball Ladder

Chicago —(AP)—Wisconsin Tuesday held undisputed leadership in the Western conference basketball race while Michigan's team was in a tie for second place with Purdue.

While the Badgers turned back Northwestern's high powered offense 37 to 23, Illinois knocked off Michigan 27 to 24 in an overtime game. The disappointing Hoosiers from Indiana were no match for "Stretch" Murphy and his gang from Purdue after the first half. Purdue won, 30 to 16.

Iowa lost a chance to remain in the running when Minnesota won its first game of the season, 27 to 22. Iowa pulled itself up in the conference race by handing Chicago its ninth conference defeat, 35 to 31.

The standings:

W. L. Pct.
Wisconsin 7 1 .875
Michigan 6 2 .750
Purdue 6 2 .750
Iowa 5 3 .625
Ohio State 5 3 .625
Northwestern 5 3 .625
Illinois 4 4 .500
Indiana 2 7 .222
Minnesota 1 7 .125
Chicago 0 9 .000

OUT OF THE PAST

JACK DEMPSEY showed his passion for swell clothes way back in the days when he had few dollars and no title. But the stylishly attired Dempsey of today doesn't go in for extreme dress and his manager, Jack Kearns went for way back in those days of 1914. They went to a photographer to have the above picture taken. The newspaper photographers didn't take their pictures for nothing in those days. Dempsey was then showing this fondness for suede-top shoes and it was only in recent years that he lost his fancy for them. Overcoats with detachable fur collars were all the vogue at that time and so were iron hats, but only the real sports fell for the kind of a skimmer Kearns is smiling under.

"We were hot dressers at that time," Dempsey said recently, "even if we didn't have a buck in the kick we looked like big dough."

ST. JOSEPH FIVE TO MEET OSHKOSH

Appleton Schoolers Hold One Victory Over Sawdust City Team

St. Joseph junior high school basketball squad is going through practice sessions this week for a return game with Oshkosh high school seconds Friday night at Oshkosh. A few days ago the local parochial youngsters defeated the Oshkosh team, 16 and 14.

Last week's encounters were highly successful for the St. Joe squad and two more victories were tucked away on the shelf. St. Mary team of Menasha didn't prove to be much opposition for the Red and White and the boys romped to a 46 to 2 victory. St. Joseph was high point man in the encounter coming through with 12 baskets and a free throw. Wettengel was second high scorer with seven field goals.

The second victory last week came Friday night in a tussle with Kaukauna high school seconds. The score was 8 and 5, three baskets by Walters keeping the Red and White in the running.

LEGION TO ENTER TEAMS IN PIN MEET

Post Officials Seek More Veterans to Go to Fond du Lac

BY LAWRENCE PERRY Copyright 1929 Special Leased Wire.

New York—Reports from those at Miami who have met Al Lassman, the New York university star who received serious head injury in the Carnegie Tech game last fall, have not been reassuring.

The story is that physically he has fully recovered but that his power of memory is grievously affected. He is, however, in capable hands in Florida and the chances are that gradually he will be brought back to normal.

His case is merely one of many which show how easily the most powerful men may be injured in a strenuous sport, especially when careful supervision of athletes is not maintained. This is not to say that Lassman was permitted to continue in the game after he had become too tired to take proper care of himself, or was groggy from a previous blow; but the fact really is that most serious injuries occur under such circumstances.

Last fall a player of a prominent eleven was permitted to play through the season with a chronic appendix, the fact of his condition being announced after the season.

And there is another player on a team even more prominent who, having suffered a severe concussion in his prep school days, was sent through a gruelling season last year and next year undoubtedly will play again. And his condition is such that another severe head blow may wreck him for life.

The desire to win, the ambition to produce the strongest eleven that can be turned out, too often blinds the eyes of trainers, coaches and team physicians to the best interest of the players.

Princeton's action in shelving Stale at the height of his career for fear a leg injury might make him a cripple for life if he played was a fine action which has been duplicated elsewhere time and again, but there is a reverse side of the picture and it is not to the credit of our conduct of college sports that this is so.

BADGER FOOTBALLERS BEGIN SPRING PRACTICE

Madison —(AP)—The University of Wisconsin's drive for the 1929 Western Conference football championship will get underway here Tuesday, nearly seven months before the season opens.

The occasion will be the opening of spring practice, and with snow-covered grounds at Camp Randall, the aspirants will workout in the closed stock pavilion. Coach Glenn Thistlethwaite who saw his team make second in the 1928 race, has announced backfield candidates will practice Tuesday and Thursday, and line men will workout Wednesday and Friday of each week.

The head coach is not expected to be present at the opening workouts as he is out of the city on business, said to be that of interviewing prospective line coaches to take the place of Thomas J. Laoh, who will return to his Alma mater, the University of Notre Dame, as assistant to Knute K. Rockne.

GOLF SCRIBE SAYS WALSH RANKS WITH BEST PRO GOLFERS

Billy Sixty Says Butte des Morts Mentor Is Gaining Prestige

BILLY SIXTY, golf scribe for Milwaukee Journal who spends about each winter trying the greens and fairways of California and Florida (with expenses paid) as a guest of his boss and who pens a few lines in between times pounded out a couple paragraphs of praise for Frank Walsh, Butte des Morts pro, last Sunday. His comment on Frank's abilities follow:

Evidence that Frank Walsh's golf is highly respected by America's leading professionals is found in the telegram from Harry Cooper that he would gladly play in the international four-ball matches here in March on condition that Walsh would be signed to partner with him.

While this was a noble and indeed sensible gesture on Cooper's part the former Texas star was informed that his request came too late. Walsh had been paired with Al Watrous of Detroit. Unlike the circumstances Cooper unlikely to come here. He inferred as much in his wire. He wanted Walsh or he couldn't be bothered with playing.

FEW HOLES SPOIL SCORE

Walsh's golf in the open championships this winter and last answers why he's a partner much desired in a best ball tilt. He's a birdie shooter. Were it not for the mess he makes of two or three holes on so many of his rounds the Appleton star would be winning a good many tournaments. He manages to pick up these wasted shots by dropping birdies to keep pace with par but par isn't good enough to bag championships nowadays and Frank is usually found a few shots behind the winner.

But in the international meet here Watrous can be depended on to get the pars while Walsh bugs the birds. Together they should come mighty close to winning, even with such competition as Hagen-Diegel and Farrell-Sarazen.

Wisconsin is fortunate indeed to have a player of Walsh's ability to represent it in national meets and the Butte des Morts club at Appleton can well be proud of having as its professional not only the finest player in the state but a golfer whose behavior is as excellent as his game. I really believe that another good tournament season will bring Walsh a place on the Ryder team. He's got the shots now. All he needs to be fully qualified is a little more experience.

MARQUETTE SPURTS TO BEAT DETROIT FIVE

Milwaukee —(AP)—Marquette defeated Detroit university 19 to 14 in a listless basketball game Monday night here. A last spurt and close guarding brought the Hilltoppers victory.

A close first half ended with Detroit leading, 9 to 6 and in the third period the score was tied three times, chiefly because of Detroit's ability to capitalize on fouls.

JAP ON IOWA MAT SQUAD

Henry Hamada, 115-pound Japanese, looks like a cinch for a place on the University of Iowa wrestling squad.

NUANAKER SELLS CAR

Leslie Nuanamaker, former major league catcher, now sells automobiles in Cleveland.

SPORTS QUESTION BOX

If you have some question to ask about Baseball, Football, Boxing or any other amateur or professional sport, write to the Editor of the Appleton Post-Crescent. If you want a personal reply enclose a stamped, self addressed envelope. Otherwise your question will be answered in this column. Write to John B. Foster, on Baseball. Lawrence Perry, on Amateur Sports, and Fair Play, on Boxing and other professional sports. 814 World Building, New York.

Question—What has become of Joe Tiplitz the former lightweight of Philadelphia?

Answer—Tiplitz is in a sanitarium recovering from a mental disorder.

Question—How much expense is a tennis player allowed?

Answer—It seems to vary. When Tilden was abroad he was allowed eighteen dollars a day.

Question—What is the probable value of a franchise in a major league?

Answer—All that the owner can get for it. There is no equalizing value. A franchise in a smaller city is worth less than one in a large city. A franchise does not include a ball team. It is merely the granting of a right to play ball in a certain city with one major league or the other.

PLAY DESPITE AILMENT

When Marion Broadstone, tackle at Nebraska this year, quit school to have an operation performed in February, it was learned he had played the entire football season with an internal illness.

Rasmussen, Shields Like New Grid Fumble Ruling

BY G. E. MCINTYRE

THE new change in football rules which makes a fumbled ball point dead at the point of recovery when recovered by the defensive team, meets with the approval of Coaches Clarence H. Rasmussen of Lawrence college and Joseph R. Shields of Appleton high school, according to statements Monday afternoon. The new rule does not apply in the case of forward passes nor in backward passes which are intercepted before striking the ground nor will it apply to blocked kicks. And of course that also meets with the approval of local grid mentors.

Coach Rasmussen waxed eloquent when he discussed the fumble rule for he probably had recollections of his first game here last fall when a fumbled ball recovered by Oshkosh normal enabled the visitors to beat his team 7 and 0. The Vikes had outplayed the Sawdust city teachers and would have at least gotten away with a tie if the pigskin hadn't dropped from Esch's hands to be recovered by an opponent who galloped to a touchdown.

"The old rule which let a man run with a fumbled ball often resulted in a player getting credit for playing football when in reality he may have been playing a rotten fundamental game. For instance, a man is playing out of position in the line and a quarterback sends a ball carrier through him. One of the backfield men hits the ball carrier and he drops the oval which is recovered by the man playing out of position and he scores and becomes a hero

when in reality he should have been a dud—it isn't sound."

Coach Shields felt much the same about the old rule as Coach Rasmussen. He came to bat with the suggestion that it wasn't fair for a team to work the ball down to an opponent's one yard line with all men working perfectly, then have a lone player fumble and the opponents recover and dash for a touchdown to win. The ten men who worked hard for their yardage lose everything because of one player's action: it's hard enough on the fellows to lose the ball when within scoring distance, he believes.

While most coaches in the country seem to favor the rule, there are a few exceptions—mostly among teams which have had considerable luck in recovering fumbles and scoring with them. Harkening back over the last grid season one can find many teams that would have won games had not someone fumbled and an opponent recovered and ran for a touchdown.

Opponents of the new rule point out that the game now will become a basketball game. They say that coaches which have developed the lateral pass will toss the ball over the backfield knowing well that the worst thing that can happen is to lose the ball.

Coach Glen Thistlethwaite of Wisconsin is one of the mentors who have opposed the new rule. He claims it is putting a premium on poor playing—fumbling. However, most sport scribes will point out how many games did Wisconsin win this fall because someone recovered an opponent's fumble and dashed, 20, 40 or 60 yards to a touchdown.

Suits...O'coats

Sold Up To \$55.00

MANY of the patterns and styles are those that have been preferred all season. Entire lot to be put into one price range and sold regardless of cost. Before you consider purchasing a suit or overcoat elsewhere—see these. You'll probably want more than one.

Kaniolani

Kapiolani determined to throw berries from the bush into Kilauea's lake of fire and dispel forever the superstition that Pe-le would wreck the islands if a woman did so. One day in 1825 she began the toilsome ascent of two and a half miles to the crater.

Enraged priests of Pe-le tried to bar her way with threats, but she heeded them not and pressed on over the slippery lava.

At length she reached the summit and stood on the brink of the boiling sea of fire. She hurled into the fire the sacred berries.

Kapiolani hurled her defiance at the goddess Pe-le, commanding her to exert her power, concluding with, "Behold, oh ye people of Hawaii, how vain are your gods!" Safely then she descended the mountain, having broken forever the power of superstition over her people. (Next: Cher Ami. D. S. C.)

MOLLY. No, dear, merely super-
fluous.—*Exeunt*

WAUPACA COUNTY

NEW LONDON-CLINTONVILLE-WAUPACA

NEARBY TOWNS

E. F. RAMM IS HEAD
NEWLY ORGANIZED
NEW LONDON FIRM

Company Is Planning to
Move Into New Headquar-
ters Early in March

Special to Post-Crescent
New London—E. F. Ramm will head the newly organized Ramm Motor company, which will handle the Ford agency, formerly having done business under the name of the E. F. Ramm, Inc. The new headquarters of this firm will be established in the building located at N. Pearl and Milwaukee, a building only recently remodeled to meet the needs of a garage, office and show building for motor cars.

The company will be ready for a formal opening during the early part of March. Considerable changing about of the interior will be done before that time. Until these improvements are complete the business will be conducted at the former location, on W. Water-st. No changes are to be made in the office or garage forces.

LIONS SPONSORING
PLAY FOR FEB. 28

"Applesauce" to Be Staged
for Benefit of Child Wel-
fare Clinic

Special to Post-Crescent
New London—"Applesauce," a comedy-drama, is to be sponsored by the local Lions club, the play being given by a troupe of players appearing here through the agency of the University of Wisconsin Extension division.

The play is one which has met with excellent success and was written by Barry Connors. A company of talented entertainers takes the roles. The proceeds will be used for the benefit of the child welfare clinic. Lions of this city have pledged themselves to aid in the child welfare work. The play will be given at the Grand theatre on Feb. 28.

NEW LONDON
PERSONALS

New London—Mr. and Mrs. Frank Frahl and family of Northport, spent Sunday with friends at Mukwa.

Miss Vaden Reed, who is attending school in this city, was a week-end visitor at the Lytle Reed home.

Mr. and Mrs. Dell Carter of Seymour and Miss Mildred Carter of Waupaca, were guests at the Ralph Hanson home Sunday. It was the birthday anniversary of Robert Carter and Douglas Hancock.

Mrs. Charles Palmer and daughter Nina left Saturday for Milwaukee. The latter will be employed in that city. Mrs. Palmer remaining for a two weeks visit with friends.

Mrs. George Plowman returned to her home at Tigerton Saturday after spending a few days with her son, Otto Foster.

Mrs. Pauline Please is visiting for a few days at the Arnold Garrow home at Ostrander.

Mrs. Marie Timm and Miss Irma Weisman of Appleton, recent guests at the E. C. Green home.

Mr. and Mrs. E. C. Zillmer are weekend guests of Mr. and Mrs. Leo Reel at Green Bay.

Miss Delilah Thompson, teacher in the Wisdom Ridge rural school and Miss Amy Schaal, teacher in the Ostrander rural school, spent Saturday at Manawa where they attended the conference of rural school teachers in this district.

Mrs. B. Levinsohn and daughter Mrs. Oscar Nemeschoff were recent visitors at Oshkosh.

August Ludwig left Friday for Manitowish to attend the funeral of his brother in law Louis Timm, 82, who died at his home in that city Wednesday morning. Burial took place at Manitowish Saturday.

Fred J. Loss of Superior, was a recent guest at the home of his brother, L. C. Loss and family.

Mrs. Arthur Lash spent the weekend with relatives at Appleton. Mr. Lash will motor to that city Saturday.

Mrs. William Whitman left Friday for Madison to enter the Madison General hospital to submit to an operation for the removal of a goitre. She was accompanied to Waupaca by Miss Loretta Rice. Mrs. Hazel Barton, Waupaca, accompanied the patient to her destination.

Mrs. Ida Fisher returned Wednesday from a visit with her daughter, Mrs. James Lautenschlager and family.

Mrs. Arthur Gese and daughter returned Tuesday from Deer Creek where they spent several days with former's parents. Mr. and Mrs. Joseph Dolan.

SURPRISE PARTY HELD
AT LEBANON DWELLING

Lebanon—Melvin Prahl, son of Mr. and Mrs. August Prahl was surprised at his home Friday night the occasion being his fourteenth birthday anniversary. Fifty was played. High honors were won by Verna Tank and Melvin Prahl, and consolation by William Dieder and Chester Dexter. Lunch was served about midnight. Those who were present were: Beatrice, Sylvia and Leona Prahl, Maite and Mabel Mentzel, Ruth Learman, Lucile and Wilma Gerhardt, Marie Tech, Harold, Verna and Vernon Tank, Dorothy and Kenneth Bender, Ernest, Paul and Arthur Prahl, Harold and Glen Marks, Hugo Bachman and Elmer Kussnerow.

HOLD FUNERAL FOR
CLINTONVILLE MAN

August Buenning, 75, Died
at His Home; Worked With
Railroad 25 Years

Special to Post-Crescent
Clintonville—Funeral services for August Buenning, 75, who died at his home on Tuesday evening were held from St. Martin Lutheran church. The Rev. R. F. W. Pautz had charge of the services. Burial was made in Graceland cemetery.

Mr. Buenning was born in Pommern, Germany, June 2, 1852. He grew up in his native country and there was married to Miss Bertha Schultz, Nov. 28, 1878. Upon coming to America in 1883 they settled on the farm, now known as the Vanderwalke farm, north of this city. During most of their married life, however, they have lived in this city. Mr. Buenning working on the railroad over 25 years and later was flagman at the Main-st. crossing.

Surviving are his widow, four children, William and Gust of Milwaukee, Otto of this city and Mrs. William Below, route 4, city and 11 grandchildren. Pallbearers were Gust Jesse, Art Blankenburg, William Timm, Charles Wood, Martin Steenbeck and Lothar Boyer.

The Sunday evening union services sponsored by four co-operating churches of this city were held at the Congregational church. The Rev. W. C. Kurtz, pastor of the Methodist church, was the speaker of the evening.

The monthly meeting of the cabinet members of the Congregational church will be held on Tuesday evening at the church. Plans for the Easter program to be given by the various departments will be discussed at this time.

The Woman's club met at the home of Mrs. C. E. Gibson, N. Main-st. Monday afternoon. Mrs. H. E. Peterson acted as assistant hostess. A program on Americanization was put on. Mrs. Robert Blair, Mrs. A. G. Bohr and Mrs. R. T. Marston had charge of the program. Herbert Wilke, Milwaukee, was a weekend visitor at the home of Mr. and Mrs. Edward Wilke and other relatives in this city.

Miss Doris Moore, Marion, was a Sunday evening visitor in this city. Miss Margaret Keller, who is employed in this city, was weekend visitor at the home of her parents, Mr. and Mrs. Otto Keller, Marion.

Mrs. Lester Keller, New London, was a Friday visitor in this city.

Mrs. E. H. Ramm entertained the Neighborhood club at her home Friday afternoon. Mr. William Brigg, Mrs. C. H. Jellison and Mrs. P. C. Ramm were guests for the afternoon. Mrs. E. W. Wendlandt will be hostess to the club at the next meeting.

SHERIFF STABBED
TRYING TO REMOVE
MAN TO HOSPITAL

Waupaca—When Sheriff Arthur Steenbeck entered the cell of Arthur Bombard, Milwaukee, at 1 o'clock Monday morning, in order to take him to the hospital at Mendota, the latter stabbed the officer with a fork which he had secreted in his cell. A deep gash was made in the sheriff's right hand, just below the thumb.

Bombard was found to be insane last week, and was ordered confined in the Mendota hospital. In view of his violent condition, however, he was taken, to the Northern hospital at Winnebago. Services of several men were required to subdue Bombard.

IS RECOVERING FROM
INJURIES IN MISHAP

Lebanon—It is reported that Sylvester Boddy is at his home in Clintonville recovering from injuries of the chest and arms received when he was thrown from a load of logs while driving team at a logging camp near Bowler. Mr. Boddy was a resident of Lebanon until about a year ago when he moved to Clintonville.

Mrs. Emma Sommer and daughter Lucille and Mrs. Alda Ott will

Quick Success

Few girls in pictures have made such rapid strides toward success as the charming New Yorker. Just a few months ago she was given her first job, shadowing a star. Within three hours, she had a real part in the picture—"The Loves of Svengali".

Mrs. Bayard says: "I am told my selection was largely due to my perfect skin and lovely hair. I've really never taken much trouble with either. For a hair I use the simple method that most of the girls I know here in New York are so much mystified about. It's as easy. All you do is put a little Danderine on your brush each time you use it. This method is just what a busy girl needs. It's so easy, and it keeps your hair and scalp so clean you don't need to shampoo half so often. I am letting my hair grow and I find Danderine helps make it soft and easily manageable. I can arrange it any way I want and it stays that way. All my friends are complimenting me on the appearance of my hair, now, because Danderine has brought out all the natural color and made it so soft and glossy."

Danderine removes the oily film from each strand and makes dry, brittle hair glossy, soft, easy to dress. It tones and refreshes the scalp, keeps overdone dandruff at bay, keeps the hair from falling out, and keeps the hair from becoming thin. It's a delicate perfume, isn't it? It's on olive doesn't show. All drug stores have the generous 25c bottles.

WEYAUWEGA CAGERS
BEAT MANAWA, 22-10

Special to Post-Crescent
Weyauwega—Manawa high school basketball boys lost the conference game played with the local high school team on the local floor Friday evening. Coach Sontag put in the second team during the game, which closed with a score of 22 to 10. The next game on the schedule is Iola at Weyauwega.

Mr. and Mrs. Fay Prentice and Mr. and Mrs. Frank Larkee visited with Mr. and Mrs. Roy Looker at Freemont Friday evening.

Coach Sontag of the basketball team took the local high school on a trip to Oshkosh to witness a big game there last Wednesday evening. Mr. and Mrs. Fay Prentice entertained several couples at their home Sunday evening.

MECHANICAL HELMSMAN

London—The fathometer, a recent invention which judges water depth from echoes, recently guided the liner Leviathan across the Atlantic. The device transmits electric sounds to the bottom of the ocean from the keel of the ship. The time taken for the return of the sound is used in computing the depth of the water.

entertain the R. N. A. at a Washington party Thursday evening, Feb. 21, at the home of Mrs. Emma Sommer. Mr. and Mrs. William Bussam and daughter Helen, spent Sunday at Appleton.

Miss Alice Moder, who is employed at Neenah, spent Sunday at the John Leppala home.

INDIGESTION
GOES—QUICKLY,
PLEASANTLY

When you begin to suffer from heartburn, gas or indigestion, it's usually the fault of too much acid in your stomach. The best way—the quickest way—to stop your trouble is with Phillips Milk of Magnesia. A spoonful in water neutralizes many times its volume in stomach acidity—and does it instantly. The symptoms disappear in five minutes.

You will never use crude methods when you know Phillips Milk of Magnesia. And you will never allow yourself to suffer from over-acidity again. It is the standard anti-acid with doctors and has been for over fifty years.

Your drug store has Phillips Milk of Magnesia, in generous 25c and 50c bottles. Full directions for its many uses in every package. Insist on the genuine. A less perfect product may not act the same.

"Milk of Magnesia" has been the U. S. Registered trade mark of the Chas. H. Phillips Chemical Co., and its predecessor Chas. H. Phillips, since 1875.
